Bike Air Kit Pump 2

Dero Bike

\$522.95

SKU: DERO-Air Kit 2

Availability: Usually Ships in 2 to 3 Weeks

Bicycle Air Pump | Commercial Grade Bike Air Pump

This commercial grade bicycle pump is designed to provide years of public service with minimal service. The bike air kit is a welcome addition to any Apartment Complex, Park, School or other venue where bicycles are. The Air Kit 2 measures 31 1/2" high x 6" round and features a stainless steel braided metal air hose and comfort grip handles. The magnetic head of the hose attaches anywhere to the body to the pump and the industrial grade gaskets make this bike air pump the beast of air pumps. This unit is a companion product for the Fix-It Station and is available in either a surface mount or inground mount configuration. You have a choice of 20 Powder Coated colors or standard galvanized finish. The Air Kits 2 Commercial Bicycle Pump Ships FedEx Ground. Allow 2 weeks for delivery.
