- Omg 5 stars Across the board! The ambiance is perfect, the service was amazing .. every single person we interacted with was great. The food was delicious!
- Ate there tonight on a Thursday for the first time- wonderful appeal and ambience about the whole place - very unique touch and taste to the food dishes - the drinks were 5/5- the food was prepared to perfection and the whole staff from the manager to our server Karen was excellent - Karen was fabulous!
Thanks for making our first experience an extraordinary one - we will be back and will bring others :)

- Fantastic Food on the Fox: had one of the best meals I've had in this area in a long time. Drop this restaurant into the West Loop and it would compete favorably, but at a lower price point!
Entrees were very good, but it seems the best plan is to pick a few small plates for the table and share. Each one was a winner.
Service was friendly and efficient. We'll be back.
- Fox River Knockout: my wife brought me here for a surprise birthday brunch and we had a fantastic meal. The interior decorating is top notch (real (!) candles on the table) and the views out the large windows was exceptional. We had Bloody Mary's, but the bar was cranking out all manner of craft cocktails during our meal. The beignets were and outstanding starter. The lobster pizza is a must-try, and my Nashville hot chicken sandwich was perfect. There is also an excellent selection of local brews to wash down your meal.

- Wonderful food, drinks, and service. Always consistent.
- I had several friends who spoke highly of The Graceful Ordinary and I wanted to visit. Not living close by it took so time. My wife and I went for our anniversary dinner. It more than lived up to the hype! The service from the staff was the best we've experienced. The food was outstanding with great entrees, shareable plates and cocktails. I would highly recommend The Graceful Ordinary to anyone looking for great food and wonderful dining experience!

Restaurant Guru

- The Graceful Ordinary is an example of why we go out to eat. You want to pay for an experience. You want something that you couldn't make at home. You want excellent service, and you want everything to be nice and put in it's place. You'll pay for it, sure, but you'll walk away feeling good about it. I have lot of words, but, at the same time, I don't want to bog or over-elevate the experience. When you see something truly beautiful sometimes the only and best word for that thing is "Beautiful." You get what I'm trying to say? It's nice, but not stuffy or pretentious. Feels lived in. Cozy up at the bar, have a very nice date night or take a group of friends.
