REVISED 8/14/17

Qualifying Statement

Project: ATMI Precast Parking lot at 1023 Ridgeway Avenue (2017.152)

ATMI Precast is planning on demolishing the existing house located at 1023 Ridgeway Avenue and constructing a 52 stall parking lot to accommodate more employee parking.

The following standards will be addressed as noted:

- a) The public health, safety, morals, comfort or general welfare
By adding more employee parking, this project will reduce on-street parking and therefore create a safer environment.
- b) The use and enjoyment of other property already established or permitted in the general area
The proposed improvements will not take away from the use or enjoyment of other property in the area but instead will enhance it by reducing the current on-street parking.
- c) Property values within the neighborhood
The proposed improvements will not reduce property values in the neighborhood.
- d) The normal and orderly development and improvement of surrounding property for uses established or permitted within their respective existing zoning districts
The existing R-1 lot will become a parking lot. The request includes a Special Use for the proposed non-residential parking facility for the R-1 zoned section. ATMI also request that the City approve the Final Plan and variance of the setbacks requirements.
- e) Utilities, access roads, drainage and/or other necessary facilities
The site work includes grading and stormwater improvements to improve the overall drainage in the area. Bio swales, perforated underdrains, and a storm water catchment basin are also included in the design.
- f) Ingress and egress as it relates to traffic congestion in the public streets
The new parking lot ingress/egress will be just west of the existing house driveway on Ridgeway Avenue so the number of entrances will not change and it will relieve the current on street parking issues.
- g) The applicable regulations of the zoning district in which the subject property is proposed to be or is located
The applicable regulations will be followed and maintained. The setbacks that require a variance are listed below.
- h) A bullet point list of any variances, modifications or exceptions that you are seeking from the City's Codes and Ordinances.
 - *Variance 1: R-1 District – 7.5-5.11 front yard setback line is 30'. Requesting reducing to 12'.*

- *Variance 2: R-1 District – 7.5-5.11 rear yard setback line is 30'. Requesting reducing to 9'.*
