**RE: Foster Grant Camera Budgetary Proposal R1**

Dear Ms. Anjanappa,

Thank you for the opportunity to provide a proposal to work with Scientel and install Quad PTZ camera equipment (provided by others) as part of the foster grant.

The budgetary price for this work, including labor, equipment and minor materials is \$5,000.00 per intersection. This price is based upon previous work and limited walkdowns. As there are no detailed plans to utilize for take-offs and estimates, this price is budgetary at this point. Based upon 18 intersections, the total budgetary cost would be \$90,000.00.

Assumptions:

- No permitting is included
- No bond is included in this cost
- Proposal based on standard work hours, 7:00 to 3:30. No overtime is included.
- Extensive traffic control and protection excluded from this cost. Assumes we can close any area needed with arrow boards, cones and signs
- Assumes clear access to work location
- Meade takes no responsibility for any pre-existing conditions with regards to conduit condition and spare capacity. There may be significant construction additions to this scope of work.

If you have any questions, please contact me at (708) 243-1685.

Sincerely,  
**Meade, Inc.**
