Toshiba Technology Never Looked Better

The Toshiba e-STUDIO4505AC can increase the efficiency of your workgroups, improve the professionalism of your presentations, and streamline the workflow of your organization. And, that's just for starters.

A 300-sheet high-speed, high-capacity Dual-Scan Document Feeder (DSDF) produces up to 120 IPM simplex and 240 IPM duplex. A conventional RADF is available for less scan-intensive businesses.

Toshiba has developed a customizable MFP to make your job easier. A new 9" tablet-style touch screen works intuitively, helping you find instructions, functions, and commands with the swipe of the finger. Toshiba's internally developed Multi-Station Print Enabler allows users to send print jobs from their desktop and retrieve them at any convenient MFP by simply swiping their badge and authenticating at that device.

Features at a Glance

- > Copy/Print Speed: 45 PPM
- > Print Resolution: 1,200 x 1,200 dpi
- > First Copy Out: 4.4s B&W, 5.7s Color

A Revolutionary Tool

Ensure Smooth Operation and Peak Performance
of your Toshiba Products

Toshiba has been providing innovative business solutions for over 135 years. It is our commitment to excellence that drives us to invest more than 6% of our annual sales into research and development so that we can deliver reliable products and a level of service that is unmatched in the industry.

Toshiba e-BRIDGE CloudConnect is an innovative cloud-based application that allows for remote management to your Toshiba e-STUDIO products* ensuring maximum uptime. Designed by Toshiba, this proprietary tool gathers valuable data from your devices, providing an in depth understanding of performance via the Cloud. Downtime is minimized by real-time technical alerts and warnings allowing for proactive troubleshooting as well as secure performance of various device operations such as meter reads and firmware updates remotely.

Out of Sight, Not Out of Mind

e-BRIDGE CloudConnect works behind the scenes to ensure your Toshiba products are giving you the most for your money. Natively built into all new Toshiba e-STUDIO products and available as a firmware update on most existing models, e-BRIDGE CloudConnect is simple to implement allowing you to quickly reap the benefits. By gathering data and transmitting via the Cloud, e-BRIDGE CloudConnect ensures improved management and faster response time.

Increased Uptime

- System codes transmitted via the Cloud provide continuous status of your devices, allowing you to remotely make adjustments that provide better reliability and stability. If on-site technical expertise is necessary, your service provider will know what parts are required before arriving.
- Remote diagnostics provides the ability to make adjustments on the fly to internal device codes that control copy, scan, and network settings such as color density and paper drawer priority meeting your needs are met promptly and accurately.

Device Management

- Consistently manage device configurations to adhere to company or regulatory standards.
- Remotely reconfigure entire fleet with one policy or configuration.
- Perform firmware updates remotely during off-peak hours ensuring no downtime during office hours.
- Device configuration data backup functions allowing machine settings to be quickly and easily restored.

Reduced Workload

- Meter reads are automatically taken at set intervals (as often as daily) and reported during off-peak hours freeing up your resources to focus on other business.
- Toner alerts are transmitted triggering automatic supplies delivery so your staff doesn't need to order and maintain supplies.

Take advantage of this valuable tool that increases office productivity with enhanced fleet management and better device control. To learn more about Toshiba e-BRIDGE CloudConnect contact your Authorized Toshiba Dealer or visit www.business.toshiba.com.

* Standard on all new e-STUDIO models. Firmware can be loaded to select Toshiba MFP devices.
