Abbey Qualifying Statement for a Land Use Petition

Abbey purchased a 1.0 acre parcel located directly south of their existing property from the Seize the Future Development Foundation (now Invest Aurora) and has requested the City of Aurora to Annex this property into the City, rezone it and incorporate it into Abbey's existing Plan Description.

Abbey intends to build a 6,400 square foot building for covered, climate-controlled storage of construction equipment and materials. There will be a 2,400 square foot area to the north of this building (facing Abbey's current facility) which will be open air covered by an extension of the building roof. Maintenance and repair work will continue in Abbey's existing building.

The building will be designed with an attractive aesthetic resembling a barn or other agriculture-type structure. Abbey will incorporate some additional asphalt paving to the east of the building to provide access to the east door. Other than this area and the building, Abbey's current plan is to leave the remaining property as green space. The entire property (existing and new) in the revised Plan Description will have an 8 ft. or taller chain link fence with screening slats around the perimeter of all area used for storage including the entire new parcel. Canopy and evergreen trees inside the fence will add height and screening to the south in addition to the buffering effect of the building itself.

As part of this project, Abbey is requesting a revision to our existing Plan Description which would provide for a rear yard setback of 100 feet from the Prairie Path for primary buildings and 40 feet for accessory structures as measured from the building line. The proposed building described above would fit the description of the accessory structure.
