QUALIFYING STATEMENT OF PETITION

CITY OF AURORA
PLANNING & ZONING DIVISION

The building is a 172,654 SF 3-tenant industrial building. The building will be 32' clear height constructed of precast concrete shell with structural steel roofing system. The structural columns are designed with approx. 50' x 52' bay sizes. The roofing membrane is to be a 45mil. EPDM ballasted system with an R- 25.2 insulation factor. The entry systems to the office areas will be a storefront aluminum glazing system with 1" insulated glass. The building will have 22 dock positions. It is expected the new building, once fully occupied, could contain approximately 180 employees.

As depicted on the Plat of Vacation and the Final Plat Revision, Applicant seeks to vacate existing Dancer Road. Existing Dancer Road would be removed, and the relocated Dancer Drive would be dedicated along the south property line. This is done to accommodate the consolidation of four lots into one lot. The relocated Dancer drive will consist of new curb and asphalt pavement. The mix design is as follows- 2" surface and 3" binder course on 10" crushed stone base. The size of the new road will be 31' back of curb to back of curb. The new street will sit inside of a 66' right of way. All water main and storm sewer is to be relocated in the new ROW along Dancer Dr. Also, Applicant is proposing to obtain necessary right-of-way for Applicant to construct roadway improvements on Sullivan Road and Deerpath Road. These improvements include realignment of Sullivan Road and Melissa Lane at the Deerpath Road intersection.

How the proposal development of the Subject Property relates to the following standards:

1. *The public health, safety, morals, comfort and general welfare:* The Subject Property will be developed as an office/research/industrial (ORI) use, adding to the tax base for the City of Aurora and all taxing districts. As described above, the building will be approximately 172,654 square feet. This proposed facility will not adversely affect the public health, safety, morals, comfort and general welfare. The use will have a positive impact on all taxing districts. Also, given the explosive growth of e-commerce, there is a growing demand for these uses located within close proximity to tollway interchanges. The proposed use is also consistent with the surrounding zoning in the area. The property to the south and east is zoned ORI. Property to the west is vacant and located in unincorporated Kane County. The property to the north is the East-West Tollway. North of the tollway is zoned Business Boulevard district.

2. *The use and enjoyment of other property already established or permitted in the general area:* As noted above, the Subject Property is zoned ORI. The property to the south and east is also zoned ORI. Property to the west is located in unincorporated Kane County. The property to the north is the East-West Tollway. North of the tollway is zoned business Business Boulevard district. The only use currently existing adjacent to the Subject Property is the USA Athletic Club and Spa which is located on the east side of Melissa Lane. The next closest use is Candlewood Suites, located further east on the northwest corner of West Sullivan Road and Deerpath Road. The proposed use will be consistent with the use and enjoyment of other property already established or permitted in the general area.

3. *Property values in the neighborhood:* As noted above in responses 1 and 2, the proposed use on the Subject Property will not be detrimental to the public health, safety, morals,

comfort and general welfare and is consistent with the use and enjoyment of other property already established or permitted in the general area. Further development in this area should not have a negative effect on property values in the neighborhood.

4. *Utilities, access roads, drainage and/or other necessary facilities:* All other utilities are present or readily available to the Subject Property. Access to the Subject Property is obtained by public streets. As noted in 1 above, existing Dancer Road is to be vacated and relocated to the south end of the Subject Property.

5. *Ingress and egress as it relates to traffic congestion in the public streets:* Development of the Subject Property will not significantly impair ingress and egress, nor significantly affect traffic congestion in the public streets.

6. *The applicable regulations of the zoning district in which the Subject Property is proposed to be or is located:* The Subject Property is currently zoned ORI and the use is consistent with the zoning district.

7. *List of Variances/Modifications requested:* A parking side yard modification/variation to 10 feet along a portion of the Melissa Lane cul-de-sac is requested. The modification is required because a number of 90-degree parking spaces encroach into the required setback due to the cul-de-sac bulb.
