MATRIX

ENDURANCE CLIMBMILL

A blend of streamlined design and smooth operation make it easy for beginners to start climbing and enthusiasts to climb further than ever.

Our Endurance Climbmill is ideal for heavy use in fitness facilities where space is at a premium and budgets need to stretch further. Smart, heavy-duty design offers a secure, stable workout and stands up to tough environments. It's even easy to service, minimizing downtime for all your members who love a true climbing workout.

Control Drive stops stairs immediately if anything pushes against the direction of rotation for stair-climbing security, while extra-deep steps and positioning software make quality climbing workouts accessible to members of different ability levels.

Oil-free drive system, anti-rust design and our exclusive Sweat Management System reduce maintenance and enhance durability, extending product life.

The side access panel can be removed quickly, while modular components and an internal service light streamline maintenance.
