## **EXPERIENCE**

20+ years of experience in information technology industry. Innovative thinking and business outcome driven service allowed me to be a successful leader.

As Director of Enterprise Architecture, I am experienced in converting vision into reality through sound IT strategy development. Enabling innovation by helping others extend their thinking and drive material business advantages. Innovative thinking and business outcome driven service allowed me to be a successful leader. Leading team of enterprise architecture to develop future roadmap for developing strategic clearing system.

Currently a member of OCC diversity committee. Helping organization to achieve diversity goals. Organized culture awareness event that includes celebration of Chinese New Year, Asian Heritage Month, Black History month, and Diwali.

Prior to joining OCC, served as Vice Present at J.P. Morgan to lead development of treasury applications. Developed technical roadmap to achieve business goals. Managed vendors to complete on time delivery of technical solutions.

Served as Board member of Business Resource groups. These groups foster leadership and networking opportunities and advance the firm's commitment to diversity and community involvement. Organized culture awareness, career development, and networking event in Chicago area that includes celebration of Chinese New Year, Diwali, Asian heritage month and African-American history month. Organized events, improving awareness towards benefit of diversity. Networking events helped employees to advance in their career development.

## **EDUCATION**

Bachelors of Engineering in Electronics and Telecommunication in the year of 1996.
