Division of Cost Table

When the LPA desires to use one or more lump-sum amounts before the federal percentage is calculated, specify the order in which it should be used and the "not to exceed" amount. The following provides an example of the wording that may be used:

- Lump-sum \$60,000 TARP funds not to exceed 50% of final cost of project credited to the project to be utilized first.
- Lump-sum to be utilized second not to exceed \$20,000 EDP funds.
- Lump-sum to be utilized third not to exceed \$40,000 SMA funds.

These specified amounts will be used in sequence, with the federal and local percentages calculated after they are deducted.

When the LPA desires to use a percent "not to exceed" commitment, the federal and state funds will be used concurrently at the specified percentages up to the "not to exceed" amount.

Example:

Maximum STR participation 80% not to exceed \$100,000

Lump-sum SMA not to exceed \$20,000 to be used as a match to the federal funds

Be advised that the "not to exceed" amount specified under a percentage commitment will be tied up and unavailable for programming until the project is closed out and a documentation review has been completed by IDOT or FHWA, if required.
