The selection criteria and weightings for project selection are indicated below.

- Consultant Experience (30%). The consultant’s general experience, stability, and experience on projects similar to the one under consideration. Experience with federally funded roadway projects is required.
- Staff Capabilities (20%). The education, experience, and expertise of the consultant’s key employees.
- Technical Approach (30%). Project understanding and the consultant’s approach to the planning, organizing, execution and management of the project effort.
- Schedule (20%). Quality of the consultant’s schedule, including how expeditiously the work can be completed realistically.
