Illinois Department of Natural Resources
Grant Management and Assistance
OSLAD Grant Program
One Natural Resources Way
Springfield, IL 62702

The City of Aurora appreciates the opportunities offered by IDNR and the OSLAD Grant Program to improve the conditions of the Fox River shoreline near Aurora's downtown, and provide a welcoming area for our residents to enjoy.

Our project for the Wilder Promenade will combine two little-used open spaces into a place for residents to relax and enjoy the river throughout the week, and a place where such community activities as festivals, art shows and farmers markets will draw thousands to the shoreline on weekends throughout the year.

If you have any questions about our project or our OSLAD application, please contact Trevor Dick, Director of Development for the City, at tdick@aurora-il.org, 630-256-3100, or me at jrussell@aurora-il.org, 630-256-3373.

Sincerely,

John Russell
Grant Writer
City of Aurora, IL

State of Illinois
UNIFORM GRANT BUDGET TEMPLATE

Organization Name: City of Aurora, IL

NOFO Number 970-581

SECTION A - Continued - Indirect Cost Rate Information

If your organization is requesting reimbursement for indirect costs on line 17 of the Budget Summary, please select one of the following options

1. Our Organization receives direct Federal funding and currently has a Negotiated Indirect Cost Rate Agreement (NICRA) with our Federal Cognizant Agency. A copy of this agreement will be provided to the State of Illinois' Indirect Cost Unit for review and documentation before reimbursement is allowed. This NICRA will be accepted by all State of Illinois agencies up to any statutory, rule-based or programmatic restrictions or limitations. **NOTE: (If this option is selected, please, provide basic Negotiated Indirect Cost Rate Agreement in area designated below.)**

Your organization may not have a Federally Negotiated Cost Rate Agreement. Therefore, in order for your organization to be reimbursed for the Indirect Costs from the State of Illinois your organization must either:

- a. Negotiate an Indirect Cost Rate with the State of Illinois' Indirect Cost Unit with guidance from your State Cognizant Agency on an annual basis;
- b. Elect to use the de minimis rate of 10% modified for total direct costs (MTDC) which may be used indefinitely on State of Illinois awards; or
- c. Use a Restricted Rate designated by programmatic or statutory policy (see Notice of Funding Opportunity for Restricted Rate Programs).
 - 2a. Our Organizations currently has a Negotiated Indirect Cost Rate Agreement (NICRA) with the State of Illinois that will be accepted by all State of Illinois agencies up to any statutory, rule-based or programmatic restrictions or limitations. Our Organization is required to submit a new Indirect Cost Rate Proposal to the Indirect Cost Unit within 6 months after the close of each fiscal year [2 CFR 200, Appendix IV(C)(2)(c)]. **NOTE: (If this option is selected, please provide basic Indirect Cost Rate information in area designated below.)**
 - 2b. Our Organization currently does not have a Negotiated Indirect Cost Rate Agreement (NICRA) with the State of Illinois. Our organization will submit our initial Indirect Cost Rate Proposal (ICRP) immediately after our Organization is advised that the State award will be made no later than three (3) months after the effective date of the State award [2 CFR 200 Appendix (C)(2)(b)]. The initial ICRP will be sent to the State of Illinois Indirect Cost unit. **Note: (Check with you State of Illinois Agency for information regarding reimbursement of indirect costs while your proposal is being negotiated.)**
 - 3. Our Organization has never received a Negotiated Indirect Cost Rate Agreement from either the Federal government or the State or Illinois and elects to charge the de minimis rate of 10% modified total direct cost (MTDC) which may be used indefinitely on State of Illinois awards [2 CFR 200.414 (C)(4)(f) and 200.68.] **[Note: Your Organization must be eligible, see 2 CFR 200.414 (f), and submit documentation on the calculation of MTDC within your Budget Narrative under Indirect Costs.]**
 - 4. For Restricted Rate Programs, our Organization is using a restricted indirect cost rate that:
 - is included as a "Special Indirect Cost Rate" in the NICRA, pursuant to 2 CFR 200 Appendix IV(5); or
 - complies with other statutory policies.
 The Restricted Indirect Cost Rate is: _____ %
 - 5. No reimbursement of Indirect Cost is being requested. (Please consult your program office regarding possible match requirements.)

Basic Negotiated Indirect Cost Rate Information (Use only if option 1 or 2(a), above is selected.)

Period Covered by NICRA: From: _____ To: _____ Approving Federal or State Agency: _____
Indirect Cost Rate: _____ % The Distribution Base Is: _____

UNIFORM GRANT BUDGET TEMPLATE**

FFATA Data Collection Form (if needed by agency)

Under FFATA, all sub-recipients who receive \$30,000 or more must provide the following information for federal reporting. Please fill out the following form accurately and completely. 4-digit extension if applicable:

Sub-recipient DUNS: _____ Sub-recipient Parent Company DUNS: _____

Sub-recipient Name: _____

Sub-recipient DBA Name: _____

Sub-recipient Street Address: _____

City: _____ State: _____ Zip-Code: _____ Congressional District: _____

Sub-recipient Principal Place of Performance: _____

City: _____ State: _____ Zip-Code: _____ Congressional District: _____

Contract Number (if known): _____ Award Amount: _____ Project Period: From: _____ To: _____

State of Illinois Awarding Agency and Project Detail Description: _____

Under certain circumstances, sub-recipient must provide names and total compensation of its top 5 highly compensated officials. Please answer the following questions and follow the instructions.

Q1. In your business or organization's previous fiscal year, did your business or organization (including parent organization, all branches and affiliates worldwide) receive (1) 80% or more of your annual gross revenues in U.S. federal contracts, subcontracts, loans, grants, subgrants and/or cooperative agreements and (2) \$25,000,000 or more in annual gross revenue from U.S. federal contracts, subcontracts, loans, grants, subgrants and/or cooperative agreements?

Yes If Yes, must answer Q2 below. No If No, you are not required to provide data.

Q2. Does the public have access to information about the compensation of the senior executives in your business or organization (including parent organization, all branches and all affiliates worldwide) through periodic reports filed under section 13(a) or 15(d) of the Security Exchange Act of 1934 (5 U.S.C. 78m(a), 78o(d)) or section 6104 of the Internal Revenue code of 1986 (i.e., on IRS Form 990)?

Yes No If No, you must provide the data. Please fill out the rest of this form.

Please provide names and total compensation of the top five officials:

Name: _____ Amount: _____

Name: _____ Amount: _____

Name: _____ Amount: _____

Name: _____ Amount: _____

Name: _____ Amount: _____

**State of Illinois
UNIFORM GRANT BUDGET TEMPLATE**

1). Personnel (Salaries and Wages) (2 CFR 200.430)

List each position by title and name of employee, if available. Show the annual salary rate and the percentage of time to be devoted to the project and length of time working on the project. Compensation paid for employees engaged in grant activities must be consistent with that paid for similar work within the applicant organization. Include a description of the responsibilities and duties of each position in relationship to fulfilling the project goals and objectives in the narrative space provided below. Also, provide a justification and description of each position (including vacant positions). Relate each position specifically to program objectives. Personnel cannot exceed 100% of their time on all active projects.

Name	Position	Salary or Wage	Basis (Yr./Mo./Hr.)	% of Time	Length of Time	Personnel Cost	Add/Delete Row
State Total							
				%			Add Delete
NON-State Total							
Total Personnel							
Personnel Narrative (State):							
Personnel Narrative (Non-State): (i.e. "Match" or "Other Funding")							

**State of Illinois
UNIFORM GRANT BUDGET TEMPLATE**

2). Fringe Benefits (2 CFR 200.431)

Fringe benefits should be based on actual known costs or an established formula. Fringe benefits are for the personnel listed in category (1) direct salaries and wages, and only for the percentage of time devoted to the project. Provide the fringe benefit rate used and a clear description of how the computation of fringe benefits was done. Provide both the annual (for multiyear awards) and total. If a fringe benefit rate is not used, show how the fringe benefits were computed for each position. The budget justification should be reflected in the budget description. Elements that comprise fringe benefits should be indicated.

**State of Illinois
UNIFORM GRANT BUDGET TEMPLATE**

3). Travel (2 CFR 200.474)

Travel should include: origin and destination, estimated costs and type of transportation, number of travelers, related lodging and per diem costs, brief description of the travel involved, its purpose, and explanation of how the proposed travel is necessary for successful completion of the project. In training projects, travel and meals for trainees should be listed separately. Show the number of trainees and unit cost involved. Identify the location of travel, if known; or if unknown, indicate "location to be determined." Indicate source of Travel Policies applied. Applicant or State of Illinois Travel Regulations. NOTE: Dollars requested in the travel category should be for staff travel only. Travel for consultants should be shown in the consultant category along with the consultant's fee. Travel for training participants, advisory committees, review panels and etc., should be itemized the same way as indicated above and placed in the "Miscellaneous" category.

NON-State Total							
Total Travel							
Travel Narrative (State):							
Travel Narrative (Non-State): (i.e.e "Match" of "Other Funding)							

**State of Illinois
UNIFORM GRANT BUDGET TEMPLATE**

4). Equipment (2 CFR 200.439)

Provide justification for the use of each item and relate them to specific program objectives. Provide both the annual (for multiyear awards) and total for equipment. Equipment is defined as an article of tangible personal property that has a useful life of more than one year and a per-unit acquisition cost which equals or exceeds the lesser of the capitalization level established by the non-Federal entity for financial statement purposes, or \$5,000. An applicant organization may classify equipment at a lower dollar value but cannot classify it higher than \$5,000. (Note: Organization's own capitalization policy for classification of equipment can be used). Applicants should analyze the cost benefits of purchasing versus leasing equipment, especially high cost items and those subject to rapid technical advances. Rented or leased equipment costs should be listed in the "Contractual" category. Explain how the equipment is necessary for the success of the project. Attach a narrative describing the procurement method to be used.

Item	Quantity	Cost Per Item	Equipment Cost	Add/Delete Rows
				Add
				Delete
State Total				Add
Non-State Total				Delete
Total Equipment				
Equipment Narrative (State):				
Equipment Narrative (Non-State): (i.e. "Match" or "Other Funding")

UNIFORM GRANT BUDGET TEMPLATE**

5). Supplies (2 CFR 200.94)

List items by type (office supplies, postage, training materials, copying paper, and other expendable items such as books, hand held tape recorders) and show the basis for computation. Generally, supplies include any materials that are expendable or consumed during the course of the project.

Item	Quantity/Duration	Cost Per Item	Supplies Cost	Add/Delete Rows
Permeable pavers covering 1,400-sq-yd	1,400	\$72.00	\$100,800.00	Add Delete
Seeding for two acres	2	\$5,000.00	\$10,000.00	Add Delete
Perennial plantings for 15,000-sq-ft	15,000	\$6.00	\$90,000.00	Add Delete
Tree planting -- 30 trees	30	\$500.00	\$15,000.00	Add Delete
Shrub planting -- 50 shrubs	50	\$100.00	\$5,000.00	Add Delete
Retractable bollards	12	\$766.67	\$9,200.04	Add Delete
State Total			\$230,000.04	
Retractable bollards	2	\$650.00	\$1,300.00	Add Delete
Non-State Total			\$1,300.00	
Total Supplies			\$231,300.04	

Supplies Narrative (State):
OSLAD funding will cover the cost of all of the plantings and permeable pavers to be installed at Wilder Promenade. Grant funds also will cover the cost of 12 of the needed retractable bollards at the site.

Supplies Narrative (Non-State): (i.e. "Match" or "Other Funding")
The City of Aurora will pay for two retractable bollards, at a cost of about \$650 to 750 each.

**State of Illinois
UNIFORM GRANT BUDGET TEMPLATE**

6). Contractual Services (2 CFR 200.318) & Subawards (200.92)

Provide a description of the product or service to be procured by contract and an estimate of the cost. Applicants are encouraged to promote free and open competition in awarding contracts. A separate justification must be provided for sole contracts in excess of \$150,000 (See 2 CFR 200.88). **NOTE** : this budget category may include **subawards**. Provide separate budgets for each subaward or contract, regardless of the dollar value and indicate the basis for the cost estimates in the narrative. Describe products or services to be obtained and indicate the applicability or necessity of each to the project.

Please also note the differences between subaward, contract, and contractor (vendor):

- 1) Subaward (200.92) means an award provided by a pass-through entity to a sub-recipient for the sub-recipient to carry out part of a Federal/State award, including a portion of the scope of work or objectives. It does not include payments to a contractor or payments to an individual that is a beneficiary of a Federal/State program.
- 2) Contract (200.22) means a legal instrument by which a non-Federal entity purchases property or services needed to carry out the project or program under a Federal award. The term as used in this part does not include a legal instrument, even if the non-Federal entity considers it a contract, when the substance of the transaction meets the definition of a Federal award or subaward.
- 3) "Vendor" or "Contractor" is generally a dealer, distributor or other seller that provides supplies, expendable materials, or data processing services in support of the project activities.

8). Construction

Provide a description of the construction project and an estimate of the costs. As a rule, construction costs are not allowable unless with prior written approval. In some cases, minor repairs or renovations may be allowable. Consult with the program office before budgeting funds in this category. Estimated construction costs must be supported by documentation including drawings and estimates, formal bids, etc. As with all other costs, follow the specific requirements of the program, the terms and conditions of the award, and applicable regulations.

Purpose	Description of Work	Construction Cost	Add/Delete Rows
Bioswale	Create 10,000-sq-ft bioswale	\$90,000.00	Add Delete
State Total		\$90,000.00	
Restroom Building	construction of 2,000-sq-ft restroom building	\$250,000.00	Add Delete
Concrete curb removal	remove curb along street (also to be removed)	\$7,500.00	Add Delete
Roadway removal	remove street that now divides two park spaces	\$19,800.00	Add Delete
Utility relocation	relocate utilities on park site	\$120,000.00	Add Delete
Rough Grading	grading for improved park site	\$30,000.00	Add Delete
New paving for pathway	repave former street with permeable pavers	\$42,500.00	Add Delete
Non-State Total		\$469,800.00	
Total Construction		\$559,800.00	

Construction Narrative (State):

OSLAD grant funds will be used to create a large bioswale at Wilder Promenade, to improve the condition of the runoff from the site as it enters the Fox River

Construction Narrative (Non-State): (i.e. "Match" or "Other Funding")

The City of Aurora will cover the cost of most of the construction work at the Wilder Promenade park site

**State of Illinois
UNIFORM GRANT BUDGET TEMPLATE**

9). Occupancy - Rent and Utilities (2 CFR 200.465)

List items and descriptions by major type and the basis of the computation. Explain how rental and utility expenses are allocated for distribution as an expense to the program/service. For example, provide the square footage and the cost per square foot rent and utility, and provide a monthly rental and utility cost and how many months to rent. **NOTE:** This budgetary line item is to be used for direct program rent and utilities, all other indirect or administrative occupancy costs should be listed in the indirect expense section of the Budget worksheet and narrative. Maintenance and repair costs may be included here if directly allocated to program.

13). Direct Administrative Costs (2 CFR 200.413 (c))

The salaries of administrative and clerical staff should normally be treated as indirect (F&A) costs. Direct charging of these costs may be appropriate only if all of the following conditions are met: (1) Administrative or clerical services are integral to a project or activity; (2) Individuals involved can be specifically identified with the project or activity; (3) Such costs are explicitly included in the budget or have the prior written approval of the State awarding agency; and (4) The costs are not also recovered as indirect costs.

14). Other or Miscellaneous Costs

This category contains items not included in the previous categories. List items by type of material or nature of expense, break down costs by quantity and cost per unit if applicable, state the necessity of other costs for successful completion of the project and exclude unallowable costs (e.g.. Printing, Memberships & subscriptions, recruiting costs, etc.)

15). GRANT EXCLUSIVE LINE ITEM

Grant Exclusive Line Item Description: _____

Costs directly related to the service or activity of the program that is an integral line item for budgetary purposes. To use this budgetary line item, an applicant must have Program approval. (Please cite reference per statute for unique costs directly related to the service or activity of the program). (Note: Use columns within table as needed for the item being reported. Leave blank those columns that are not applicable. This table does NOT auto-calculate each line. You must enter the line totals. The table will auto-calculate the State, Non-State, and Total Grant Exclusive Line Item amounts based on your line entries. The State, Non-State and Total Grant Exclusive Line Item amounts will NOT carry forward to the Budget Narrative Summary table. You will have to enter the State and Non-State Totals for ALL Grant Exclusive Line Items in the Budget Narrative Summary table. Use the "Add New Grant Exclusive Line Item" button below to add additional tables as needed.)

16). Indirect Cost (2 CFR 200.414)

Provide the most recent indirect cost rate agreement information with the itemized budget. The applicable indirect cost rate(s) negotiated by the organization with the cognizant negotiating agency must be used in computing indirect costs (F&A) for a program budget. The amount for indirect costs should be calculated by applying the current negotiated indirect cost rate(s) to the approved base(s). After the amount of indirect costs is determined for the program, a breakdown of the indirect costs should be provided in the budget worksheet and narrative below.

Description	Base	Rate	Indirect Cost	Add/Delete Rows

UNIFORM GRANT BUDGET TEMPLATE**

Budget Narrative Summary--When you have completed the budget worksheet, transfer the totals for each category to the spaces below to the uniform template provided (SECTION A & B). Verify the total costs and the total project costs. Indicate the amount of State requested funds and the amount of non-State funds that will support the project.. (Note: The State, Non-State, and Total cost amounts for each line item below are auto-filled based upon the entries in the preceding budget tables 1-14 and 16. The State and Non-State Total amounts from Table 15 above, Grant Exclusive Line Item(s), must be entered into this table by hand due to the possibility of there being more than one Grant Exclusive Line Item table. Once the Grant Exclusive Line Item(s) amounts are entered into this table, the State Request amount, Non-State Amount and the Total Project Costs will be calculated automatically. It is imperative that the summary tables be completed accurately for the Budget Narrative Summary to be accurate.)

(e) The Federal/State awarding agency may, at its option, restrict the transfer of funds among direct cost categories or programs, functions and activities for Federal/State awards in which the Federal/State share of the project exceeds the Simplified Acquisition Threshold and the cumulative amount of such transfers exceeds or is expected to exceed 10 percent or \$1,000 per detail line item, whichever is greater of the total budget as last approved by the Federal/State awarding agency. The Federal/State awarding agency cannot permit a transfer that would cause any Federal/State appropriation to be used for purposes other than those consistent with the appropriation.

GATA Budget Worksheet and Narrative

City of Aurora, IL

Increasing Public Use of Wilder Promenade

The Wilder Promenade project is the third major step in the City of Aurora's years-long effort to improve the quality of the Fox River and the Fox River shoreline in Aurora's downtown, and to make the shoreline area more inviting for use by our residents.

Wilder Promenade will connect two open spaces along the western shoreline of the river. With the environmental improvements planned, the park will become a welcoming site for residents to relax and enjoy the outdoors, as well as a spot for community festivals, art shows, farmers markets and other activities that will draw visitors to the park and the shores of the Fox.

The total estimated cost of our project is \$871,100.

We are seeking an OSLAD grant for \$400,000, with general City funds covering the remaining \$471,100 of the cost.

The single largest cost in the project budget is \$250,000, for the construction of a restroom facility on the site. The building also will include a small concessions area, and a stairway leading up to the roof of the building, where residents will be able to gather for an evening enjoying the outdoors, and perhaps listening to the concerts being held across the Fox River at the RiverEdge Park music venue.

The other major costs are \$120,000 to relocate the utilities now running through the site, and the costs of several items involved in removing the city street which now runs through the middle of the two sections which make up the park. The street costs include \$7,500 for curb removal, \$19,800 for roadway removal, \$30,000 for grading, and a total of \$143,300 for turning the street into a pathway through the park, made of permeable pavers. We will install about 14 retractable bollards around the site, which can easily be removed to allow entry by emergency vehicles. Cost of the bollards is estimated at \$10,500.

The permeable pavers are one of several environmentally conscious improvements being made at the park. We also will create a 10,000-square-foot bioswale to limit any danger from any runoff from the site into the Fox River. The cost of seeding the site is estimated at \$10,000, and plantings of perennials, trees and shrubs over the entire park area has a combined cost of \$110,000.

There is an additional \$80,000 cost in consultant fees for design, archaeological and environmental reports.

All of the cost estimates are based on City discussions with contractors, consultants, and suppliers over the past two years.

Project Sponsor: City of Aurora
 Project Title: Wilder Promenade

General Project Data

Form OS/Doc 1

City of Aurora

Increasing Public Use of Wilder Promenade

**Standard Adopted by Applicant for Amount of Local Open Space / Park Acres
per 1,000 Population**

Section Five: That the implementation of this amendment to Aurora's School/Park – Land/Cash Ordinance be phased in, recognizing the development communities need for an adjustment period of time to absorb the financial impact of a certain portion of this ordinance, to wit, the increase in the amount of land required for parks in new residential development from 5.5 acres per thousand population generated (as calculated by this Ordinance) to 10 acres per thousand shall be phased in and be applicable as follows:

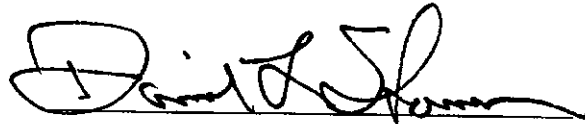

- A) 7 acres per thousand population generated from November 1, 2001 through December 31, 2002.
- B) 8.5 acres per thousand population generated from January 1, 2003 through December 31, 2003.
- C) 10 acres per thousand population generated from January 1, 2004 through December 31, 2004.

Section Six: That all ordinances or parts of ordinances in conflict with said ordinance are hereby repealed insofar as such conflict exists.

Section Seven: That this ordinance shall be in full force and effect from and after its passage, signing and recording as provided by law.

PASSED AND APPROVED ON OCTOBER 9, 2001.

**OSLAD Grant Program
Resolution of Authorization**

Form OS/DOC-3

Applicant (Sponsor) Legal Name: City of Aurora, IL
Project Title: Increasing Public Use of Wilder Promenade

The City of Aurora (Sponsor) hereby certifies and acknowledges that it has the sufficient funds necessary (includes cash and value of donated land) to complete the pending OSLAD project within the timeframes specified herein for project execution, and that failure to adhere to the specified project timeframe or failure to proceed with the project because of insufficient funds or change in local recreation priorities is sufficient cause for project grant termination which will also result in the ineligibility of the local project sponsor for subsequent Illinois IDNR outdoor recreation grant assistance consideration in the next two (2) consecutive grant cycles following project termination.

Acquisition and Development Projects

It is understood that the project must be completed within the timeframe established. The OSLAD timeframe is two years as is specified in the project agreement. The Billing Certification Statement must be submitted within 45 days of the grant expiration date and the last reimbursement request must be submitted within one year of the grant expiration date. Failure to do so will result in the Project Sponsor forfeiting all project reimbursements and relieves IDNR from further payment obligations on the grant.

The City of Aurora (Sponsor) further acknowledges and certifies that it will comply with all terms, conditions and regulations of 1) the Open Space Lands Acquisition and Development (OSLAD) program (17 IL Adm. Code 3025); 2) the Illinois Grant Funds Recovery Act (30 ILCS 705); 3) the federal Uniform Relocation Assistance & Real Property Acquisition Policies Act of 1970 (P.L. 91-646) and/or the Illinois Displaced Persons Relocation Act (310 ILCS 40 et. seq.), as applicable; 4) the Illinois Human Rights Act (775 ILCS 5/1-101 et.seq.); 5) Title VI of the Civil Rights Act of 1964, (P.L. 83-352); 6) the Age Discrimination Act of 1975 (P.L. 94-135); 7) the Civil Rights Restoration Act of 1988, (P.L. 100-259); and 8) the Americans with Disabilities Act of 1990 (PL 101-336); and will maintain the project area in an attractive and safe condition, keep the facilities open to the general public during reasonable hours consistent with the type of facility, cease any farming operations, and obtain from the Illinois DNR written approval for any change or conversion of approved outdoor recreation use of the project site prior to initiating such change or conversion; and for property **acquired** with OSLAD assistance, agree to place a covenant restriction on the project property deed at the time of recording that stipulates the property must be used, in perpetuity, for public outdoor recreation purposes in accordance with the OSLAD programs and cannot be sold or exchanged, in whole or part, to another party without approval from the Illinois DNR, and that development at the site will commence within 3 years.

BE IT FURTHER PROVIDED that the City of Aurora (Sponsor) certifies to the best of its knowledge that the information provided within the attached application is true and correct.

This Resolution of Authorization has been duly discussed and adopted by the City of Aurora (Sponsor) on the 23rd day of October (month), 2018 (year)

Title

Resolution of Authorization Form OS/DOC 3

The City of Aurora approved the overall concept of the RiverEdge Park/Fox River Bridge/Wilder Promenade project in May 2011.

A resolution to the Aurora City Council specifically detailing the Wilder Promenade segment of the project will be presented to the Aurora City Council Finance Committee on Oct. 9, 2018. The resolution will be voted on by the entire City Council on Oct. 23, 2018.

A copy of that resolution, and the Resolution of Authorization Form OS/DOC 3, will be submitted to IDNR immediately after City Council approval.

Tree Planting (each)	30	\$15,000
Shrub Planting (each)	50	\$5,000
CPA Report Cost		\$2,500
A/E Design Fees (<15.25% of construction cost)		\$75,000
Potential Archaeological Survey *		\$2,500
TOTAL ESTIMATED COST:		\$871,100

NOTE: Donated labor and material are not eligible for reimbursement.

(*) Projects approved for OSLAD funding may require the completion of an archaeological reconnaissance survey on the project site. Estimated cost for such a survey may be included in the project budget. The requirement of a survey will not be an allowable reason to extend any project ending date.

7. Provide a quarterly expenditure schedule for the grant funds to the best of your knowledge or ability. Use quarterly time increments. Example: Year 1, Quarter 1 = \$10K (engineering fees). The project sponsor is not bound to this schedule and revisions can be made during the course of the project as necessary.

TOTAL	\$ 793,600

OSLAD Grant Program Narrative Statement

Attachment A-1

Applicant (Sponsor) Legal Name: City of Aurora, IL
Project Title: Increasing Public Use of Wilder Promenade

Instructions:

Describe, at a minimum, the overall concept of the project, project funding, agencies involved, approach to implementation, project location, trail mileage to be provided through the project, need for the project, anticipated benefits and the proposed schedule of operation (daily and/or seasonal hours of operation) for the project facility. Be thorough and explicit, this narrative should completely describe the project and expected outcome.

A. OBJECTIVES AND NEED FOR ASSISTANCE -- The City of Aurora's project for Increasing Public Use of Wilder Promenade would turn a presently little-used downtown park into a space that will attract thousands of residents each year for entertainment and relaxation. Wilder Promenade is the third element of an 8-year, multi-million-dollar effort to improve the east and west shorelines along the Fox River in downtown Aurora.

B. RESULTS / BENEFITS EXPECTED -- What is now called Wilder Park is actually two open spaces, covering 3.5 acres, divided by a city street. Our proposal for OSLAD funding would involve removing the paved street and making improvements that will create an inviting space that will attract patrons to the park from all segments of our community. Aurora's 201,000 residents are 43% Hispanic, 39% White, 9% Black and 7% Asian. At this time, we are considering making the space available for Aurora's Farmers Market (the oldest Farmers Market in Illinois), art shows, community festivals and other activities.

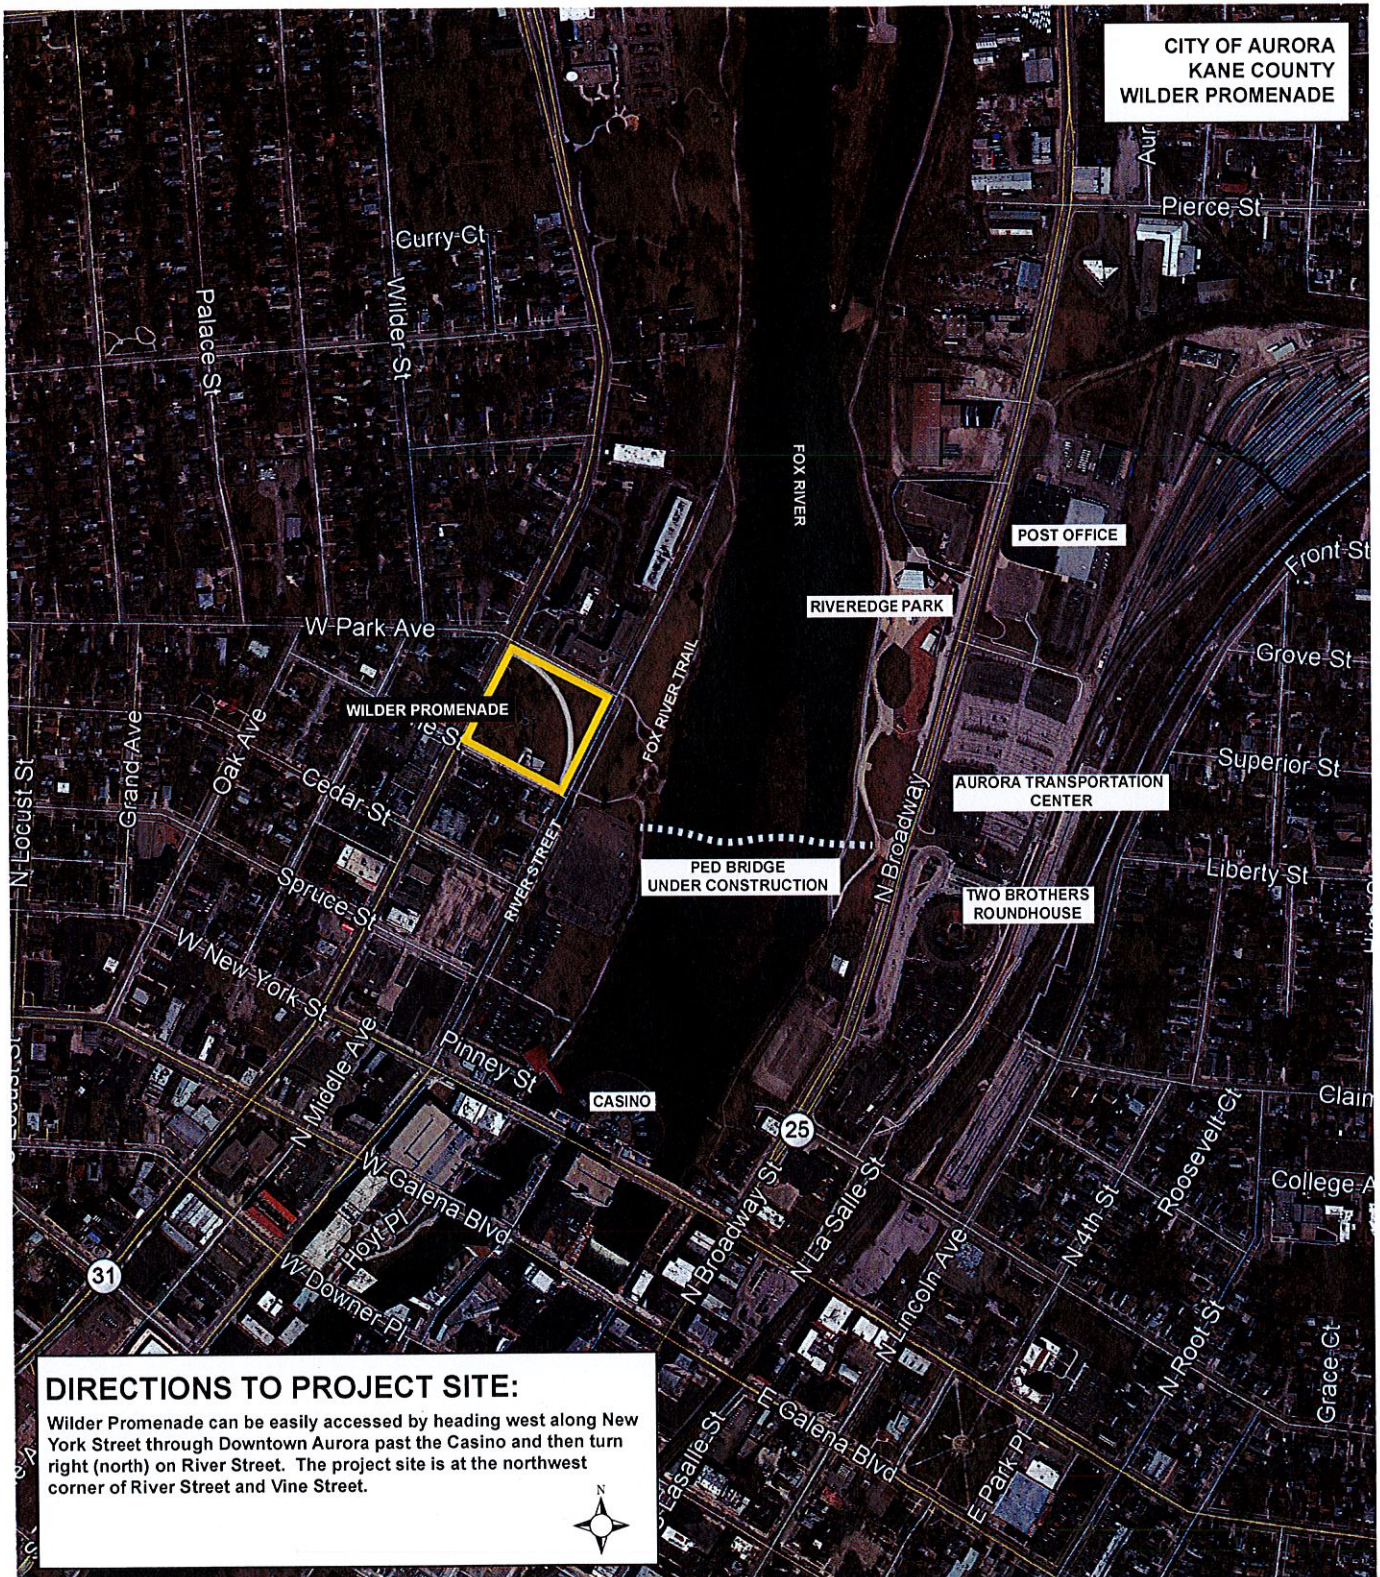

C. APPROACH -- We will remove the street pavement and replace it with permeable pavers, making it an attractive, inviting and environmentally beneficial pathway through the park. A new bioswale will improve run-off to the Fox River, and trees, perennials and shrubs will be planted to create a pleasant park environment. We will install a restroom and small concession stand building for use by the thousands of people attending events at the park.

In 2019, a pedestrian/bike bridge spanning the Fox River from the Wilder Promenade on the west shoreline to RiverEdge Park on the east will be completed, linking the east and west branches of the Fox River Trail. With this link for the trails, and the availability of restrooms and concessions, Wilder Promenade will become a trailhead for the west branch of the Fox River Trail, which stretches 60 miles from Wisconsin to Oswego, just south of Aurora, and sees an estimated 50,000 users each year.

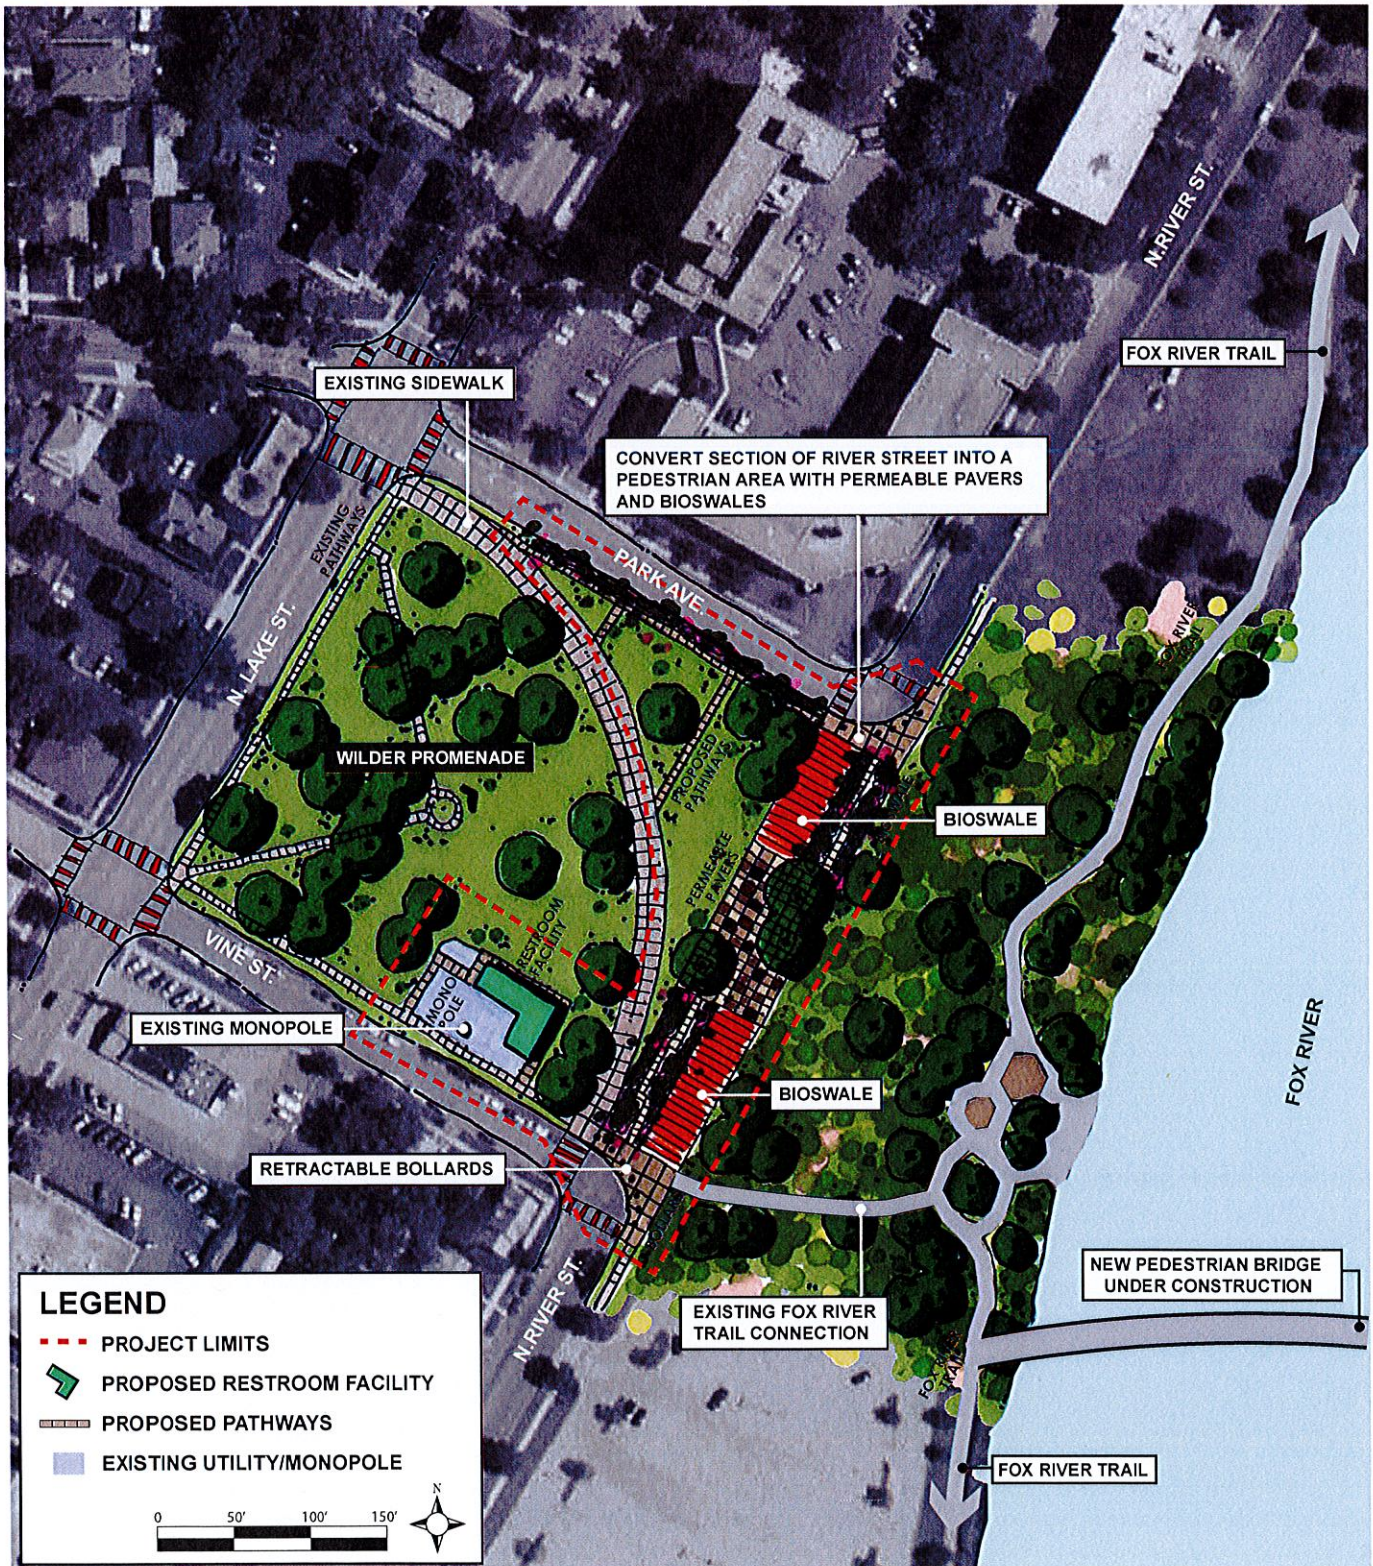

D. GEOGRAPHIC LOCATION -- Wilder Park is on the north edge of downtown Aurora, with Illinois Route 31 (Lake Street) forming its western border and the Fox River as its eastern border. Directly across the Fox River from Wilder Promenade is Aurora's new RiverEdge Park, which has had more than 100,000 visitors each year at its John C. Dunham Pavilion concert site, and the many celebrations held at the park. RiverEdge Park and the pedestrian/bike bridge over the Fox River linking Wilder Promenade with RiverEdge are the other two elements of Aurora's longterm effort to improve the environment and increase the use of the shorelines of the Fox River near downtown.

E. PREVIOUS ASSISTANCE -- Wilder Promenade has not received any previous assistance.

COMMENT SECTION for "Adverse Impacts"

(do not generalize or use vague/ambiguous terms in your comments)

Describe each adverse impact in an objective and quantified manner and describe specifically HOW MITIGATION will be accomplished to minimize the adverse impact OR which impacts are unavoidable and cannot be positively addressed through mitigation measures. BE CONCISE.

Factor # Comment

Public Road	The development of Wilder Promenade will involve removing one block of River Street, which now divides Wilder Promenade into two spaces. There are NO residences along this block which would be removed. Residents living on the blocks to the north and south of Wilder Promenade will be required to use Lake Street, one block to the west. Removal of the street is necessary to combine two plots of open space into one. The park will be designed for emergency vehicle access.
-------------	---

Environmental Assessment Statement

Attachment A5

City of Aurora, IL

Increasing Public Use of Wilder Promenade

Wilder Promenade is a 3.5-acre parcel which is divided into two open space areas by a one-block stretch of city street. Closing the street, removing the pavement and replacing it with permeable pavers -- and taking the other actions in our proposal -- will create one large park area, with amenities now absent from the site. The improved space will draw residents from throughout the Aurora area to art shows, community festivals, farmers markets and other activities at the park, which also will serve as a prime viewing spot for Aurora's annual Fourth of July Fireworks show along the Fox River.

The eastern parcel borders on the Fox River, and a section of the 60-mile west branch of the Fox River Trail runs along the river shoreline. The proposed improvements will make Wilder Promenade a trailhead for the Fox River Trail, and serve as the site where a new bike/pedestrian bridge can bring users of the west branch of the trail over to the east branch, on the eastern shoreline of the Fox River near downtown Aurora.

Both parcels now are basically grass-covered, with a few trees, a few benches, and no structures on the property.

Attachment A-8
Project Justification by Local Plan

City of Aurora, IL
Increasing Public Use of Wilder Promenade

Attached is the RiverEdge Park Master Plan adopted by the City of Aurora in 2007. The Wilder Promenade project is one of the elements of the overall RiverEdge Park project.

A RIVER THAT IS A PARK | A PARK THAT IS A RIVER
RiverEdge Park Master Plan

Music flows from the shell, lingering in our memory. We cross the cable bridge, lamp light reflecting gold upon the river. We are gathering to share the sounds of many cultures, of many ages.

There are crowds, crowds who arrive in great haste, on bus, train, by car, bicycle, by boat, and on foot. Neighbors descend from the hills, following the trail of the fox, to the celebration at the river.

Our reflection shimmers as we look from above, carving a luminous band of light along the water. Within this circle connecting the shores, is what we have been seeking. The river. From within this bridge's suspended embrace we view the panorama of nature, the path of our ancestors, the river's ebb and flow, a new perspective of ourselves as part of this natural environment. At this moment, we are so small, yet can touch the sky by looking down, and enjoy inclusion within the glories of this place.

With the design and construction of RiverEdge Park, we believe Aurora's greater community will come to experience the unique attributes of this land, and appreciate why our forefathers settled here, strengthening our connections to our past, and to our future.

FOREWORD

The Park Collaborative was selected for the project based on its submission of a competition master plan. The competition master plan was prepared based on the City of Aurora's Request for Proposal (RFP) and informational meetings conducted during the selection process by the City. The competition plan attempted to include all of the major elements identified in the RFP and was presented at the design competition on September 20, 2006. Once selected, the Park Collaborative conducted the master planning for the park based on a phased process to collect design input and refine the competition plan. The phased process included informational working sessions with various public and private stakeholders identified by the City. Stakeholders included: Seize the Future, R.S.V.P. (River Shore Vision Plan) Citizens Group, Sierra Club, Park Committee among many others. Information was gathered and the design progress was presented at each session. The working sessions included:

- Site Constraints and Permitting
- Park Programming, River Use and Indian Creek
- Construction Cost and Schedule
- Market Analysis and Funding
- Presentation of Refined Concept Plan

Each session consisted of a presentation followed by open question and answer periods. Participants in each session were assigned "homework" at the conclusion of each session. The homework consisted of questions to determine a ranking of project elements and to elicit comment on their importance and relevance to the project. The responses were returned to the City and compiled by the Park Collaborative. Examples of each meeting's agenda, presentation materials, and homework assignments are included with the appendix to this master plan.

Upon completion of the working sessions, the master plan entered the charrette process, allowing all stakeholders to have hands-on participation and discussion about specific

design characteristics of the elements that were refined during the working sessions. The master plan was divided into five areas that include:

- Wilder Park / West River Edge
- River Crossing / Blues Island Preserve
- Garden Market and Event Space
- Outdoor Performance Venue and Lawn
- Indian Creek Wetland / Environmental Center

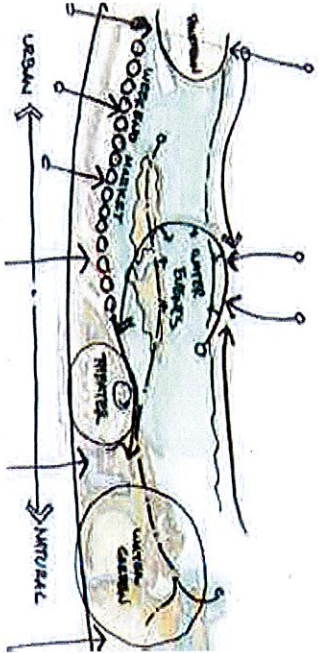

Each of these areas were discussed in detail with working groups consisting of five to seven stakeholders. Input was collected by group leaders and each participant completed a charrette "passport" that posed questions, ranked project elements, and provided space for comment. The results of the passports were tabulated and used to determine final project elements and programming needs.

Lastly, the Park Collaborative conducted the required pre-application and regulatory guideline meetings for the project with the Illinois Department of Natural Resources (IDNR) and the U.S. Army Corp of Engineers (ACOE). The project elements, determined by way of

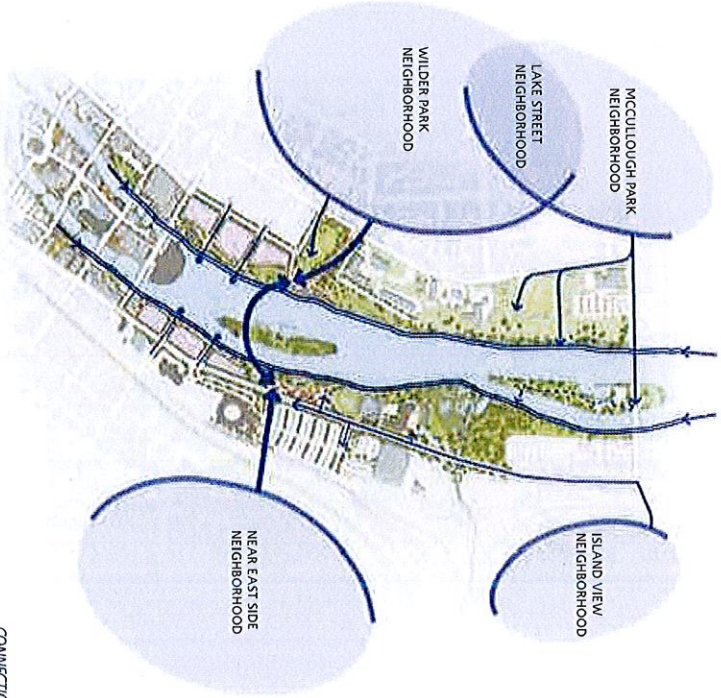

the design competition, working sessions, and charrette process were presented to each agency to determine appropriateness of use and if they were allowable under current permitting law. The Park Collaborative prepared a "Permitting Strategy" that would be the basis of the permit submittal for the project. Preliminary engineering plans for the portion of the master plan that could be constructed in a three to five-year time frame were prepared and submitted to the regulatory agencies to begin the permit process. A detailed explanation of the permitting strategy and the work included in the three to five-year plan (Phase I Plan) can be found in the "Permitting Strategy and Phasing" section of the Master Plan.

The design process for the master plan was conducted between May and October of 2007 and resulted in the following items:

- Master Plan Booklet and Appendix
- Preliminary Engineering Plans for Phase I of the Project
- Permit Applications to the IDNR and ACOE

SCHEMATIC DIAGRAM

CONNECTION TO THE CITY

A RIVER THAT IS A PARK | A PARK THAT IS A RIVER

INTRODUCTION

Aurora, Illinois is a quickly growing city. Its population in 2007 was over 170,000. The city is situated along the Fox River, at the western edge of the Chicago metropolitan region. Despite its dramatic growth and stature as the second largest city in Illinois, it has struggled to bring vibrancy to its downtown. In an effort to effect change, public and private groups joined together to promote the creation of a plan for a new "Central Park" that would become a regional destination and project a sophisticated, energetic image for the community.

The plan promotes redevelopment, recreation, and resource restoration, using innovative design to address community needs, while celebrating the Fox River. This regional park, located in the heart of the city, will connect neighborhoods on both sides of the river and act as a catalyst to unify Aurora in a dynamic public gathering place.

As envisioned, the park will be intertwined with the Fox River, flowing through the heart of Aurora. The park will embrace the river, weaving the city and the water together seamlessly. The Fox River will no longer be an ignoble and ignored waterway. It will be elevated to its rightful prominence and our greatest natural asset will be directly experienced in an urban setting.

The park will connect the built environment (views, access points, architectural, and natural design forms) to the river's natural environment, including upstream tributaries. The park centerpiece will be a dramatic pedestrian suspension bridge connecting the river's banks. The bridge creates a memorable arcing form which embraces the river while affording panoramic views of the park, city, and activities such as boating, fishing, and festivals.

VIEW FROM ABOVE LOOKING SOUTH

INTRODUCTION 5

SCALE 1" = 600'

EXISTING CONTEXT

The proposed park site is a historically significant location within the 170-mile long Fox River watershed. The famed Potawatomi Chief Wabonisie settled nearby, coming to the river to hunt the rich forested banks and marshy pools at the outflow of nearby creeks. This site is also where the river islands of the Fox provided the physiographic location and water power to run the McCarty brothers' milling and manufacturing operations on the banks of the Fox River. This historic settlement eventually led to the incorporation of Aurora in 1857.

The park site is bisected by the Fox River and surrounded on three sides by major north-south and east-west traffic corridors connecting through the downtown area to all sections of the city and

nearby communities. Residential neighborhoods exist blocks from the river's edge to the east and to the west, but are poorly connected to the river and the downtown business district. The land, much of which lies in a floodplain, slopes down to the river on both sides with varying grades and steepness. Historical land uses include parking, commercial and industrial sites, and open space. Environmental remediation will be part of the park development.

As a place owing its very existence to the Fox River, this land represents a major opportunity for Aurora. The site is conveniently located adjacent to the City's historic downtown business district, the Aurora Transportation Center, the Hollywood Casino, and the Paramount Arts Center.

VIEW NORTH FROM PEDESTRIAN BRIDGE SITE

VIEW SOUTH FROM INDIAN CREEK BRIDGE

VIEW EAST TO BLUES ISLAND FROM BRIDGE LANDING SITE

VIEW WEST TO BLUES ISLAND

VIEW EAST FROM WILDER PARK

VIEW WEST FROM THE PERFORMANCE VENUE SITE

PLAN ELEMENTS

- A WILDER PARK / WEST RIVER EDGE**
This site is currently occupied by a City of Aurora police station, which is being relocated in the near future. Demolition of the existing building will open up new parkland, allowing for dramatic vistas down to the river from the west side neighborhoods and providing a connection to the park and river. This area will be designed for picnicking, gatherings, a weekend market and special events staging.
- B RIVER CROSSING / BLUES ISLAND PRESERVE**
The central focus of the park is a new river crossing. This will take the form of an iconic pedestrian bridge. The bridge's curved main span is supported by a single mast cable suspension system. The arc shape of the bridge is duplicated on both river shorelines in the form of a curving boardwalk. The bridge embraces the river.
- Blues Island will be restored; exotic plant species will be removed and replaced with native plants. The island will then function as a mid-river nature sanctuary.
- C GARDEN MARKET AND EVENT SPACE**
The garden market and event space will form an eastern gateway to the park. It will be composed of raised planters forming a weave of pathways and spaces that gently slope down to the river. This space will also house a weekend market. Both urban and natural in form, the garden and its market act as a transition from the city to the naturalism of the park.
- D OUTDOOR PERFORMANCE VENUE AND LAWN**
The outdoor performance venue is the major functional element of the park. It acts as a platform from which visitors can experience cultural events, the natural setting of the river and the vibrancy of downtown Aurora. It is shaped by a colonnade of pylons which define its seating bowl and support a sophisticated sound system. The lawn will serve as a flexible venue for large concerts and picnics.
- E INDIAN CREEK WETLAND / ENVIRONMENTAL CENTER**
At the north end of the site, Indian Creek flows into the Fox River. A new wetland will be created at the mouth of the stream, restoring it to its more natural form. This wetland will serve as compensatory storage for rainwater, allowing other park elements to be constructed in flood zones and providing an urban wildlife area and environmental education center.

**INFORMATION**

Information kiosks are located throughout the park and natural areas. Information counters are located in the Event Pavilion and the Indian Creek Environmental Center.

**ADA ACCESSIBLE**

All paths and spaces within the park are ADA accessible to provide universal access.

**BICYCLE PATHS**

The Fox River Trail extends through the park on the east and west banks of the river and across the non-motorized bridge. Bicycle paths link surrounding neighborhoods, providing connectivity for area residents.

**WALKING/JOGGING PATHS**

Paths for walking, jogging and other recreation wind throughout the park on multiple levels, showcasing views of downtown and the river.

**PEDESTRIAN CROSSING**

Enhanced crosswalks paved with brick or stamped asphalt define safe pedestrian crossings leading into the park. Traffic signals and signage combined with traffic management during special events provide safe and convenient pedestrian access.

**STAIRS**

A dramatic, terraced walkway leads visitors to the river's edge from Wilder Park. The stairs become an impromptu grandstand for crowds viewing performances on the boardwalk below, events on the river and nighttime light shows and fireworks.

**RAMPED WALKWAYS**

Ramped walkways throughout the park allow for access to all of the park amenities and activities.

**BOARDWALK**

The boardwalk winds up and down and in and out along the edge of the river, much like the ebb and flow of the water, providing ideal places for fishing or sitting close to the water. Broad stone or concrete steps descend into the water from which canoes and kayaks can be launched.

**FOX RIVER TRAIL**

The Fox River Trail extends into the park and connects to the downtown FoxWalk/Riverwalk at New York Street. Where the city meets the park, the upper level riverwalk provides opportunities for outdoor cafes, seating areas, event spaces and public art.

**UNDERPASS**

The Fox River Trail passes below the non-motorized bridge, close to the river's edge creating dynamic spaces. The bridge and its approach paths are built above the floodplain to allow access in all seasons.

**SOFT RIVER EDGE**

The riverbank is maintained as a natural soft edge of sand, soil and native plants throughout the park. Boardwalks are built above the soft river edge. The soft edge is interrupted by hand edges at three small stepped landings that extend into the water, at the terminus of Spring Spruce and Cedar Streets.

**WATER FEATURE / FOUNTAIN**

Dramatic water displays are found throughout the park.

**RESTROOMS**

Permanent public restroom facilities are provided at the Performance Venue, the Visitors Center and the Indian Creek Environmental Center. Temporary restrooms are provided at strategic locations to accommodate visitors attending special events.

**CONCESSIONS**

Permanent concession operations are housed in the Performance Venue, the Visitors Center, and the Indian Creek Environmental Center. Temporary concessions are provided at strategic locations in the Garden Market and the Wilder Park Market to accommodate visitors attending special events.

**TICKETING**

Ticket windows and related operations are located in the Community Center. Additional ticketing may be housed in tents at the gates and in the seating pavilion for larger events in the Performance Venue.

**OUTDOOR MARKETS**

Outdoor public markets, farmers' markets, art fairs, etc. are accommodated in the expansive Wilder Park Market on the west side of the river, with additional vendor and market space at the Garden Market on the east bank.

**CHILDREN'S PLAY AREA**

The Children's Play Area acts as a welcoming gateway to the southern entry to the park. It features engaging spaces and structures for exercise and fun throughout the year. Large-scale and intriguing fountains, sculpture, and interactive musical instruments allow kids to exercise their bodies and their minds in a striking outdoor setting.

**ICE SKATING**

Ice skating facilities are found throughout the park.

**ITINERANT PERFORMERS**

Multiple settings exist throughout the park for both planned and impromptu smaller-scale performances.

**FIREWORKS / LIGHT SHOWS**

The bridge and both riverbanks serve as front row seating for crowds drawn to the riverfront for light shows and fireworks displays.

**CANOEING AND KAYAKING**

Opportunities for water recreation occur all along the river's edge.

**PICNICKING**

The lawns at Wilder Park and the Performance Venue provide comfortable spots for picnics overlooking the river.

**FISHING**

The bridge and boardwalks provide ideal locations for fishing.

**BIRD WATCHING**

Blues Island and the Indian Creek Wetland Area are ideal spots for bird watching.

**NATURAL HABITAT**

The natural habitat of the river is restored on Blues Island and at the mouth of Indian Creek.

**NATURE VIEWING**

Blues Island and the Indian Creek Wetland Area are ideal spots for viewing nature.

**SLEDDING / WINTER ACTIVITIES**

Sledding and winter festivals can be experienced at many sites throughout the park.

**PHOTOGRAPHY**

Views from every angle of the park are ideal photographic backdrops and subjects.

BOARDWALK VIEW LOOKING TOWARD THE BRIDGE AND WILDER PARK

TYPICAL WILDER PARK MARKET SCENE

The boardwalk provides an opportunity to interact with the river that flows through the heart of Aurora. The entire area includes extensive landscaping, plus welcoming lighting and seating areas. Restoration of the water edge enhances the river's water quality. Best management practices

have been implemented to protect the river and its banks. Easy access to the water is provided by docks and the boardwalk system, allowing visitors direct contact with the water for boating, fishing or simply sitting and enjoying a moment of respite.

Walking north, passing under the bridge, people experience the sensation of moving into an outdoor "room" created by the arc of the bridge. The southwestern gateway is marked by a water feature that draws attention to the visual center of the park and forms a dramatic

civic space. A grand terrace leads to the great lawn, with a view across the river to Blues Island and the Performance Venue.

Check appropriate response: New Project Application (*not previously reviewed/considered by IDNR*)
 Application Resubmittal*

*If resubmittal, indicate the year(s) previously submitted: _____

Has project proposal changed in scope or design layout from previous submittal(s)? Yes No
 If this is a development project was the property acquired with IDNR funds? Yes No

Project Location

Street Address and City: 350 N. River St., Aurora, IL 60506 County: Kane
 USGS Numeric Location Designation: _____ Township: 38N Range: 8E Section: 22

Please attach: 1) project site development plan
 2) topographic map
(Note: photocopy ONLY that portion of Topo map where project site is located. Copies should be no larger than 11" x 17")
(Clearly delineate and identify the project site/park boundary on the map with a dashed black line)

Topographic maps may be obtained from:
 Illinois State Geological Society
 Champaign, IL
 (217) 244-2414

Size of Project Site: 3.3 acres

Topographical maps may also be available from local and/or regional planning commissions.

Does the project include tree removal? Yes No If yes, anticipated number to be removed: _____

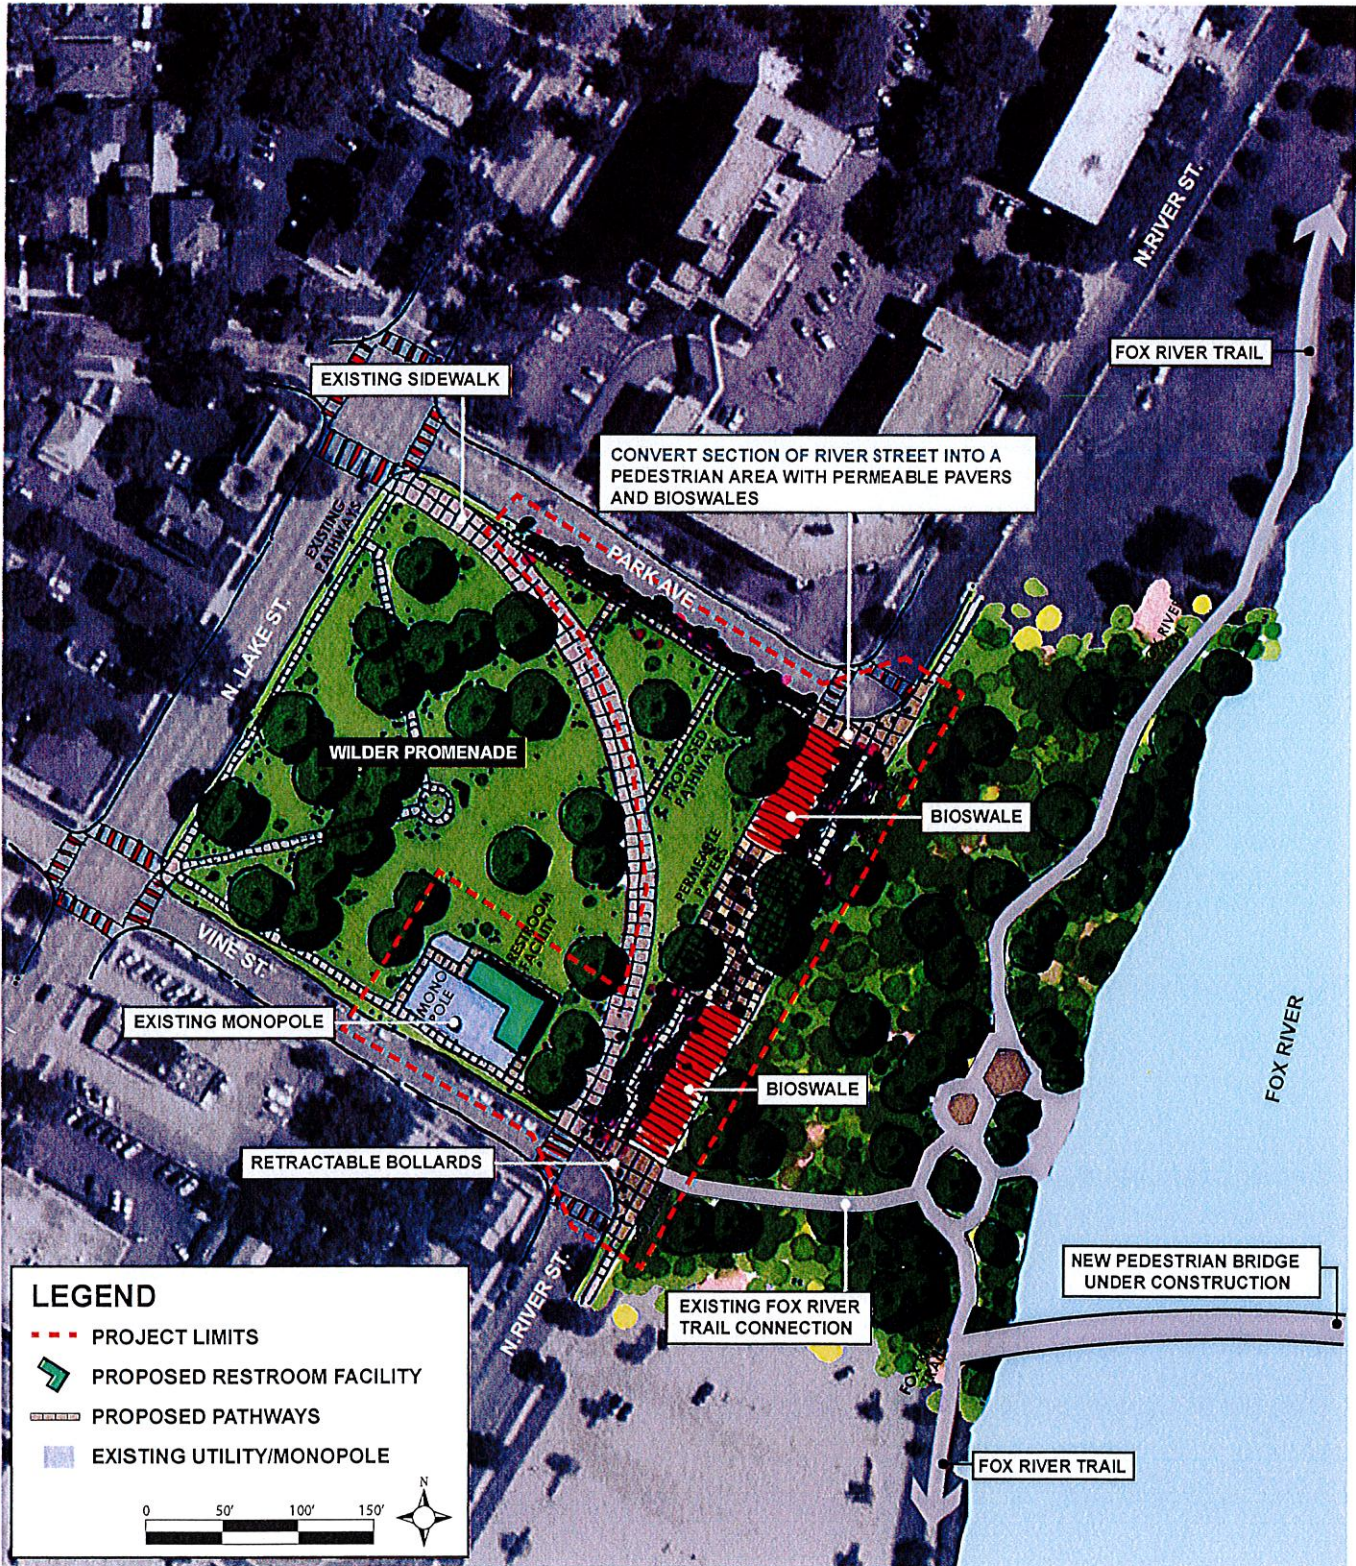

Concise Project Description: (Also, attach 2 sets of color photos of any existing buildings/structures on project site.)

The Wilder Promenade project will vacate a one-block stretch of City street between two sections of open space, creating a multi-use park area, bioswale and 2,000 square-foot restroom/concessions building along the Fox River. Wilder Promenade is on the site of the former Aurora Police Station, which was demolished in 2011. There are no buildings and one cell monopole on the site.
