Subject: Fwd: Public Street Shipping Yard

This is an ongoing problem along Westbrook Dr. We do not currently have an ordinance to address this. Our commercial vehicle ordinance only deals with residential. I was also unable to find anything that would address the issue of parking of trailers without the tractor. I think this is something that we should look into when it comes to updating/changing the ordinance related to commercial vehicle parking.

In the meantime, would it be possible to propose posting No Truck Parking signs in this area? We have a couple of things that are happening. I'm being told we have 3 or 4 businesses that consist of a desk, chair and computer. These businesses are parking trucks here. There also appears to be independent truck drivers who are storing their trucks on these streets. We have written and towed a couple for 48 hour violations, however, as you can probably imagine it's a little more than just having a car towed.

These are taken all on the same day, but this is pretty much the scene on any given day. On the weekends there are typically more trucks about.

Subject: FW: SEMI TRUCK PARKING ISSUE

Cristal,

Thanks for the photos and forwarded message. I am forwarding to Sergeant Woods for possible enforcement.

Westbrook Drive is not a residential roadway but is a roadway that serves commercial and industrial use, so it is not as restrictive toward trucks as a residential street would be. That being said, it is not legal to store a truck trailer on a City roadway. Would be beneficial to discover what business is generating the truck trailer parking and see if there is a solution, not park in front of the Dental Office. If no other solution is available, then signage with enforcement may become the viable option.

I will follow-up with Sergeant Woods to see what info APD can obtain regarding the parked trailer.

Bob

Subject: Fw: SEMI TRUCK PARKING ISSUE

Hello Bob,

Please see the email below from Dr. LoDestro. He has been having an ongoing parking issue with semis at his dentist office. I had entered a request for No Parking signs a few months back but they were not put up. There are quite a few request in Public Stuff regarding this issue. Would you be able to tell my why the No Parking signs were not approved?

Thank you,

Cristal Colón

Subject: [SPAM?] Fw: SEMI TRUCK PARKING ISSUE

Hello,

We have spoke a couple times regarding the semi trucks that park right in front of my business. Just sending a couple pictures of this specific semi that parked right by our front sign. This semi has been parked here for at least over a week with no truck even attached, it's just the bed. Wanted to see if we could try to get it removed. Let me know if you have any questions or other requests.

Thank you so much,

Dr. Peter Lo Destro
