**Subject:** On street parking request for View street

Bob,

The historic apartment building on the SWC of Galena and View was built without parking and parking in the area is in high demand. Many folks living in the apartments chose to park on Downer that could possibly park adjacent to their building on the west side of View Street. I have received multiple requests to look into allowing on street parking on View St. south of Galena. View is fairly wide and has parking on both sides of the street south of Downer which appears to work well. I would therefore request that a traffic study be prepared to look at the feasibility of allowing on street parking on View St. south of Galena and north of Downer Place.

Thanks,  
Bill
