

Please consult the Special Events Planning Guide for assistance and guidelines

The organizer of a special event must fill out the application and return it to the City Special Events Office no less than 60 business days prior to the start of the event.

What is an Event?

An event is any organized activity involving the use of, or having impact upon, public property, public facilities, parks, sidewalks or public roadways in a manner that varies from its current land use. It is our goal to assist event organizers in planning safe and successful events that create a minimal impact on the communities surrounding the events.

A permit will not be approved for the primary purpose of advertising a product, goods or services, or if the event is designed to be held primarily for profit.

Event Priority

City Sponsored Events

City of Aurora events have priority for the use of any city property or right-of-way. Other applications for Special Event Permits are processed in order of receipt. The use of a particular area is generally allocated in the order in which fully executed applications are received, and in accordance with considerations used by the City in deciding on the issuance of a permit as set forth below.

Annual Events

Applicants who have held an event in the previous year have the first priority for the same date, time and location. This right shall not apply if the event did not follow guidelines set the previous year. See the *Letter of Intent* in the Planning Guide.

Permit Process

The permit application process begins when a completed Special Event Permit Application is submitted to the City of Aurora. Keep in mind that receipt of an application should in no way be construed as final approval or confirmation of a request. A representative from Special Events will contact your organization upon receiving the application and thereafter will serve as your

organization's primary point of contact for the processing of the permit. Copies of the application are forwarded and reviewed by all affected City departments and/or public agencies. Your organization may be contacted individually by these departments or agencies only if they have specific questions or concerns about the event. Throughout the review process your organization will be notified if the proposed event requires any additional information, permits, licenses or certificates. During the initial application reviewing process, your organization will be allowed time to provide the City with all pending documents (e.g. certificate of insurance, and approved secondary permits, etc.). These items must be received before a Special Event Permit can be issued. Your organization's delay in providing requested items can delay the City's ability to finish the review process and approve your organization's application.

City of Aurora Non-Discrimination Statement

The City of Aurora does not discriminate on the basis of race, color, national origin, sex, religion, disability status, age, or any other protected status in provision of services.

Compensation for City Staffing

Depending on the size and type of event, the City may require personnel including Police Department and/or Fire Department staff to work the event. The cost of all City personnel involved during the day(s) of the event will be charged back to the organizing agency. The City shall determine the number of staff necessary to ensure the safety of participants, minimize the inconvenience to our residents and reduce the public liability exposure to the organizing agency, as well as to the City. The event organizer will be notified of approximate costs in advance. An invoice for the cost of City Services will be transmitted to the organizing agency within sixty (60) working days after the completion of the event. **For a chart of costs, see the Special Event Planning Guide.**
