1. The Partner will maintain an active signed agreement with the Financial Counseling Provider(s), unless the Partner provides the financial counseling services itself. If the existing agreement with the Financial Counseling Provider(s) is set to expire before the end of the Term, it should be renewed by amendment or with a new agreement, assuming the Partner intends to proceed with the Financial Counseling Provider(s). The fully executed agreement(s) with the Financial Counseling Provider(s), and any amendments or new agreements, must be shared with the CFE Fund. The Partner will provide immediate written notification to the CFE Fund if significant changes or events occur during the Term which could potentially impact the progress or outcome of its adherence to the FEC Model, including, without limitation, changes in the Partner's or any Vendor(s)' management personnel or lead staff member(s) responsible for managing the FEC, loss of funding or other extenuating circumstances which could affect the FEC. The Financial Counseling Provider(s) must be approved by the CFE Fund, with such approval not to be unreasonably withheld, conditioned, or delayed. Any changes to or at the selected Financial Counseling Provider(s) during the Term including but not limited to adding additional providers, termination of providers, and staffing changes, must be approved by the CFE Fund, with such approval not to be unreasonably withheld, conditioned, or delayed.

II. FECBOT Database and Experian Connectivity

1. For the term of the MOU, the Partner will use the CFE Fund's FEC database, FECBOT (Financial Empowerment Center Boost Outcomes Tool). The CFE Fund will provide licenses at no cost for FEC-essential personnel, such as the Financial Counselors, the Program Manager, and the Local Government Manager. Any additional license requests will be at the discretion of the CFE Fund and could be subject to licensing fees and reasonably related management costs.
2. The Partner will ensure that the Financial Counseling Provider(s) maintains rigorous client confidentiality when using FECBOT and Experian, and follows data collection protocols to ensure client confidentiality:
 - a. Maintain the confidentiality of all written and electronic client information and data; as well as the configuration of FECBOT and terms and prices of the Experian credit reports.
 - b. Ensure that computer equipment, the FECBOT database, and any other data collection

tools will not be used by anyone other than Financial Empowerment Center-trained and approved Financial Counselors, City and Counseling Provider Managers and a limited number of support staff; and will not be used outside of the parameters of the Financial Empowerment Centers or Partner's other office locations. Any staff member who is authorized to access FECBOT will be required to sign the FECBOT User Agreement (see Exhibit C – Sample FECBOT User Agreement) and provide a copy to the CFE Fund's FECBOT Administrator.

- c. Keep all data within a secure limited-access network, maintained by FECBOT through Salesforce; and through Experian. Client data should not be downloaded to hard drives of individual computers or to portable storage devices.
- d. Ensure each client understands and signs a Client Waiver form approved by the CFE Fund. Partner must ensure that client data is only shared with the consent of the individual client, following the stipulations in the Client Waiver.
- e. Ensure that all paper documents with personally identifiable information will be stored in locked file cabinets with access limited to Financial Empowerment Center staff. Financial counseling records, including sensitive financial information must be kept in a locked drawer/cabinet separate from other Partner client information. Any old, duplicative, or unnecessary documents containing personally identifiable information shall be shredded using a cross-cut paper shredder. Personally identifiable information includes, but is not limited to, social security numbers, full names, telephone numbers, addresses, email addresses, dates of birth, and financial account numbers.
- f. Use standard database security practices when accessing FECBOT and the Experian portal, which include: using strong passwords (combinations of letters, numbers, and special characters) to limit access; changing passwords at least quarterly; and not sharing passwords with other employees or by storing passwords where others may access them.
- g. Limit the ability of non-Financial Empowerment Center staff members to view data by locking, turning off or logging out of computer systems when not in use. This shall include setting security systems to automatically lock with a screen saver at frequent intervals, not more than ten minutes. Protect computers and other network devices that can be used to access Client data with anti-virus and anti-spyware malware protection software, a firewall, and timely installation of Windows "patches."

III. License

1. Subject to compliance with all terms and conditions of this MOU, CFE Fund hereby provides the Partner a non-exclusive and non-transferrable license to all City of Aurora Financial Empowerment Center data stored in the FECBOT database during the Term of this MOU. The Partner may only use this data for City of Aurora Financial Empowerment Center program purposes, as permitted in Exhibit C (the "Sample FECBOT User Agreement"), and in accordance with instructions from the CFE Fund.
2. The Partner acknowledges that CFE Fund owns all right, title, and interest in FECBOT, including all intellectual property rights and FECBOT data. The Partner further acknowledges that the CFE Fund has dedicated substantial resources to build, administer, and manage the FECBOT database and it is the sole intellectual property of the CFE Fund. If the Partner violates the terms of this MOU, including not effectively administering the terms and conditions in the FECBOT User Agreement, the CFE Fund may, in its discretion, provide the

Partner a reasonable opportunity to cure or remedy the violation. Absent acceptable cure, the CFE Fund may terminate this License with reasonable notice to the Partner.

1. The Partner, and its Financial Counseling Provider(s) if applicable, recognize that any and all materials, including but not limited to training manuals and templates and FECBOT, provided by the CFE Fund to the Partner, and its Financial Counseling Provider(s), are the exclusive property of the CFE Fund.

Financial Empowerment Center Model
(the “Model”)

Please note that this provides a broad overview of the model. During the course of engagement, the CFE Fund team will be providing further details on all components of the model.

Model:

- Professional, one-on-one and free public service.
- Systematically track data and outcomes for client management and evaluation.
- Connects to a range of local government and nonprofit service delivery systems.
- Prioritizes sustainability efforts to become a permanent service in the locality.

Operations:

- Program implementation and management is led and overseen by the local government.
- Service provision is conducted by one or more qualified nonprofit partners or local government agencies, formalized via memorandum of understanding.
- Counselors conduct financial triage with clients to determine the nature of their financial situation, set goals, and establish a specific plan of action with each client focused in four primary areas: banking, savings, debt, and credit.
- Client retention, critical to outcome achievement, is prioritized as counselors work with clients to make progress on their action plan.
- All program managers and counselors must be trained based on the CFE Fund’s training standards and pass a CFE Fund–administered final exam.

The Financial Counseling Session

As defined for the Model, one-on-one financial counseling and coaching represents a mix of direct service goal setting and light case management provided by highly trained professionals to advise people on their financial and personal goals in the areas of banking, savings, debt, and credit. One-on-one counseling, either in person or remotely, is conducted or tracked with the goal of clients achieving meaningful, defined financial outcomes. A financial counseling session is a confidential, private meeting between an FEC counselor and individual (or household) lasting a minimum of 30 minutes. Sessions can be either in person or remote (i.e. phone, video) given they meet the 30-minute requirement.

The initial counseling session consists of a comprehensive financial health assessment, where counselors conduct triage to determine the full nature of the client’s financial situation, support the client in setting goals, and establish a specific client-led action plan to manage their finances, pay down debt, increase savings, establish and build credit, and access safe and affordable mainstream banking products. Retention, or returning for more than one session, is critical; clients are more likely to achieve outcomes if they participate in multiple counseling sessions. Throughout the process, counselors advise clients, and track progress towards outcomes aimed at enhancing financial stability.

Partnership Structure

The Model is a partnership between local government and community based organizations, with critical and distinct roles for each partner.

Local Government (city or county) plays a central role of directing and coordinating the initiative on the ground. The local government partner ensures quality and consistency of service delivery by establishing protocols for monitoring and evaluation, using public channels for marketing and promotion of services, and supporting integration of service delivery within other public programs and local government access points.

Financial Counseling Providers recruit, hire and supervise the FEC counselors. They are responsible for all data collection and regular reporting to the local government and the CFE Fund. They support public marketing efforts by participating in outreach events and presentations. In addition, nonprofit providers establish and maintain relationships with other community partners hosting counselors, referral partners, and other outreach and community efforts. This provider role can also be fulfilled by a local government agency.

Local and National Counselor Training Partners deliver financial counseling training instruction based on the training standards provided by the CFE Fund, focusing on financial content, counseling and coaching skills, and cultural awareness. Partners can deliver this training in a variety of formats, including at a local college, through self-paced webinars, and/or with program managers or national training providers teaching the curriculum. Prior to working with their own clients, counselors must pass an exam that evaluates their command of training material and succeed at a period of mentored, experiential training (such as role-playing, shadowing, and observation). In addition, local government and counseling provider managers coordinate continuing education opportunities as the program evolves to further counselors' professional development and understanding of new financial issues that those with low incomes face.

Programmatic Partners are crucial to integrating the FEC services into the service streams of local government and nonprofit agencies, especially those serving people with low and moderate incomes. Partnerships deeply embed financial counseling/coaching into local government and nonprofit programs, advancing both programs' goals. Partnerships can have a variety of characteristics in a scale of increasing integration, which are: formalized via MOU, defined referral process, co-location, FEC participation fully integrated, coordinated case management, regular reporting, data sharing agreement, and Supervitamin Effects Study. Potential complementary program integrations could include: homeownership assistance, homeless prevention, foreclosure prevention, workforce development, asset building, financial access, domestic violence prevention, or other social services.

Philanthropic Partners are influential in the launch of the FEC and subsequent enhancement opportunities. At the start of the implementation phase, localities secure funding from local and/or national funders to partially match the CFE Fund's investment to launch the FEC. Funder engagement in the FEC stems from a range of interests, including geographic footprints, programmatic priorities, innovation opportunities, and issue-based giving. Once the FEC has

launched, funders offer opportunities to enhance the Model with targeted pilots, while also providing support to complement the public funding.

Data Collection and Reporting

Data collection and reporting are essential to the success of the Model, used to improve service delivery, track required outcomes, and further budgetary and political sustainability efforts. The Partner will be required to use FECBOT throughout the Term and participate in all national data collection, tracking, and evaluation activities. The Partner has access to all City of Aurora FEC data collected and is able to create customized reports.

Learning Community

The CFE Fund operates a national learning community of local government partners engaged in FEC development and implementation. Learning community calls or events are valuable opportunities to learn and share best practices.
