**PROPOSAL SPECIFICATIONS**

**Section 1. Project Introduction and Purpose**

Proposers are required to read and understand all information contained within the entire Request for Proposal package. By responding to this RFP, the Proposer agrees to have read and understand these documents. **The City reserves the right to award the proposals individually or cumulatively to qualified and responsible Proposers.**

**Purpose:** The City of Aurora, hereinafter (“City”), located in Kane, Dupage, Kendall and Will Counties, Illinois, is seeking proposals for the provision of professional services for Snow and Ice Control Services of various parking lots that the City of Aurora maintains, when directed by the Superintendent of Facilities Maintenance or Designee, as needed, to establish a list of eligible contractors.

The contract shall be for the period of two (2) years. Upon mutual agreement, the City may grant two (2) additional one-year extensions of this agreement for a total of four (4) years.

Any firm (hereinafter “Contractor”) desiring to furnish a quotation for such services shall submit proposals following the instructions and format of the attached Request for Proposal (RFP) documents.

**Section 2. Minimum Qualifications**

The following are minimum requirements that the vendor must meet in order to be eligible to submit a proposal. Responses must clearly show compliance with these minimum qualifications. The City will reject without further consideration those applications that are not clearly responsive to these minimum qualifications. Each specification included in this package describes the services which the City feels is necessary to meet the performance requirements of the City, and shall be considered the minimum standards expected of the Contractor. The specification is not intended to exclude potential Contractors.

Contractors may indicate alternatives to these specifications if the proposed changes are equal to or greater than what is required by these specifications.

All alternatives shall be separately listed and a justification shall be stated for such alternatives.

If the Contractor is unable to meet any of the specifications contained herein, it shall also separately list all requested deviations from the specifications, and a justification shall be stated for such deviations.

If a Contractor does not indicate alternatives to or deviations from the specifications, the City shall assume that the Contractor shall fully comply with those specifications. The City shall be the sole and final judge of compliance with the specifications.

The City further reserves the right to determine the acceptability or unacceptability of any and all alternatives and deviations, and to negotiate the effects and costs of any such alternatives and deviations

prior to reaching a decision on the awarding of a contract. The City shall unequivocally be the sole and final judge as to whether any alternative or deviation is of an equivalent or better quality or service. This decision is final and shall not be subject to recourse by any person, firm, or corporation.

The RFP documents clearly identify certain issues where the City has left specification language open, or where the City will consider alternatives. In these areas the City is instead soliciting proposals for further consideration, and may include specification language in some form in this contract. However, the City reserves the right to determine which specification language will be included.

Upon such termination, the liabilities of the parties to this RFP shall cease, but they shall not be relieved of the duty to perform their obligations up to the date of termination. Mailing of such notice, as and when above provided, shall be equivalent to personal notice and shall be deemed to have been given at the time of mailing.

If this RFP is terminated due to the City's substantial failure to perform, the Proposer shall be paid for labor and expenses incurred to date, subject to offset of any damages, losses or claims against the City resulting from or relating to Proposer's performance or failure to perform under this agreement.

In the event of termination by the City upon notice and without cause, upon completion of any phase of the Basic Services, fees due the Proposer for services rendered through such phase shall constitute total payment for services. In the event of such termination by the City during any phase of the Basic Services, the Proposer will be paid for services rendered during the phase on the basis of the proportion of work completed on the phase as of the date of termination to the total work required for that phase.
