

**Sergeant Rowley,
Aurora Police Department**

April 3, 2019

Hello, this letter is in regards to the 836 Tactical Video Phone™ and the CINT Commander II™, which were developed by our company. The 836 Tactical Video Phone™ has features which make it unlike any other throw phone on the market. This system has a highly sensitive 836 designed covert microphone, which has a wide spectrum of audio. The covert mic allows you to clearly hear and identify faint background noises. An integrated digital speakerphone includes adjustable audio settings. The 836 Tactical Video Phone has five streaming high resolution color video cameras, with the ability to view and record all five cameras simultaneously. Our system also incorporates a custom made data cable which is capable of sending all five color video feeds in excess of one mile. The 836 Tactical Video Phone does not require any additional power sources other than the main power cable located at the tactical control console. Our system is also the only throw phone designed to work with the CINT Commander II control console. There are no other throw phones available that contain these characteristics.

The CINT Commander II is the only system in the world which is designed specifically for crisis situations that interfaces with a computer to log, track, and record all aspects of a critical incident. Our system allows communication via landline, cell phone, or tactical phones to negotiate with the person(s) in crisis. The CINT Commander II networks via proprietary software with up to 50 computers, which are able to take active roles during negotiations. Live audio, live video, and live updates to all files are available to all computers on the network.

Due to the sensitive nature of the 836 Tactical Video Phone™ and the CINT Commander II™, they are only available for purchase to military, federal, state, and local law enforcement agencies. We do not allow outside vendors to market or sell this system. In order to keep control over who obtains the 836 Tactical Video Phone™ and the CINT Commander II™, and in order to provide the best support possible to our clients, purchases can only be made through 836 Technologies.

We ask that you please accept this sole source product notification for the 836 Tactical Video Phone™ and the CINT Commander II™, however if your agency has a specific sole source document that you require I would be happy to complete that for you. If you would like any additional information please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read 'Brian Freeman', with a stylized flourish at the end.
