

MercyFest 2015

EMERGENCY PROCEDURES

In the event of a medical emergency, first aid will be notified. One medical personnel attend to the situation. The second first aid personnel will contact 911 if necessary and then notify the festival manager or designee.

In the event of a FIRE, first aid will be notified. The first aid tent will contact 911 and notify festival manager or designee. First aid will serve as coordination center. If first aid needs to be evacuated, first aid will relocate to paved area east of portable toilets and continue to coordinate efforts.

In the event of severe weather, first aid will serve as coordination center. Festival manager or designee will coordinate through first aid tent upon determination of cancellation of event or crowd movement into Parish Life Center.

TENT EMERGENCIES

In the event of emergency, volunteer workers will lift flaps from the bottom for all occupants to exit.

Side panels are removable. Sides clip at the top and can also be released by unhooking clips.

At all times there will be at least two people in each tent who know how to unfasten sides of tent.

Emergency lighting is established in each tent.
