**Re: Qualifying statement for Land Use Petitions
Butterfield East Unit 3 Final Plan and Plat**

Dear Mr. Sieben:

Duke Realty Corporation herein submits the following qualifying statement regarding the above Land Use Petition:

- ***The public health, safety, morals, comfort, or general welfare.***
Approval of the proposed Plan and Plat will allow the development of Butterfield East as a first class business park. The proposed buildings will be constructed of quality materials, architecturally detailed, and consistently maintained. The park will be served with a variety of landscaped common areas and stormwater facilities containing native vegetation; all landscaping shall be maintained by a professional landscaping company. Finally, Duke Realty has established Covenants, Conditions, and Restrictions across the park to ensure that only uses consistent with a premier business park are permitted.
- ***The use and enjoyment of other property already established or permitted in the general area.***
The proposed business park will be consistent in use and design with the existing industrial park west and adjacent of the site. In areas where the proposed development abuts residential areas, Duke Realty is proposing a densely landscaped berm to mitigate this condition.
- ***The normal and orderly development and improvement of surrounding property for uses established or permitted within their existing zoning districts.***
The majority of the land around the park has been previously developed. Undeveloped lots exist south of the proposed park, across Ferry road. The proposed development will utilize existing access points and turn lanes previously located on Ferry Road as to not impair the access or development of these southern lots.
- ***Utilities, access roads, drainage, and/or other necessary facilities.***
In conjunction with the development of the park, Duke Realty will be installing sanitary sewer, storm sewer, water mains, and electrical / telecommunications spine to serve all

9377 West Higgins Road
Suite 600
Rosemont, IL 60018

of the lots within the park. Additionally, a master-planned stormwater detention system will be completed prior to the development of any of the lots.

- ***Ingress and egress as it relates to traffic congestion in the public streets.***
Access to the park shall be provided off of Ferry road, a five line arterial road rated for truck traffic. Additionally, the City has approved additional emergency access from the residential neighborhood to the north, ensuring that adequate emergency access is provided.

- ***The applicable regulations of the zoning district in which the subject property is proposed to be or is located.***
The underlying zoning of the proposed park is “PDD—Planned Development District”. Pursuant to the annexation agreement for Unit 3, the bulk regulations were assumed to be based on the Manufacturing District. However, when seeking approval of the existing Preliminary PDD, Duke Realty developed zoning standards based off of the “ORI—Office, Research, Light Industrial” district. Duke is again proposing to use the more restrictive standards of the ORI district. Additionally, all uses permitted within the park are permitted within the ORI zoning district.

The petitioner requested approval of the following deviations from the existing zoning standards during the Preliminary Plan and Plat Approval:

- ***Reduction in the Required Parking Ratio:***
The City of Aurora parking requirements for industrial properties has changed since the original PDD was approved. The Petitioner is proposing to maintain the parking standards in effect at the time of the originally approved PDD. Namely, we are requesting the parking ratio for Industrial / Warehouse space be 1 stall per 4 employees. Based on Duke Realty’s market experience, we will provide adequate parking to meet the needs of the market for this type of Industrial product.

- ***Increase in the Permitted Length of a Cul-de-Sac:***
The proposed site plan extends Duke Parkway to an ultimate length of approximately 4,200 feet (final length to be determined during the approval of the Final Plan); the City’s permitted maximum is 1,500 feet. The primary driver of this regulation is fire safety, and Duke is providing an additional fire/emergency vehicle access off of Estes Avenue. From this fire access point, the “dead end” portion of Duke Drive is approximately 1,000 feet, meeting the intent of the ordinance requirement.

- ***Reduction in the Landscape Setback Requirement Along Duke Drive:***
Given the change in the planned alignment of Duke Drive, and the fact that Duke no longer owns Lot 2, we are forced to ask for a reduction of the landscape setback at the northwest corner of the Lot 1 from 30 feet to 18.5 feet. The parking and drive aisle areas of Lot 1 were previously built assuming a different

9377 West Higgins Road
Suite 600
Rosemont, IL 60018

alignment of Duke Drive. As such, the relocation of Duke Drive further into this lot necessitates this deviation request.

If you require any additional information regarding this land use petition, please do not hesitate to contact me at (847) 232-5510, or wil.freve@dukerealty.com. Thank you for your assistance with this project.
