QUALIFYING STATEMENT

The proposed Lennar single-family Prairie Meadows Planned Development, an age targeted ranch home community, will consist of 74 single-family homes with access via extensions to existing Constitution Drive, Kenilworth Place and Rockwell Road. The homes will be one story in height with two-car attached garages. It is anticipated that the property will require approval of a Conditional Use Planned Development in the R-1 Single-Family Residential District, R-1 (C) and OS-1 (C) Conservation, Open Space and Drainage District for the wetland/open space parcel.

1. The Prairie Meadows development will have a positive effect on the public health, safety, morals and general welfare. Improvement of this vacant parcel will provide new homes for the City of Aurora, complimenting the development of this area that has grown into a primarily residential area within the City. Furthermore, its development will complete the transformation of a property that had been set aside for school purposes but never utilized as such.
2. Use and enjoyment of other established properties will not be adversely affected due to the development of this property in a like-manner to other surrounding single-family lots.
3. The proposed subdivision will benefit the property values within the neighborhood. The introduction of these new homes will complete the trend of a thriving residential community area, and placing the property on the tax rolls will generate new income for all relevant taxing bodies.
4. The proposed development is consistent with the normal and orderly development and improvement of the surrounding properties for uses established or permitted within their respective zoning districts. It is an infill property that will complete the buildout of this greater single-family neighborhood.
5. The site location is well supported by existing utilities, access to existing street stubs, drainage and other facilities. The proposed development will integrate well into this existing infrastructure completing an area where all surrounding properties have previously been developed.
6. Proposed vehicular ingress and egress for the proposed development will utilize the existing Constitution Drive and Kenilworth Place dead-end streets. The streets will be extended within the subdivision and allow for direct access to Prairie Street, which is a major collector roadway. With the surrounding land having been developed, this design will not burden existing residential local neighborhood streets due to the ability to access the property via three separate existing streets.
7. The conditional use shall, in all other respects, conform to the applicable regulations of the R-1, (C) and OS-1(C) zoning districts with the exception of the following exceptions:
 - a. Revised front yard setback from 30 feet to 25 feet.
 - b. Revised the minimum lot size to 8,000 square feet.
 - c. Revised side yard setbacks to 6 feet.
