Re: Proof of Compliance with 30 ILCS 500/30-22(6) Our File No. MI-00321

Dear Sir or Madam:

At the request of Brandt Excavating Inc., I am providing you with evidence of the Company's compliance with the apprenticeship requirements in 30 ILCS 500/30-22(6) of the Illinois Procurement Code. I am submitting this letter along with apprenticeship certificates (Nos.IL012020003 and IL008780173).

As a signatory contractor with the International Union of Operating Engineers, Local 150, AFL-CIC, Brandt Excavating Inc., is required by Collective Bargaining Agreement to participate in an applicable apprenticeship and training program approved by and registered with the United States Department of Labor's Bureau of Apprenticeship and Training. The attached certificates are evidence of compliance with the U.S. Department of Labor's apprenticeship requirements.

Thank you for your cooperation in this matter. If you have any questions or concerns, please do not hesitate to contact me.

Very truly yours,

IUOE, Local 150, AFL-CIO

RE: Brandt Excavating Recommendation Letter

To Whom It May Concern:

I am writing to share my high regard for Brandt Excavating following the successful completion of the City of Batavia's inaugural large-scale Lead Service Line Replacement (LSLR) Program. This critical initiative, which took place in the spring of 2023, involved the full and partial replacement of approximately 285 water service lines and was funded by a \$4,000,000 Illinois Environmental Protection Agency Principal Forgiveness Loan.

Before undertaking this large-scale endeavor, the City had worked with Brandt Excavating on several water service replacements due to failures, as well as in a subcontractor role for water main directional drilling within larger utility infrastructure projects. These prior collaborations were marked by great success. However, the 2023 LSLR Program represented the first time the City had contracted Brandt Excavating for a project of this size and complexity.

As one might expect, a project of this scale—especially one involving private properties—requires exceptional coordination, communication, and logistical management. Brandt Excavating demonstrated seamless collaboration with City staff throughout the process. There was never any ambiguity regarding which addresses were being addressed and when. Additionally, Brandt's proactive communication with property owners was exemplary, as evidenced by numerous emails and phone calls exchanged with stakeholders. Over the course of the project, it became abundantly clear that Brandt Excavating's extensive experience in water service line replacement projects had a significant impact, allowing City staff to reduce oversight and focus on other, more important daily tasks.

I am particularly pleased to report that the project was completed on time, without delays, and well under budget. This outcome was made possible through Brandt's efficiency, which not only resulted in significant savings but also enabled the addition of 25 to 30 additional lead service line replacements, all within the original budget.

For these reasons, I offer my highest recommendation for Brandt Excavating, and would like to highlight the following qualities that contributed to the success of the project:

- Clear and consistent communication
- Meticulous attention to detail
- Rigorous quality control
- Exceptional project management
- Strong organizational skills
- Effective stakeholder engagement

In my 29 years of managing capital improvement projects, this has been by far the most straightforward project in terms of contractor coordination and overall confidence in the finished product.

Please contact me at (630) 454-2450 or <u>ibarkei@bataviail.gov</u> if you have any questions or request additional information.

Sincerely,

Jeremy Barkei Water & Sewer Utility Superintendent

Re: Letter of Recommendation for Brandt Excavating, Inc.

To Whom it May Concern:

The projects listed below were successfully constructed by Brandt Excavating, Inc.:

- Marycrest Water Main Relocation, Phase IIIB (2018)-\$1,495,243
- Marycrest Water Main Relocation, Phase IVA (2019)-\$1,039,065
- Marycrest Water Main Relocation, Phase IVB (2019)-\$1,438,720
- Raynor Park Water Main Replacement Phase 2A (2020)-\$1,438,720
- Lead Service Replacement Phase 2A (2021)-\$870,796
- Florence Park 1B Water Main Improvements (2021)-\$775,382
- Reedwood Phase1A Water Main Improvements (2021)
- Reedwood 1B Water Main Improvements (2021)- \$1,007,046
- Buell Water Main Replacement (2022) \$971,038- \$927,284
- Lead Service Replacement Phase 3B (2022-2023) \$1,129,654

The scope of work for the water main relocation projects was relocating existing backyard water mains to the road right of way and installing new water service lines via directional drilling to the greatest extent possible from the water main to the water meter. Interior residential water meters were also replaced when found to be an old model. This work was completed both for homes with basements and homes with slab foundations. Another significant scope of work item that Brandt was tasked with completing as part of these projects was project management. This included all communication and scheduling with the homeowners, obtaining signatures on project agreement forms and temporary easements, and all follow-up correspondence with homeowners. Brandt has also completed sanitary sewer point repairs within the City's collection system and replacement of water mains in the City's distribution system. All projects were completed on time and within budget.

I highly recommend Brandt Excavating, Inc. for construction of similar work. Over the past ten years I have found them to be extremely professional in their completion of the work and interaction with homeowners. I have received numerous compliments from homeowners regarding the interactions they have had with Brandt's project managers – Chris Ahearn and Chad Brandt. Brandt Excavating goes the extra mile to successfully complete these challenging projects. RE: Brandt Excavating Recommendation Letter

To Whom It May Concern:

I have had the pleasure of working with Brandt Excavating on approximately fifteen capital improvement projects over the last eight years. They are definitely on my list of preferred contractors due to their ability to be flexible, adapt to field conditions, their work ethic and always coming in under the contract amount. These projects have included water main, sanitary sewer, and storm sewer installation. Several of these projects were installed utilizing the directional drilling method which they can perform themselves. The value of these projects have ranged from \$80,000 to \$3,000,000. All water service replacements associated with these projects were installed via directional drilling. Additional detail on individual projects can be provided upon request.

The City has had five successive on call water service replacement projects for lead water services between 2018-current and Brandt Excavating has been the low bidder on all of them leading to the replacement of approximately 150-200 services annually between fall 2018-fall 2025 This contract addresses random services that have been exposed and/or disturbed or require immediate maintenance. The first two rounds of the replacement contract involved tapping the existing water main and directionally drilling a new copper service to the location of a new b-box. The City at the time did not replace the private side of the water service. The City revised their lead water service replacement policy in September 2021 and now all lead services are replaced from the water main to the water meter.

Brandt Excavating has demonstrated the capability to perform that service on larger projects. In addition to the on call replacement and capital improvements projects, Brandt Excavating is preparing to start the City's second replacement project utilizing an Illinois Environmental Protection Agency forgivable loan which is currently in the contract approval process. Brandt Excavating completed the first loan forgiveness \$4,600,000 contract which targeted services of critical facilities and previous partial replacements. The second \$3,300,000 contract will target the three highest ranking census tracts in the City.
