### **RE: T-Mobile proposed Alternative Tower at the West Aurora High School Football Field – Affidavit for co-location**

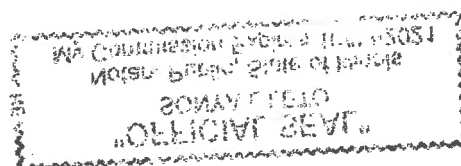

Aurora Planning Department,

This is in response to your March 1st letter reviewing our Special Use request. Page 3, Item 3 requests the following:

**Affidavit for co-location on new towers. For a new a tower and Site-Specific Location notarized statement by the applicant stating that space on the proposed tower will be made available to future users for co-location. If communication facility will not accommodate co-location of additional antennas for future users, the applicant shall submit an affidavit why.**

In order to maintain the stealth light pole design, the West Aurora School District prefers to design this site for T-Mobile only and offer the other three (3) light poles to future carriers who might approach us with similar requests and revenue potential. This will allow our proposed facility to have balance light poles all of similar height, versus one large thicker pole to hold multiple carriers, which might look more out of place. Other high schools have taken this approach including those in Westmont, Schaumburg and Hoffman Estates. It allows for a more symmetrical view.

In essence, while the District plans is amenable to collocation, we prefer it be achieved by balancing any future carrier use on the other three poles. A sample photo of Westmont High School is included below as an illustration of what collocation on multiple poles could look like.
