PETITION TO THE CITY OF AURORA PLANNING AND ZONING COMMISSION
FOR APPROVAL OF WHEATLAND CROSSING

THE UNDERSIGNED Petitioner, D.R. Horton, Inc. – Midwest (hereinafter the “**Petitioner**” or “**D.R. Horton**”), a California corporation, respectfully submits this Petition to the City of Aurora (the “**City**”) for approval of (i) Annexation to the City of Aurora pursuant to the terms of a mutually agreeable Annexation Agreement; (ii) a Preliminary Plan and Plat of Subdivision; (iii) a Rezone of the Property, in part to the R-2 (C) One Family Dwelling District, in part to the R-4A (C) Two-Family Dwelling District, in part to the OS-1 (C) Conservation, Open Space And Drainage District, and in part to the B-2 (C) Business District; (iv) a Special Use for a Planned Development; and (v) other relief from the City of Aurora Zoning Code as may be deemed necessary and appropriate to develop the property located at the southeast corner of US-34 and Farnsworth Avenue and consistent with the preliminary plans submitted herewith and pursuant to the appropriate provisions of the City of Aurora’s Municipal Code (hereinafter the “**Code**”).

The Owner of the property at question, being legally described on **Exhibit A** and depicted on **Exhibit B** (hereinafter the “**Property**”), is KEKA FARMS, LLC, an Illinois limited liability having an office at 6275 State Route 71, Oswego, Illinois 60543 (the “**Owner**”). Owner has separately filed a petition for annexation of the Property to the City of Aurora pursuant to the terms of a mutually agreeable annexation agreement. Owner has also submitted documentation authorizing Petitioner to seek the relief outlined in this Petition on behalf of the Owner.

Together with this Petition, Petitioner has submitted an application for approval of the

Wheatland Crossing Subdivision (“**Wheatland Crossing**”) as depicted on the General Land Use Plan attached hereto as **Exhibit C**. The General Land Use Plan contains four (4) distinct areas, each being legally described on **Exhibit D**: (a) **Parcel A** – consisting of traditional single-family detached residential homes to be zoned R-2 (C) One Family Dwelling District and depicted on **Exhibit C**; (b) **Parcel B** – consisting of single family attached townhomes to be zoned R-4A (C) Two-Family Dwelling District and depicted on **Exhibit C**; (c) **Parcel C** – consisting of three stormwater detention basins to be zoned OS-1 (C) Conservation, Open Space and Drainage District and being depicted on **Exhibit C**; and **Parcel D** – consisting of commercial lots to be zoned B-2 (C) Business District and depicted on **Exhibit C**.

BACKGROUND INFORMATION

1. Petitioner, D.R. Horton, Inc. – Midwest, a California corporation having an office at 1750 E. Golf Road, Suite 925, Schaumburg, Illinois 60173, is the contract purchaser of Parcel A, Parcel B, and Parcel C (collectively the “**Residential Parcel**”).

2. Owner will retain ownership of Parcel D or will convey ownership of the Commercial Parcel following the annexation and zoning of the Property as set forth in this Petition (the “**Commercial Parcel**”).

3. The Property consists of approximately fifty-seven (57) acres of farmland located at the southeast corner of US-34 and Farnsworth Avenue and is situated in both unincorporated Kane County (PIN# 15-36-400-032) and Kendall County (PIN# 03-01-127-006).

4. Petitioner seeks to annex the Property to the City of Aurora and redevelop the Residential Parcel with seventy (70) single family detached dwelling units and one hundred twenty-four (124) townhome units. Approximately four (4) acres at the immediate corner of US-

34 and Farnsworth Avenue will be reserved for future commercial development.

5. The Property currently supports a farming use, but the Village's Comprehensive Plan designates the Property's use for Commercial, Low Density Residential, and Conservation, Open Space, Recreation, and Drainage.

6. The Kane County portion of the Property is zoned F-Farming, while the Kendall County portion is zoned M2-SU Heavy Industrial – Special Use.

7. The existing land uses surrounding the Property are as follows:

- a. Northwest: Rush Copley Hospital – PDD; Kendall County Concrete – a portion of which is zoned F in Kane County and a portion of which is zoned M2 in Kendall County; and Aurora at Summerfield Apartments – R-5(S) in the City of Aurora;
- b. East: Four Pointes and Misty Creek subdivisions – PDD, R-1(S), and R-5(S) in the City of Aurora;
- c. Southwest: Heartland Bank and Trust – B-2-(S) in the City of Aurora; the Summerlin subdivision – R-1(S) in the City of Aurora; and the Deerbrook Place subdivision – R-5(S) in the City of Aurora;
- d. Middle: Prairie Materials concrete plant and the adjacent vacant parcel – a portion of which is zoned F in Kane County, and a portion of which is zoned M2 and M2-SU in Kendall County.

8. Petitioner has submitted the appropriate zoning applications together with this Petition for approval of the proposed Annexation to the City of Aurora pursuant to the terms of a mutually agreeable Annexation Agreement, approval of Preliminary Plan and Plat of Subdivision, a rezone of the Property to the R-2 (C) One Family Dwelling District, the R-4A (C) Two-Family Dwelling District, the OS-1 (C) Conservation, Open Space And Drainage District, and the B-2 (C) Business District – General Retail District, approval of a Special Use for a Planned Development, and other relief from the City of Aurora Zoning Code as may be deemed necessary and appropriate to develop the Property consistent with the preliminary plans submitted herewith.

QUALIFYING STATEMENT

Petitioner, D.R. Horton, was founded in 1978 and has been the largest home builder in the United States since 2002, with operations in 106 markets in 33 states across the United States. D.R. Horton builds and sells high-quality homes through a diverse portfolio, closing on nearly 82,000 homes over the previous fiscal year (2022). D.R. Horton is currently active in more than 35 communities around Chicagoland, closing on over 1,000 new homes in 2022. D.R. Horton brings decades of home construction and development experience to each project and has found success building communities that offer a variety of quality housing options designed to serve individuals at various stages of their lives. D.R. Horton looks forward to providing new housing options for existing residents of Aurora, as well as those that would like to live in a well-respected municipality with excellent schools, shopping, dining, recreation, and park facilities.

Petitioner seeks to develop the Residential Parcel within the Property as a mixed-use community with seventy (70) traditional detached single-family homes on approximately twenty-two (22) acres and one hundred twenty-four (124) townhomes on approximately seventeen (17) acres, with approximately thirteen (13) acres of open space reserved for three stormwater detention basins. The single-family homes, ranging in size from approximately 1,700 – 3,000 square feet, will be highlighted by attractive facades with two or three car garages, and will offer buyers 3 -5 bedrooms and 2 -3 bathrooms. Wheatland Crossing has been designed with lot sizes and setbacks commensurate with the established residential neighborhoods to the south (Summerlin and Deerbrook Place) and to the east (Misty Creek and Four Pointes). Further, based on D.R. Horton's experience in other communities in the area, the single-family homes in Wheatland Crossing will appeal to families seeking a modern floor plan combined with a manageable lot size. Specific buyer profiles will cover a broad gamut (first-time buyers, move-up buyers, single-head of

household, etc.). However, D.R. Horton anticipates buyers seeking to take advantage of a strong geographic location that offers quick access to employment and retail areas, combined with the amenities provided by the city of Aurora, as well as attendance within a strong school district.

The townhomes at Wheatland Crossing will offer a more low-maintenance living style than the single-family homes. Ranging in size from approximately 1,600 – 1,800 square feet, the townhomes still offer buyers up to 3-bedrooms and 2-car front-load garages. D.R. Horton is looking to build-on, and continue, the success of its Deerbrook Place community to the southwest, with similar product but more modern façades. Based on sales at Deerbrook Place, D.R. Horton expects a very similar buyer group – which has appealed to young families (kids soon or under 5), single professionals, dual-income households without kids, single parents, and those simply seeking new home-ownership on the east side of Aurora – but with a more manageable home size. Given its location and surrounding uses, the Property presents an excellent canvas on which to meet significant community needs by creating a housing opportunity that is suitable for many types of homebuyers.

In order to develop Wheatland Crossing, Petitioner respectfully requests the following variations:

- (i) A variation for a reduction in the required minimum lot area in the R-2 (C) District from 8,000 square feet to 7,500 square feet;
- (ii) A reduction in the front, rear, and side yard setbacks in the R-2 (C) One-Family Dwelling District to accommodate a front setback of twenty-five feet (25'), a rear yard setback of twenty-five (25') feet, and an interior side yard setback of six feet (6').
- (iii) A waiver from the Code's Minimum Lot Size requirements for the R-4A (C) Two-

Family Dwelling District.

- (iv) A waiver from the Code's Lot Coverage requirements for the R-4A (C) Two-Family Dwelling District.
- (v) A waiver from the Code's setback requirements for the R-4A (C) Two-Family Dwelling District to accommodate a building front to right-of-way setback of twenty-five feet (25'), a building side to right-of-way setback of twenty feet (20'), and a building rear to right-of-way of forty feet (40').
- (vi) A waiver from the Maximum Density requirements for the R-4A (C) Two-Family Dwelling District.

The variations requested herein are driven by: (i) the acute angles and unique shape of the Property; (ii) the surrounding uses and the desire to create a transitional use from the more intense commercial uses and residential subdivisions surrounding the Property; and (iii) the Property's adjacency to Hafenrichter Road and US-34 (Ogden Avenue).

First, given the acute angles and unique shape of the Property, a traditional "lot and block" subdivision layout was not possible, resulting in the need to reduce lot areas and setbacks on a small number of the lots. Second, sound land use planning dictates uses which create a transition from the more intense uses in close proximity to less intense/dense uses to create harmony among the differing uses. With Rush Copley Hospital across US-34 to the north, the townhomes have been strategically placed at the northern portion of the Property to provide a buffer between the hospital use and the proposed single-family homes to the south. These townhomes on the north end of the Property also feature a central park area. While the western most 4 acres of the Property at the corner of South Farnsworth Avenue and US-34 have been designated for commercial use, townhomes are likewise planned to the east of the proposed commercial development and west of

the single-family homes.

The Property is adjacent to the Prairie Materials concrete plant on the plant's north, east, and south sides. For this reason, Petitioner has strategically placed stormwater detention basins to the north and south of the plant to provide a buffer layer between this manufacturing use and the residential uses on the Property (Lot 102 and Lot 107). A third stormwater detention basin is also planned along the east property line (Lot 106). The stormwater management areas have been designed efficiently and are optimized to provide sufficient stormwater storage for Wheatland Crossing while simultaneously providing a buffer between the manufacturing use and proposed residential development. City sanitary sewer and potable water are available to the Property in the requisite capacity to serve the development.

In addition to the stormwater detention basins, significant landscaping is planned along the east side of the cement plant to provide an additional transitional buffer. Landscape treatments will also be utilized to enhance the visual appeal of the community, and will include a mix of ornamental trees, evergreen trees, deciduous shrubs, evergreen shrubs, and perennial and ornamental grasses. The landscape design enhancements will include decorative plantings around the on-site storm water management areas, foundation plantings, and appealing entrance monuments. Additionally, Wheatland Crossing will be enhanced with landscape buffers along the perimeter of the community to create the feel of a residential enclave.

Access to the southern portion of the site will be provided via full movement access roads off Hafenrichter Road and South Farnsworth Avenue, which access roads will be aligned opposite to Canyon Creek Drive and Summerlin Drive. The access roads will provide one inbound lane and one outbound lane and outbound movements will be under stop-sign control. Access to the north side of the Property will be available via a right-in-right-out from US-34, and additional

access via the east side of Wheatland Crossing will be provided by connection to Keating Drive. Sidewalks will be constructed throughout the development consistent with City requirements to encourage walkability and create a connected community. Moreover, Petitioner proposes to install a new 10-foot-wide multi-use path adjacent to the Property along the north side of Farnsworth Avenue and new sidewalk along the north side of Hafenrichter Road. Finally, Petitioner also intends to dedicate approximately seven thousand eight hundred (7,800) linear feet of new right-of-way to the City.

Approval of Wheatland Crossing will protect property values by removing uncertainty in the real estate marketplace by developing the Property which has historically been vacant and underutilized, increase Aurora's real estate tax base, support the adjacent commercial uses, and provide a much-needed new housing opportunity within Aurora.

STANDARDS

1. The Qualifying Statement shall provide information on how the proposal relates to the following standards:

a. The public health, safety, morals, comfort or general welfare.

It is essential to the public health, safety, morals, comfort and general welfare to provide diverse housing types and additional housing stock to accommodate the needs of Aurora's population. Not only does Wheatland Crossing satisfy these important objectives, but it is also directly in conformance with the City's vision for the Property. The Comprehensive Plan designates the Property Commercial, Low Density Residential (0-5 DUs / Acre), and Conservation, Open Space, Recreation, and Drainage. Wheatland Crossing improves the public health, safety, morals, comfort and general welfare by developing the Property as one hundred

twenty-two (124) front - load townhomes (Gross Density 5.64 DUs / Acre) and seventy (70) detached single family homes (Gross Density 2.45 DUs / Acre). Total gross density for the development, including the proposed commercial development, is 3.38 DUs / Acre. The proposed density is consistent with the Comprehensive Plan and the established residential character to the east (Misty Creek and Four Pointes residential subdivisions) and to the south (Summerlin and Deerbrook Place residential subdivisions). Lot sizes of the single-family detached lots will range from approximately 7,500 to 11,200 square feet. Lastly, Wheatland Crossing will improve the Property and create consistency and security by providing a transition between the commercial areas to the west and will not negatively impact the public health, safety, morals, comfort or general welfare.

b. The use and enjoyment of other property already established or permitted in the general area.

As stated above, the Property is adjacent to Summerlin and Deerbrook Place residential subdivisions to the south and Misty Creek and Four Pointes residential subdivisions to the east. Kendall County Concrete, the Aurora at Summerfield subdivision, and Rush Copley Medical Center are across US-34 to the northwest. Wheatland Crossing builds upon the established residential character of the neighborhoods to the east and south and Aurora's vision for the Property. By developing the Property consistent with the Comprehensive Plan, Petitioner seeks to preserve consistency of the established residential character of the neighborhood. Petitioner's development of the Property will remove uncertainty in the real estate marketplace and permit construction of high-quality, detached single family homes and townhomes by one of the nation's leading and most recognized home builders.

c. Property values within the neighborhood.

Petitioner's development of the Property will not be detrimental to the property values

within the neighborhood, nor will it alter the essential character of the neighborhood. Rather, Wheatland Crossing will preserve and increase property values by developing a property which has historically been vacant and underutilized. Wheatland Crossing is consistent with the Comprehensive Plan and the established residential neighborhoods to the south and east, and will eliminate uncertainty with development of the Property. In addition to removing uncertainty, the construction of new single-family homes and townhomes will enhance the real estate tax base and will be an overall improvement to the area.

d. The normal and orderly development and improvement of surrounding property for uses established or permitted within their respective existing zoning districts.

Petitioner's proposed plans include development of the Property as one hundred twenty-four (124) front-load townhomes and seventy (70) detached single family homes. Petitioner's proposed plans build upon the existing residential character and will promote compatibility between adjacent developments by introducing a complimentary development with an overall gross density of 3.38 dwelling units per acre. Wheatland Crossing will encourage the orderly development of the surrounding property by developing a historically vacant parcel with townhomes and detached single-family homes. The proposed use will spur development of the surrounding property, specifically the western 4 acres of the property designated for commercial use. Establishment of Wheatland Crossing, among other things, secures a quiet residential district compatible with the surrounding area and improves property values.

e. Utilities, access road, drainage and/or other necessary facilities.

Fox Metro Water Reclamation sanitary sewer and potable water are available to the Property in the requisite capacity to serve the development. As mentioned above, four access points will serve Wheatland Crossing. Keating Drive will connect Wheatland Crossing with Misty Creek and Four Pointes residential subdivisions to the east. Additional access points will be located

along US-34 to the north and Farnsworth Avenue and Hafenrichter Road to the south. Sidewalks will be constructed throughout the development consistent with City requirements to encourage walkability and create a connected community. A 10-foot-wide multi use path will be constructed adjacent to the Property along the north side of Farnsworth Avenue and a sidewalk will be installed along the north side of Hafenrichter Road. Lot 102, Lot 106, and Lot 107 have been designated for stormwater management areas to provide sufficient storage/drainage to the community.

f. Ingress and egress as it relates to traffic congestion in the public streets.

Ingress and egress shall be provided via Keating Drive to the east, US-34 to the north, and South Farnsworth Avenue and Hafenrichter Road to the south. All roadways have been designed consistent with Aurora's Subdivision Control Ordinance and City Code. Kenig, Lindgren, O'Hara, Aboona, Inc. (KLOA) performed a traffic study. Petitioner is committed to working with the City to address roadway improvements associated with its proposed development.

g. The applicable regulations of the zoning district in which the subject property is proposed to be or is located.

The Property is currently located in unincorporated Kendall and Kane Counties and is designated F-Farming and M2-SU Heavy Industrial – Special Use and is subject to the bulk regulations contained within the counties' zoning ordinances. Petitioner's proposed plans herein will comply with the City's applicable regulations for the R-2 (C) One Family Dwelling District, the R-4A (C) Two-Family Dwelling District, the OS-1 (C) Conservation, Open Space and Drainage District, and the B-2 (C) Business District – General Retail District, subject to those variations requested above.

WHEREFORE, by reason of the foregoing, the undersigned Petitioner requests approval of: (i) Annexation to the City of Aurora pursuant to the terms of a mutually agreeable Annexation

Agreement; (ii) a Preliminary Plan and Plat of Subdivision; (iii) a Rezone of the Property, in part to the R-2 (C) One Family Dwelling District, in part to the R-4A (C) Two-Family Dwelling District, in part to the OS-1 (C) Conservation, Open Space And Drainage District, and in part to the B-2 (C) Business District; (iv) a Special Use for a Planned Development; and (v) other relief from the City of Aurora Zoning Code as may be deemed necessary and appropriate to develop the Property consistent with the conceptual plans submitted herewith and pursuant to the appropriate provisions of the City of Aurora's Municipal Code.

RESPECTFULLY SUBMITTED this 11th day of May, 2023.
