Project Planning & Communication

Burke and our Authorized Representatives work closely with our customers before, during and after the sale to ensure that we provide solutions to their playground needs. The typical communications process is as follows:

- Begin with a fact finding session to understand the customer's needs.
- Prepare a playground design drawing using our propriety "EZ Design" software and review with the customer to obtain feedback and make any necessary adjustments.
- Create a detailed proposal with pricing and timeline for all products and services.
- Obtain a purchase order and submit the order to Burke via our on-line ordering system.
- Communicate the details of the order, including the scheduled ship date and location.
- Schedule installation date and coordinate with any other contractors (site preparation, etc.) as needed.
- Prior to shipment, Burke sends the customer a FREE Maintenance Kit. This kit includes a customized playground maintenance schedule and manual specifically designed for their play structure. The kit also includes touch-up paint to match the structure's colors, and graffiti remover – all packaged in a hard-sided case for long-lasting durability.
- Install equipment, surfacing and other ancillary products and perform final inspection.
- Follow-up with customer to ensure that they are completely satisfied.

Quality Assurance Procedures

Burke has been imagining, designing and creating custom Burke Built™ play systems for over 96 years. Our years of experience and professional expertise allow Burke to provide exceptional quality at an affordable price. Play systems may look similar from a distance, but up close there are quality details and safeguards on a Burke play system that others do not have. Burke play systems are built with the highest quality materials available, including high-strength steel and thick, double wall, rotationally molded plastics with UV-15 protection. TCPN can be confident that our play systems are Burke Built in our Fond du Lac, Wisconsin facility and backed by the Generations™ Warranty.

Burke is committed to the following principles:

- We will provide innovative and superior quality park, playground and recreation equipment to our customers by using materials and processes that minimize the creation of waste and pollution.
- We will ship products to our customers complete, correct and on time.
- We will provide excellent customer service before and after the sale to ensure complete customer satisfaction.

- We will train our employees so they can best serve our customers and conduct all facility activities in an environmentally sound manner.
- We will comply with or exceed all applicable environmental laws, regulations and other requirements to which we subscribe.
- We will consistently examine our processes and products to ensure the continual improvement of our Quality and Environmental Management System.

Burke's quality program consists of four parts:

- The President/CEO is ultimately responsible for the operation of the quality system. This position approves operating procedures, monitors the quality system for effectiveness, and delegates other quality program responsibilities.
- The Quality Manager is responsible for daily manufacturing quality and has the ability to quickly modify any manufacturing processes that do meet our quality standards.
- Our Engineering Team is responsible for designing quality parts and components. They ensure that Burke playground equipment meets, and is in compliance with, all applicable standards and regulations.
- The Quality Technician manages the document and record keeping portion of the quality system, tracking and maintaining the corrective/ preventative action portion of the quality system, scheduling and conducting internal audits, and regularly reporting on the status of the quality system.

Project Management Experience

BCI Burke and its Authorized Representatives coordinate and manage the installation of thousands of playgrounds each year. Our experience varies from small rural schools and parks to large municipalities such as the Chicago Park District, Culver City, CA Unified School District and Wichita, KS Public Schools. Whether a school district has an enrollment of nearly 700,000 or 7,000 students, Burke provides overarching customer service.

Burke's Authorized Representatives offer a full turn-key solution for TCPN customers and manage projects on a daily basis. Projects range from the most basic that include a small piece of playground equipment, to complete park projects, including playground equipment, surfacing, splash pads, pavilions, bleachers and other site amenities. Each firm distributes a wide variety of complementary products and services and has built strong relationships with local installers and contractors. Project changes are managed by effective communication between all contracted parties and is consistently handled effectively and efficiently.

TCPN customers are able to purchase non-Burke contracted products and services through our network of Authorized Representatives. Burke will provide line item quotations for these "open market" items on the TCPN quote, and will clearly indicate that these are "open market" goods and/or services. TCPN customers will be required to sign the quotation, which is an indication that they agree to the products and services as quoted.

The following are examples of the exemplary products and services our Representatives have provided to their customers. The first example is from the City of Kearny, Nebraska:

I am writing you this playground reference letter based on the positive experiences that I have had working with Julie Kutilek from Creative Sites. I have had the pleasure of working with Julie in two communities in Nebraska (Dakota City and Broken Bow) since 2014.

In August 2014, a major wind storm struck the City of Dakota City and a cottonwood tree crushed the playground structure in a major park. Through working with Julie and Creative Sites we were able to replace the structure by December 2014. We presented to the community an incredible themed playground that draws people from the entire Siouxland Area (South Sioux City, NE, Sioux City, IA, North Sioux City, SD, etc.) to Dakota City.

Now that I am with the City of Broken Bow we are working with Julie and Creative Sites on a playground in our Downtown Square which the center piece of our community. We went out for bids and Creative Sites was the low bidder as well as designed a custom structure just for our community. The structure and surfacing is anticipated to be installed by the end of August 2016.

I have thoroughly enjoyed working with Julie and Creative Sites over the years and I look forward to our continued positive relationship. She truly encompasses and far exceeds my expectations every step of the way when it comes to giving the communities an amazing product.

I appreciate you taking your time to review my positive reference of Julie and Creative Sites. Please feel free to contact me at any time for additional questions at (308) 870-2150 or via email at bclark@cityofbrokenbow.org.

City Administrator*

The next is from the City of West Covina, CA:

It is a pleasure to provide this letter of recommendation to Innovative Playground Company, LLC and BCI Burke Company.

The City of West Covina rehabilitated Del Norte Park utilizing Community Development Block Grant Funds. After meeting with Alvino Larios, President of Innovative Playgrounds, the City of West Covina knew the project would be a success. Alvino and his team prepared a top quality park design to meet the City's budget needs, provided an exceptional play space unique to our community and provided excellent customer service.

The Del Norte playground project was part of a total rehabilitation of the park that included a splash pad and dog park. After meeting with Innovative Playgrounds, the City of West Covina focused the new park features around Innovative Playground design. With the success of this park and BCI Burke's collection of playgrounds, the City of West Covina is looking to move away from having similar playground equipment at each park, and creating unique play spaces at each of our City parks. As a City, we are very excited about these new possibilities and appreciate Innovative Playgrounds assistance and product standards. In the six months that the playground has been open to families we have not had

any maintenance or installation issues. We are very happy with the quality product that we have purchased and look forward to installing more of their products in other parks.

I would highly recommend Innovative Playgrounds and BCI Burke products to any community looking to redesign and rehabilitate their aging parks. Please feel free to contact me if you have any questions at 626-939-8401.

*Chris Freeland
Deputy City Manager/Community Services Director*

These are just two examples of municipalities that have indicated their extreme satisfaction with projects that Burke and our Representatives have completed. More references are available in Tab 5.

Experience with Public Agencies & Landscape Architects

Burke and our Authorized Representatives are experienced in partnering with Public Agencies, City, County, State Parks and other agencies served by TCPN. An example of this is Cherry Hill School in New Lenox, IL. When Cherry Hill School changed its primary focus to students with varying abilities, many of the school's new student population used wheelchairs or walkers and were unable to comfortably use the existing playground. Further, there wasn't an inclusive playspace within the community that they could use. The team at Cherry Hill School, led by Principal Emily Schissler, saw this as the perfect opportunity to bring play to all children, enhance their learning and help to get them moving physically. The Cherry Hill school team understands the importance of play and the role it has in development of everything from physical to emotional to cognitive skills and, after products were chosen and designs completed, the focus turned to purchasing the playground in the simplest way possible and guaranteeing that the vision developed by the team at Cherry Hill School and Play Illinois wasn't compromised by having to send this project to bid and incur the added cost and paperwork. Cherry Hill School worked with BCI Burke and Burke's local Representative Play Illinois to purchase the new playground on the TCPN contract. Read the entire story as a Case Study in the attached documentation.

Working with landscape architects and designers is part of Burke's passion to bringing a higher level of play design to communities around the world. With a staff of playground designers of various backgrounds, we are equipped to provide the level of play design required. One example is a Case Study published in LASN in June of 2016. Here Burke partnered with our local Representative Child's Play, la terra studioSM and the customer to create a playspace that allowed children to learn outside of the traditional classroom while providing a beautifully designed, unique space that fit into the landscape perfectly and reflects a high level of attention to detail. Read the entire story as published in the attached documentation.

CHERRY HILL SCHOOL PLAYGROUND

Opportunity is defined as a set of circumstances that makes it possible to do something. For Cherry Hill School in New Lenox, IL, they defined opportunity as a new playground for the school and community where children of all abilities could play, develop and have fun together in a safe and comfortable environment.

The story begins when Cherry Hill School changed its primary focus to students with varying abilities. Many of the school's new student population used wheelchairs or walkers and were unable to comfortably use the playground. Further, there wasn't an inclusive playspace within the community that they could use. The team at Cherry Hill School, led by Principal Emily Schissler, saw this as the perfect opportunity to bring play to all children, enhance their learning and help to get them moving physically. The Cherry Hill school team understands the importance of play and the role it has in development of everything from physical to emotional to cognitive skills.

"Play outside helps develop motor skills and helps to get them moving so they are more focused in the classroom," said Robert Groos, Business Manager – Cherry Hill School. "Having a playground that brings all children together is important for all of their development," he added.

Working with Burke and Play Illinois, Burke's local Representative, Emily and her team selected playground equipment and surfacing that allowed all children to not only have equal access to the playspace but have full and equal participation in play. In addition to accommodating children with varying physical abilities, many play events such as spinning and swinging were incorporated into the design to create positive play experiences for autistic students.

After products were chosen and designs completed, the focus turned to purchasing the playground in the simplest way possible and guaranteeing that the vision developed by the team at Cherry Hill School and Play Illinois wasn't compromised by having to send this project to bid and incur the added cost and paperwork. Cherry Hill already used TCPN for other purchasing, so it was the natural choice to help them simplify their purchase process and still meet all legal bidding requirements.

"By using TCPN to purchase our playground, we were able to avoid having to send this project to bid, having to find comparables and not being able to select exactly what we want and need," said Groos. "Using TCPN is extremely easy and saves a considerable amount of time in the purchasing process. When it comes time to design and purchase another playground, we will use exactly the same model," he added.

Now the playground is in full use and the children and staff couldn't be happier.

"This has been my favorite project," said Groos. "It has been well received by everyone – the staff, the Board and, most importantly, the children."

The green polyethylene fiber safety surfacing, reminiscent of a fine blade fescue or blue grass lawn, is a play element for many of the children; they enjoy lying down and rolling about on the soft uniform surface. The surfacing is 100% recyclable, and backed by a shock and drainage pad. The toddler (left) is about to sound a bell. The light poles (Valmont) and fixtures ('NeoSphere' from Kim Lighting) were relocated from the previous playground. The playground fencing was constructed on site by a subcontractor.

The new trees bordering the playground are 'Natchez' crape myrtles, which are protected by 48"x72" cast iron tree grates (Ironsmith 'PaverGrate'). The curved leg and armrest benches have wood slats and ductile iron casting frames (Victor Stanley 'Framers Modern'). A two-foot brick wall along the north edge of the playground

Learning Outside the Traditional Classroom and Throw in Some Physical Development and Socialization Activities, Too

by Steve Kelly, LASN, and Sarah Lisiecki, BCI Burke

Some of their latest school playgrounds incorporate "learning outside the classroom," i.e., play elements that not only help youngsters in their physical development and social interaction, but allow them to experience making music, engage their tactile and auditory development, or even "enhance their cognitive planning and strategic thinking," as play sociologists are wont to say.

For the kids, of course, playground equipment is all about fun, even if the adults are trying to "trick" them into learning on the playground. Playground designers and planners have plenty of challenges. Selecting fun play structures is easy enough, depending on the budget, but they must take into consideration that some kids have significant physical limitations. Accessibility has been a key playground component for over a decade now, and only continues to grow in prominence. Then there's the consideration that some children aren't as adventurous as others, so it's important to have some equipment that isn't intimidating or that requires little physical effort to enjoy; other kids, of course, are rambunctious and

want to be physically challenged and play accordingly, so that level must also be met.

First United Methodist Church in Richardson, Texas Playground Design—la terra studio, Dallas

When Brad Moulton, ASLA, principal at la terra studio, a Dallas-based landscape architecture, urban design, and planning firm, learned about the expansion at First United Methodist Church in Richardson, Texas, he knew the project would hold a special place in his heart. Brad grew up in Richardson, a city located about 10 miles north of Dallas. He was a member of the church, and his two children attended the church's daycare, so it was exciting that the church was about to get a new, improved and larger play space as part of a \$20 million dollar expansion to meet the needs of the growing community and region.

First United Methodist Church (FUMCR) serves the north Dallas region, and has over 6,500 members, making it one of the largest Methodist Churches in the country. The church has an

Among the tactile elements on the playground is the 'Maze Panel.' The toddlers seem quite absorbed in following the circuitous route of their squirrel friend.

active youth program and offers a full daycare for ages 13 weeks to 5 years old, preschool classes through first year kindergarten, as well as more than 15 youth Sunday classes. Throughout the week, the church serves as a gathering space for multiple community programs that offer childcare, so the play space is rarely empty and needs to accommodate different ages and abilities without noticeably dividing the area.

As the design of the new building expansion was going to displace the current playground, a new on site location was identified. The existing playground equipment was only about 8 years old, and in good condition. It was donated to an organization that provides shelter to children and families. Child's Play, Inc., the local BCI Burke playground representative, donated their services to deconstruct the old playground, and install the new playground at its new location.

The goal of the playground project was to create a space for children ages 2-12 that could be used for a variety of purposes. The challenge for the team at la terra studio was to take learning and development outside and make it available to everyone. Ground-level play offers inclusiveness for children with mobility limitations. The artificial turf surfacing allows all children to be at the heart of

the action. The surface is actually a play element, as many children just enjoy lying down and rolling around on the soft uniform surface. Children learn best while they play, and la terra studio and the members at the church considered the importance of well-designed and developed spaces for kids to grow, move and create experiences that transcend out of the playground.

Attention to detail and a holistic view of the project created a play space that fits into the design of the overall campus. Areas in between the two playground pods provide circulation throughout the campus, as well as gathering areas for parents while the kids play.

The paving patterns throughout the areas were chosen to mimic the interior of the cross on the main stained glass window of the sanctuary, also used in many of the church logos and publications. A two-foot wall was built along the northern edge of the playground that provides an upper viewing area for parents and family to watch the activity. Six planter boxes built

along the walkway in the upper area are for educational programs about nature, plants and seasons. Other projects on the campus that enhance user experiences are a sculpture garden that contains a 18' tall bronze Jesus sculpture "Walk With Me" by artist James Muir. There is also a memorial garden with a columbarium that allows church members a place for cinerary urns. This peaceful garden is in the shadows of the church where they worshiped.

Overall, the children and all members love their new space and look forward to years of play, movement and development.

Sample Cost Model

Burke will prepare a TCPN quote clearly indicating the price for contracted Burke equipment, installation, surfacing and any other products and/or services included in the customer's project based on the approved price lists. Burke has submitted pricing for Burke equipment, Burke Turf and Burke Tiles surfacing, equipment and surfacing installation. Burke has also provided a volume discount structure based on the list price of the Burke equipment, with discounts available up to 15% off of the suggested list price.

Any non-contracted products and/or services will be clearly indicated on the quote as "open market" items. These items will be priced competitively based on the costs indicated by our Authorized Representatives. Our Authorized Representatives carry complementary lines to provide a turn-key solution for TCPN customers.

The size and shape of playground equipment varies greatly for each customized project. As a result, freight quotes are requested for each individual shipment and are based on the weight and dimensions of the Burke equipment and the zip code the product is shipping to. TCPN customers will be invoiced for the freight charges quoted to Burke by our various freight carriers with no added margin.

The quote will also include a playground equipment proposal pro which lists every component piece that will be included in their custom playground. This can be used to compare the component price against the published TCPN price list.

The government entity will receive an emailed invoice the day after their order ships from BCI Burke. Customer statements are sent every month.

PLAY THAT MOVES YOU™

Play moves us in a big way and Burke believes our exciting play environments will move you too! Physical movement is the most obvious type, but what about emotional movement that stems from the feeling of pride felt when watching a child accomplish something for the first time? We are moved by social situations when children of all abilities come together to enjoy the childhood staple of play. It moves us to create playgrounds that foster these scenarios and more. Come and move with us!

Physically

Burke's unique playgrounds feature a fusion of traditional and fitness-based play to get kids moving like never before. Kids get a great workout while having fun! Our combination of traditional and active play events create a space where children of all abilities can play together.

Cognitively

Research shows that play provides tremendous cognitive developmental benefits to children, including creativity, problem solving, abstract thinking and imagination. There's no such thing as too much of a good thing when it comes to play!

Socially

Play brings communities together and strengthens families and friendships. Burke's playgrounds provide amazing opportunities for kids to develop socially from playing independently at a young age, transitioning to parallel play and learning how to cooperatively play together as their development continues.

Emotionally

Creativity and imagination are powerful types of play and a great play environment stimulates these experiences. Burke offers a wide range of themed playgrounds and sensory play events.

Literally

Movement is essential to life and to play. Motion play creates movement for children of all abilities and assists with many developmental areas, including increased spatial awareness, inner ear stimulation and balance. Motion can be soothing to children with sensory processing differences and offers an interactive activity for everyone to enjoy.

BURKE'S HISTORY

John Edward was a farmer in Fond du Lac, WI and farmed the land the Burke company headquarters stands on today. In 1920, he incorporated a weather-stripping company that quickly expanded to include the design and production of designer radiator furniture. After receiving a request to fabricate a slide for a family friend, Burke entered the playground industry! Soon playground products were the company's main focus and they introduced Swing King, a residential line of play equipment.

When World War II began, Burke, like many companies, changed their focus to the war effort. J. E. Burke, always an inventor, devised a self-contained ammunition cart that could be parachuted to army personnel. The Parachute, as it was suitably named, was also used to deliver food and medical supplies. The company's dedication earned special recognition, and in 1943, the J.E. Burke Company was awarded an Excellence in War Production citation. Over the next 40 years, the Burke family grew the business and began to add interesting color and material combinations. In 1972, Burke invented the original Funnel Ball® that became a staple on playgrounds across the country.

In the late 1990's, Greg Burke, grandson of founder J.E. Burke, determined it was time to find a successor to lead the business into the 21st Century. Tim Ahern became the president/CEO of Burke in 1997 and remained until 2015 when Incline Equity Partners invested in Burke and Michael Phelan became the new president/CEO.

Burke remains committed to the original innovation, customer service and superior quality that sustained the company for generations. As we move into 2016 and beyond, we are bringing play to the next level with our focus on "Play That Moves You" and innovating products that move all of us in so many ways.

KoreKonnec[®] Direct-Bolt Clamp System: Nucleus and Voltage feature our Industry-leading KoreKonnec direct-bolt clamp system resulting in the strongest and most accurate connection system ever. Factory located connection points make for easy, precise installation and an error-free fit. Best of all, KoreKonnec is covered for 100 years under our non-prorated Generations Warranty.

Direct-Bolt Connection System: Intensity and Little Buddies feature Burke's trusted direct-bolt connection that uses a durable, straightforward direct-bolt system to ensure a trouble-free installation and provide the necessary strength to accommodate the demands of playing children. Like our KoreKonnec system, Direct-Bolt connections are covered for 100 years under our Generations Warranty.

EZKonnec[®] Deck Mounting System: Our exclusive self-leveling deck attachment and factory CNC construction allows for faster and more precise location of decks during installation. The 2-bolt per corner deck attachment increases overall structure strength and stability.

Platforms: Burke's oversized non-slip platforms are constructed of heavy-duty punched steel that can support more than two tons. Our vinyl coating is California compliant, free of lead and other hazardous heavy metals.

Tamper-Resistant Stainless Steel Hardware: All hardware is covered for 100 years under our Generations Warranty.

Premium Powder Coatings: Our industry-leading powder coatings and finishes prevent fading, last longer and deter rust. We also offer a "coastal package" powder coat system. This special powder coat system for metal components and upright posts will provide additional corrosion and chemical protection along with added longevity to the color and gloss retention of the powder coated parts. Contact your Burke Representative for more information on colors, price and warranty.

Compound Plastics with UV-15: You'll get long wear and bright, vibrant colors that hold up for years thanks to our thick, durable rotomolded plastics with UV-15 protection. This is why we can cover them for 15 years under our non-prorated Generations Warranty.

Climbing Cables: Our climbing cables are flexible enough to provide movement, yet strong enough to last. Our ropes are made from six polyester cords with steel reinforcement wrapped around a synthetic fiber core. Each cord contains eight galvanized steel strands tightly covered with polyester multi-fibers. Our RopeVenture cables consist of six strands, each containing 24 stainless steel reinforcing strands within a nylon sleeve, wrapped around a solid nylon core.

Aluminum Connectors: Swivel connectors at the end of our ropes allow assembly at any angle with no unwanted twists in the net. The aluminum fittings used to secure the joints are swaged in place to prevent any movement between the rope and fittings that could cause wear.

TESTIMONIALS

"Service, Safety, Quality. Three words I would use to describe the people, business model, and overall organizational standards that inspires the BCI Burke Company. Every organization has a unique set of challenges and goals when it comes to building an educational environment - and from our experience, BCI Burke came to the table ready to work with us as partners to meet those challenges and goals head on.

We chose to work with BCI Burke because we needed a reliable company that would be able to provide nothing less than the highest quality product with our own time limitations. As with most other businesses, we did not have the luxury of making an investment into a project of this magnitude and not feel 100% certain that we had gotten the very best of our dollar. We also had to assure our stakeholders that we would see that investment last the test of time.

BCI Burke offered us superb and consistent customer service, the ability to achieve our goal on a fast timetable, and the confidence that our playground is genuinely the very best in design and safety. This is something that we will showcase in our school for many years to come.

After working with the company, I know personally they are committed to go the extra mile to satisfy your needs. BCI Burke is a master in their field but also provide the customer with an intuitive understanding of service".

"I am writing to tell you how much I enjoyed and appreciated working with your local representative...Through the years, I have worked with a number of playground companies, but never with anyone with the professionalism, commitment and follow-through of (your Burke Rep). We are all so excited about our children having the opportunity to play on your wonderful equipment; of course, we want everything! We are so impressed with the many, many possible designs. Thank you for the quality of your equipment and your local representatives."

WHAT YOU NEED TO DO

You are responsible for receiving, unloading and storing the equipment when it arrives at your site. Be sure that you completely familiarize yourself with the following information so that you will be well prepared for that day.

1. Preparing for Delivery

- Determine how many people will be needed to unload and store your equipment.
- Select a secure storage site and be sure there is adequate room and security to protect your shipment.
- Arrange to have a forklift at the delivery site.
- Assemble your receiving team and review the receiving procedures.

2. Checking in the Shipment

- Check each shipping label against the Bill of Lading.
- Verify that the address and P.O. numbers are correct and that there are the right number of pieces.
- Shortages **MUST** be clearly noted on the delivery receipt in order to file a claim.

3. Inspecting for Damage

- Inspect the shipment for visible damage.
- Make detailed notes of all damage on the delivery receipt.
- **DO NOT** sign for the shipment until this step has been completed.
- Contact your Burke Representative to file a claim.

4. Unloading and Storage

- After all visible damage has been noted on the delivery receipt, you can sign for the shipment and begin to unload it.
- **SAVE ALL** of your paperwork for future reference in case concealed damage or missing items are discovered later.
- Unload the freight using the forklift if you have one. If you do not have a forklift, you'll need to open the pallets and unload them individually.

PLEASE NOTE: The equipment should be unloaded with forklift or other unloading equipment as the freight is heavy. Extended forks may be needed for oversized pallets.

FREQUENTLY ASKED QUESTIONS

How Many People Will be Needed To Unload My Shipment?

It's important to know that the freight carrier is not responsible for unloading your shipment. **YOU** are responsible for checking in and unloading the shipment. Unloading a standard size play system usually requires about 4 to 5 people. You'll want to adjust accordingly for larger or smaller systems.

What Type of Equipment Will I Need? Play structures are generally shipped on pallets or in crates, which can weigh as much as 1800 to 2000 pounds. If possible, arrange to have a forklift available on-site the day you expect delivery. If you can't get a forklift, be prepared to unload the pieces individually. Remember that unloading by hand will generally require more people.

Where Should My Play System Be Stored While Waiting For The Installation? It's best to store your shipment in an outbuilding or area near the installation site that can be kept locked. If there isn't a secure area near your installation site, off-site storage is recommended to hold your shipment until you're ready for the installers. Call your Burke representative to confirm the installation date, so you can coordinate delivery to the site.

When Do I Inspect for Damage Inside the Shipment? Generally, you aren't allowed to open packages prior to signing for the freight; however, if the condition of the packaging leads you to suspect internal damage, then we encourage you to inspect the inside of the package. Beyond that, you'll want to check your shipment for concealed damage when it is checked in at installation time.

What If I Find Damaged Parts Later? Typically, any concealed damage will not be found until you check items in preparation for installation. Damaged or missing items discovered after delivery should be reported to your Burke representative promptly, so they can process the appropriate claims. You should hold the shipping container and freight documents until the matter is resolved.

Important: You will be charged for replacements of any missing or damaged parts if you don't note them on the delivery receipt and file a claim.

PLAY MOVES US in a big way and is inherent in our culture at Burke. We are constantly studying play and evolving our products, pushing ourselves to be better, all to bring a higher level of play to the communities we serve. Join the movement and see how play can move you!

Americans with Disabilities Act Accessibility Guidelines Certification

The Department of Justice published revised regulations for Titles II and III of the American with Disabilities Act of 1990 "ADA" in the *Federal Register* on September 15, 2010. These regulations adopted revised, enforceable accessibility standards called the 2010 ADA Standards for Accessible Design "2010 Standards" or "Standards". The 2010 Standards set minimum requirements – both scoping and technical – for newly designed and constructed or altered State and local government facilities, public accommodations, and commercial facilities to be readily accessible to and usable by individuals with disabilities. Compliance with these standards is required after March 15, 2012.

Definitions:

A "composite play structure" is defined as two or more play components attached or functionally linked to create an integrated unit that provides more than one play activity.

An "elevated play component" is defined as a play component that is part of a composite play structure and approached above or below grade. A stand alone slide for example, would not be considered an elevated play component since it is not part of a composite play structure and is not approached above or below grade.

A "ground level play component" is a play component that is approached and exited at the ground level. Stand alone slides, balance beams, swings, and spring rockers are examples of ground level play components. Although portions of a ground level play component may be elevated, the key statement of this definition is that the play component (slide, balance beam, swing, or a spring rocker) is approached and exited at the ground level.

To the best of Burke's understanding and interpretation, the following information demonstrates compliance with the 2010 ADA Standards for Accessible Design as published in the Federal Register September 15th, 2010.

Proposed Burke Composite Play Structure 119-90520-6

Number of Elevated Play Component 0

Number of Elevated Components Accessible by Ramp: Min. Required 0 Provided 0

Number of Elevated Components Accessible by Transfer System: Required 0 Provided 0
(not accessible by ramp)

Number of Ground Level Play Components: Required 0 Provided 15

Additional Ground Level Play Components Provide by Purchaser Required 0

It is the responsibility of the purchaser to assure that the required ground level play components are accessible as defined by sections 16.1.3 Accessible Routes, 16.1.6 Accessible Surfaces and the Accessibility requirements of 16.1.5. If existing ground level play components are in the play area, the owner/operator must insure that at least one of each type shall be accessible (section 16.1.5).

Third Party Relationships

1. Please describe the quality program(s) within your company and the program which measures your service work.

BCI Burke is both ISO 9001:2008 and ISO 14001:2004 Certified and has been for many years. These Standards help guide us in not only our daily Quality Policies and Procedures, but also our Environmental awareness and sustaining of the world around us.

In addition to the ISO 9001:2008 Certification, Burke is also IPEMA Certified by TUV and ensures products meet the applicable ASTM Standards for our play equipment and surfacing products. In fact, Burke's Engineering and Product Development Manager, Scott Liebelt, is the current President of IPEMA. He attends ASTM and IPEMA meetings to participate in writing, revising and interpreting the IPEMA procedures and ASTM-1487 standard, which is the consumer safety performance specification for playground equipment for public use. There are numerous quality inspections we do daily and weekly throughout our process, including receiving, in-process and completed product. Burke will also inspect product at our suppliers as necessary and has an in-depth supplier monitoring system that tracks on-time and quality percentages. These are compiled quarterly and shared with the suppliers for continued improvement of their processes and products. In addition, we hold quarterly supplier service and warranty meetings with Production Control, Quality and our President and CFO to monitor progress to objectives and issue Corrective Actions as needed within our Quality system.

Feedback is important to Burke. We monitor our service and satisfaction levels with our customers. An e-mailed satisfaction survey is sent to customers to get their feedback on the following topics:

- Product arriving in good condition and installing easily;
- Quality and appearance of the product meeting or exceeding their expectations;
- The selection of products being adequate to fulfill their needs.

Each of these items has consistently scored 4.6 - 4.75 on a scale of 1-5, with 5 being Excellent! We also ask for any specific comments from the customer so that we can ensure they are fully satisfied. Customer Service is structured at Burke so that all calls come directly to them, and not through an answering system. Time off for them is even staggered so that a person is always available to talk when a customer calls for assistance. Our priority is to help all customers in a timely manner and get them the information they need.

2. Describe your expectations of your subcontractors for installation and repairs. How does your company verify these expectations are being met?

The Corporate Sales team at BCI Burke has established expectations of its subcontractors for installation and repairs. Expectations are spelled out in our

Subcontractor Agreement which is attached for your review. Current required documents from our subcontractors, supporting our Agreement, are kept in house.

The relationship with our Sales Representatives is based upon a model that consists of shared goals and objectives, mutual dependence, open lines of communication, mutual commitment to customer satisfaction, concerns for others profitability, and trust. Each of these items overlaps the next and must remain in proportional balance in order for Burke and our Representatives to be successful. Burke realizes that our Representatives are also our customer and to maintain our model of a successful relationship, professional respect, continuous improvement initiatives, and investment of effort by top management are a necessity. Burke recognizes and strives to support our Representative's efforts with timely responses and open lines of communication, and in the end, this allows Burke and our Representatives to offer superior customer service to our mutual customers.

Burke supports the installers based upon the same model established for our Representative relationships. We realize providing equipment that goes together the first time is second only to complete, correct and on-time. We support our installers by evaluating the feedback they offer us and implementing any necessary changes to ensure Burke product is easy and fun to install. Burke conducts a semi-annual Installer Satisfaction Survey to ensure that we are servicing the installers to best of our abilities and meeting their expectations. Burke consistently ranks as "exceptional" when compared to other competitors by installers that provide installations for Burke and other manufacturers. Easy to read install prints coupled with industry leading dependability, as measured by providing orders complete, correct and on-time, make Burke playgrounds a favorite among industry installers.

Burke also conducts installer training in coordination with The National Playground Contractors Association (NPCAI) at our factory in Wisconsin. During this training, installers have the opportunity to view the production, shipping and testing areas as well as have round-table discussions with key Burke and NPCAI staff. This event allows Burke and installers to share experiences and successes from the field that helps Burke's continuous improvement initiatives.

Burke expects the same commitment to excellence from its Representatives and installers as it does from itself. Burke has established a set of core values that are considered every day, with every decision and on every project. These core values; Integrity, Respect for People, Teamwork, Innovation, Leadership and Performance are embraced through every branch of the Burke organization and are embraced by our Representatives and installers.

3. Describe how your company tracks completion of repairs and what information is required to be submitted by the service center prior to payment.

Our Representatives are required to submit a Problem Report Form (attached for your reference) for any orders/shipments with: missing and incorrect parts, freight damage or

warranty issues. The problem report is processed and documented under the original order number. Replacement parts (if needed) are shipped to the address listed on the problem report. In certain situations, additional costs may arise due to a mistake with a shipment. The selling Representative firm needs to contact Burke letting us know of the problem and if needed, can submit a credit/back charge request form for reimbursement of mileage and labor costs.

4. Describe your company's post-installation and warranty support

When possible, the selling Representative firm will make a site visit to confirm the items were installed correctly. As long as our components are installed per our installation instructions, they are covered under warranty regardless of who does the installation. Pictures are sometimes requested to verify and document the warranty failure. Our warranty covers the cost of the parts and cost of shipping the items to the installer/customer. The standard lead time for most warranty replacement parts is two to three days. Some replacement parts will ship out the same day we process the paperwork. Longer lead times can occur if the part needs to be powder coated, or manufactured. Replacement parts are covered under the warranty in effect at the time of shipment. In certain situations, Burke may request the damaged part(s) to be returned for inspection or testing. Burke will issue a call tag and have the parts shipped back at our expense. A customer with a part in the field will have priority in receiving a replacement part before the same part is used to complete the shipment of a new play structure purchase order. If/when needed, Burke can ship items next day air or truck freight expedited.

5. Provide the procedure on how your company determines the system design.

Each playspace is unique and we design each one with the customer in mind. We start with gathering information, from the customer's vision, the age group and ability of the user, the natural setting, neighborhood, site and budget. Then we categorize the designs based on the specialties of the designers and the complexity and needs of the project. Finally, we proceed to the design phase and collaborate with the team on the design taking it from concept to final design, 3D renders and construction documents.

6. Describe what project scheduling tools your company use to track projects during construction

Project Management is handled both by Burke and our Authorized Representatives. Each Representative Firm uses their own project management system and method to track projects during construction. The majority of our Representatives utilize QuickBooks for their purchase orders and many use large wall calendars along with Outlook to schedule and track installations.

7. How does your company make the proper equipment selection on a turnkey project?

Burke's Representative Firms either have their own installation crews or sub-contract with installers. The installers are very familiar with Burke equipment, surfacing and other

complementary products which our Representatives carry and they determine what equipment is needed to ensure a satisfactory installation process.

8. Describe your company's performance maintenance system on turnkey projects.

Prior to shipment Burke sends the customer a FREE Maintenance Kit. This kit includes a customized playground maintenance schedule and manual specifically designed for their play structure. The kit also includes touch-up paint to match the structure's colors, and graffiti remover – all packaged in a hard-sided case for long-lasting durability. Each project concludes with a final safety check of the Burke equipment, surfacing and all other products to ensure everything has been installed to the manufacturer's specifications and meets all safety standards. The Representative firm holds a strong relationship with each customer and meets with them to make sure everything is to their standards. Burke's Generations Warranty covers the Burke product and our Customer Service Department handles any warranty related claims.

9. Describe how your company handles site development and project permitting process.

Our Representative Firms and their contractors and designers determine which, if any, permits are needed for each specific project.

10. What is your company's design approach and philosophy for a turnkey project?

Our design philosophy implies understanding the project in a holistic way. This requires focus in two areas:

- Understanding the neighborhood, school or community and the role that the play environment will play within that space is essential to designing an area that becomes a reference and gathering point for people of all ages and abilities.
- Promoting healthy habit and development for the users.

We apply this philosophy to every project; from concept design to construction documents. Our goal is to provide a turnkey service in collaboration with our amazing team.

11. Describe your company's shipping schedule notification procedures.

Shipping lead times vary according to the product. If a custom play structure is ordered, the standard shipping time is 4 weeks. Other freestanding and site amenities will ship within 2-3 weeks. When an order has been processed, the customer will receive a copy of the Order Acknowledgement, which will show an Estimated Shipping Date. Our Shipping Schedule is distributed weekly to our Representatives, who are responsible

for communicating with the customer. The internal schedule is updated daily with the incoming orders for each day. Please find a sample of our Shipping Schedule attached.

12. Describe how your company deals with shipping delays. How do you notify your customer of delays?

If an order does not ship as scheduled, the customer and/or Representative is contacted immediately and informed that the order was unable to ship. They will then be given a new date of shipment.

13. How many products do you stock? Where?

The overall goal of Burke's inventory plan is to be able to service customer needs as quickly as possible. At a minimum, we keep inventory of one color of each plastic part. For steel /aluminum parts or climbers, Burke builds parts to stock and paints based on need. The painting process is completed at our Fond du Lac, WI manufacturing facility and allows for faster lead times as we can paint parts to order on-site and prioritize service orders. We use local suppliers as much as possible to enhance lead times and build stronger relationships that allow us to better serve our customers. Burke stocks all inventory locally in Fond du Lac, WI.

14. What is your percentage of on-time delivery?

Burke achieved a total on-time delivery of 98.5% in 2016 across thousands of shipments.

15. Indicate who will be providing technical assistance including their title, telephone number, fax number, and e-mail address. Include resume.

If a customer requires technical assistance, they may contact Scott Liebelt, our Engineering and Product Development Manager. Scott serves as the current IPEMA President and attends ASTM and IPEMA meetings to participate in writing, revising and interpreting the IPEMA procedures and ASTM-1487 standard, which is the consumer safety performance specification for playground equipment for public use. Scott's resume can be found in Tab 3 and his contact information is as follows:

Scott Liebelt

Engineering & Product Development Manager

Phone: 920-933-6692

Fax: 920-921-9566

Email: sliebelt@bciburke.com

16. Provide evidence of your company's ability to shorten the time frame between receiving a service call to problem solution. What does your company do to expedite quotes to the government entity and track completion from the service centers?

We have one service and parts center with two full time technicians. The hours of operation are 7:00am-5:00pm Central Time. After-hour phone calls are recorded and returned / answered the following business day. Additionally, our Representatives have access to our website 24/7. This website offers our Representatives a large amount of information they can access before, during or after our normal hours of operation.

Burke has a toll free Customer Service telephone number available for customers to call the factory direct. Our Customer Service staff has the ability to process requests almost immediately and we can ship service parts the same day in many cases, including Next Day Air service if the situation requires it. Customer Service requests are forwarded directly to the Production Manager and their staff for immediate processing.

17. How does your company track warranties and update equipment lists/warranty periods as units or components are replaced?

Each order/shipment is identified with a job name and order number. When a part is replaced under warranty, the Representative firm submits a problem report referencing the job name and original order number. The problem report contains a list of the required parts and an explanation of what happened. Pictures of the warranted items are usually included with the problem report. The problem report is processed and documented electronically under the original job name and order number. A hard copy of the problem report is also included in the original order's paper file.

When a problem report is submitted Burke's Customer Service staff will review documentation from above to determine the warranty period of the of parts or components needing replacement.

18. How does your company work to continuously improve the services that you provide?

Continuous improvement is important for Burke and we approach it in many different ways.

Training: Burke invests in relevant training to better serve our customers and help our employees grow. From CPSI (Certified Playground Safety Inspector) for members of the Burke Design Team to Social Media training for Burke Marketing, Burke supports employees and customers with continuous improvement in training.

Manufacturing: Employee involvement is extremely important for Burke's continuous improvement process. Open suggestion sheets, with cash incentives for process improvement and cost savings ideas, helps involve everyone in process improvement.

Burke also develops plans using interdepartmental teams for areas where we identify opportunities for improvement. We post weekly efficiency goals and communicate openly with employees on goal vs. actual, celebrating successes along the way.

Lean: As a manufacturer, being lean is important to us. We use 6S type (typically referred to as 5S, but we add the 6th S for Safety) events for organizational efficiency gains for various departments.

Feedback: Who better to help us improve than the customers and communities we serve? We reach out to our customers through surveys and customer service and seek their feedback. We compile it and use it to address areas of opportunity and share with them how we've addressed it.

Organizational Involvement: From industry involvement in the National Park and Recreation (NRPA) and American Society of Landscape Architects (ASLA) to community involvement in Girls on the Run and Boys & Girls Club of Fond du Lac, Burke learns and improves through our involvement with organizations that share our passion for play and kids of all abilities.

**19. What is the policy on replacement parts and costs associated with them?
What is the standard lead time for replacement parts and what warranty do they carry?**

Pricing for replacement parts is available on the Price List located in Appendix C. The standard lead time for replacement parts can vary from 5 business days to 3-4 weeks, depending on product availability. Replacement parts all carry Burke's Generations Warranty.

2. Brief history of your company, including the year it was established.

For more than 96 years, Burke has been designing and manufacturing the industry's best playgrounds. Since the weather-stripping company in 1920 that quickly expanded to focus on playground products, Burke always maintained a reputation for quality products and superior customer service. Some notable events include aiding in the war effort during the 1940s, adding color and inventing the Funnel Ball in the 1960s and 1970s, respectively, and in the 1980s and 1990s introducing both modular play and play for early childhood. In 2016, Burke launched Play That Moves You and is taking an approach of even more innovation, inclusivity and research to support product and playground design.

Our mission at Burke is simple: To bring Play That Moves You to communities around the world. Our purpose each and every day is to create quality and innovative playground equipment that inspires us to move. We do this with a culture that is focused on outcomes where everyone wins – the Company, our Employees, our Representatives, our Partners, our Customers and the Community. It's what we focus on every day.

5. List the total number of sales persons employed by your organization within the United States, broken down by market.

Burke employs five Regional Sales Managers (RSM) who assist our Authorized Representative firms and customers in a variety of ways. Each RSM is assigned a territory within the United States and Canada (Northeast, Southeast, South Central, Western and Midwest). The RSMs assist our Representative Firms by joining them in customer visits, lunch & learns, tradeshow, territory development, training and recruiting. The RSMs report directly to Michael Phelan, Burke's President/CEO. Burke's Sales Support and Marketing Departments provide continuous support to the RSMs and Representatives. This model has proven to be very effective for Burke and demonstrates our commitment to fully support our Representative firms and our customers.

Burke RSMs also handle Burke Direct sales into areas that are not currently covered by a contracted Representative firm. RSMs work closely with Burke Sales Support Staff to ensure awesome Burke designs, timely submission of proposals and quotes, order placement, order delivery, equipment installation and service.

6. **List the number and location of offices, or service centers for all states being bid in solicitation. Additionally, list the names of key contacts at each location with title, address, phone and email address.**

Burke has twenty six contracted US and Canadian Representative firms that employ outside and inside sales representatives and administrative staff. The Representative firms are responsible for servicing all markets within their contracted territory. The Representative firms are independent entities that contract with Burke to sell Burke products within their specific territory.

The Burke team is here to help before, during and after the sale. From initial design through final installation, Burke works closely with its Representatives and directly with government entities to make sure all the pieces come together. Our focus is not just about Play that Moves Us today; it is about building a relationship with TCPN and customers for years to come.

Please see the enclosed Representative Territory map and associated spreadsheet to identify coverage of Burke products and services throughout the United States. Having solid relationships with our Representatives is critical for Burke; in fact it is these very relationships that set Burke apart in the industry from other manufacturers. Bottom line is that the customer needs to be taken care of in a timely manner, and that is what Burke and our Representatives do. It may sound like a simple concept, but it is not common in our industry.

The relationship with our Representatives is based upon a model that consists of shared goals and objectives, mutual dependence, open lines of communication, mutual commitment to customer satisfaction, concerns for mutual profitability, and trust. Each of these items overlaps the next and must remain in proportional balance in order for Burke and our Representatives to be successful. Burke realizes that the Representative is also our customer and to maintain our model of successful factory/rep relationship professional respect, continuous improvement initiatives, and investment of effort by top management are a necessity. Burke recognizes and strives to support our Representative firms' efforts by timely responses and open lines of communication, and in the end this allows Burke and our Representatives to offer superior customer service to the end customer.

9. **Who is your competition in the marketplace?**

The playground industry continues to grow as new companies enter the commercial market. That being said, we have found that we often are competing with several manufacturers, including:

- GameTime
- Play and Park Structures
- Little Tikes Commercial
- Miracle Recreation
- Landscape Structures
- Playworld Systems
- PlayKraft

10. **Overall annual sales for the last three (3) years, 2013, 2014, 2015**

Burke is a leader in the playground industry and is considered a mid-sized company employing 75-100 employees. The sales indicated below represent net Burke equipment sales and do not include installation, other complementary product lines or services or sales through our Representative Firms.

11. **Overall public sector sales, excluding Federal Government, for the last (3) years: 2013, 2014, 2015**

12. What is your strategy to increase market share?

BCI Burke sells its products through 3rd party manufacturers' Representatives. Our strategy to increase market share is to help our current Representatives grow their businesses as well as add new Representative firms in territories where Burke is currently unrepresented. Burke helps its current distribution by providing industry leading design materials and sales support as well as increased marketing and promotions in targeted areas. Burke is regularly looking to add new Representative firms in territories or regions where Burke currently does not have any presence.

If we are awarded a new TCPN Contract, we will continue to work with TCPN Regional Managers and their Marketing Team to promote both Burke and TCPN. Examples of previous joint campaigns where we introduced the Burke/TCPN partnership were in Illinois, New York, Florida and Texas. Here we used various cobranded marketing initiatives, including email blasts, postcards and case studies to promote the benefits of the TCPN contract and the successes our joint customers experienced.

13. What differentiates your company from competitors?

Since 1920, Burke has been known for maintaining the highest quality standards and backing our products with superior service. This combination of quality and service ensures our customer the lowest possible total cost of ownership. Burke playgrounds provide the best value for a dollar – today and long into the future.

Therefore, we feel we differentiate ourselves from the competition in several key areas:

Warranty

Others may say they have the best warranty, but when you read the fine print, it's clear that our Generations Warranty stands alone. That's because it's based on a simple principle: we don't think a product failure should cost the customer anything. That's why it's non-prorated. If a post fails in less than 100 years, we'll still replace it at no cost. Here are the highlights:

- 100 years on posts, hardware, and direct-bolt fastening systems
- 25 years on spring assemblies and aluminum cast animals
- 15 years on platforms, decks, metal roofs, Rotationally Molded Plastics, and borders

Burke's industry-leading warranty protects the initial investment and limited maintenance budgets that are a reality long after the excitement of the initial purchase. Schools and government entities will have peace of mind by knowing that the playground equipment has a warranty that won't drain maintenance funds in the coming years. Our warranty is not prorated and replacement parts covered under that warranty will have their own

appropriate, full-length warranty instead of being restricted to the balance of the original warranty period which is based on the date it was shipped by the manufacturer. Furthermore, all parts covered under Burke's warranty are shipped free of charge.

Customized Maintenance Kit

Every Burke modular playground comes with a free maintenance kit including touch-up paint matching the playground colors, graffiti remover, a maintenance schedule and a manual specifically for each playground.

NPPS Safety Kit

A free NPPS (National Program for Playground Safety) Supervision Safety Kit is provided with the purchase of each Burke modular playground structure. Over 40% of all playground injuries are related to poor (or lack of) supervision. This kit, developed by the National Program for Playground Safety through grant monies from the CDC to the University of Iowa, is a great training tool for school playground supervisors and for those who are responsible for supervising summer recreations programs. Many of our customers have found this kit to be an excellent tool for in-service training programs and as documentation for their risk-management initiatives. Consideration could be given to conducting Supervision Safety seminars at appropriate time slots during the build day.

14. **Describe the capabilities and functionality of your firm's on-line catalog/ordering website.**

Clients and perspective customers can view products and structures using Zmags platform which features 200 pages of photos and interactive links with video, stories, and other helpful information. When ready to start customizing their product or structure, our Representative firms step in to help through the order process.

Burke offers an internet based ordering system for our Representative firms only. It is entirely self-developed and self-managed by our in-house IT and Order Entry departments. Direct customers do not have access to this system for placing orders, however our Representative firms and sales staff are ready to assist customers through the order process and help to customize their orders for them.

15. **Describe your company's Customer Service Department (hours of operation, number of service centers, etc.).**

We have one service and parts center with two full time technicians. The hours of operation are 7:00am-5:00pm Central Time. After-hour phone calls are recorded and are returned / answered the following business day. Additionally, our Representatives have access to our website 24/7. This website offers our Representatives a large amount of information they can access before, during or after our normal hours of operation.

Burke has a toll free Customer Service telephone number available for customers to call direct. Burke Customer Service staff is arranged to provide a person to talk to when a need arises. Incoming calls go directly to a real-live person, not an answering system. Staff also stagger their breaks, lunches and vacations to ensure someone is always available for calls during normal business hours. Our Customer Service staff has the ability to process requests immediately and we can service parts the same day in many cases, including Next Day Air service if the situation requires it. They have the availability to see stock status of parts to ensure promises made to customers on ship dates are met. Their requests (via information from the customer) are forwarded directly to the Production Manager and staff for immediate processing.

Burke is committed to providing superior customer service. Not only do we evaluate our processes internally, we regularly send Customer Satisfaction Surveys to recent order recipients. We request feedback on quality, appearance, and the ease of installation. The survey also requests input on our selection of products, service provided by our Sales Representatives, and suggestion for improvement. These responses are then documented and reviewed by our Management, Quality and Customer Service departments. This data is used to evaluate opportunities for continual improvement of system effectiveness and customer satisfaction.

16. Provide information regarding whether your firm, either presently or in the past, has been involved in any litigation, bankruptcy or reorganization.

BCI Burke has periodically be involved in litigation, primarily what we construe as nuisance suits, over injuries occurred while using playground equipment. Burke in every case has vigorously defended itself. Burke carries over \$10 million in liability insurance for this very reason.

Marketing / Sales – Appendix F

17. **Detail how your organization plans to market this contract within the first ninety (90) days of the award date.**

Immediate Promotion

We will use the TCPN contract to help customers streamline the bid process which can monopolize precious time and resources. By utilizing a cooperative contract, they will have the ability to purchase higher quality, long-lasting products without being forced to grant an award to the lowest-cost provider.

Burke will cooperatively promote this message, the award and partnership of this contract, specifically in 10-12 of the biggest opportunity states immediately in first 90 days. Our goal is to be the “go to” resource for all schools, parks, municipalities, and any additional organizations that may qualify for the TCPN contract.

We will develop and utilize co-branded postcard mailers, email blasts, and Google advertising to dramatically elevate awareness, specifically against US Communities. In addition, each message will be shared via our social media campaign.

Direct Mail Campaigns/ Co-branded Collateral/Advertising Schedule

Our marketing team will build in the TCPN logo and language to co-brand our pieces in our scheduled marketing campaigns. Additionally, we will budget for mailings specific to TCPN and target high impact states. Direct mail postcards can be sent to our database, along with any database records that TCPN provides.

We see the biggest impact for marketing efforts in the following states:

- Virginia
- Maryland
- Florida
- Illinois
- Texas
- California
- New York
- Georgia
- North Carolina
- Ohio

Website / Catalog

Burke’s two most impactful marketing initiatives are our website and catalog. Burke will maintain a dedicated page within our website outlining our relationship

with TCPN and providing a link to the TCPC website. TCPN will also be included in our printed catalog.

Print advertising is scheduled in local and national publications for the year and will include TCPN in our scheduled placements. These publications include, but are not limited to, Parks & Recreation Magazine and Parks and Rec Business Magazine. We also participate in state specific publications such as California Parks and Recreation Society (CPRS) Magazine, and our partnership will also be reflected in those advertisements.

Tradeshow Participation

Burke has increased our presence in the both local and national tradeshow circuits, especially for the National Recreation and Parks Association (NRPA) Annual Conference in September, and the American Society of Landscape Architects (ASLA) immediately following NRPA in October. Burke participates in National IPA Vendor Summits and has committed to the 2017 National Institute of Government Purchasing (NIGP) Annual Forum and Products Exposition in August.

The TCPN logo will be incorporated in our physical handouts and our pre-and post-show marketing efforts. These include print advertising in national magazines and show specific publications, email blasts, and our social media campaign.

Burke also welcomes the opportunity for any TCPN staff to join us in our booth and at any social opportunities that Burke or our Authorized Representatives sponsor.

Internal Promotion

Burke provides a monthly newsletter to all our employees and our Representative firms. We will send ongoing updates regarding the contract award and reminders to include the TCPN contract in their communication and sales tactics.

We hold an annual Sales Meeting for our Representative Firms that includes continuing education presentations and updates. TCPN contract details and reminders are included in these presentations. For the past several years we invited our TCPN Representative to present at this meeting and, if awarded, we will continue to include this in our planning efforts.

18. **Describe how your company will demonstrate the benefits of this contract to eligible government customers.**

Our Internal Sales Staff and Network of Authorized Representatives have been trained extensively regarding the benefits that holding the TCPN contract provide to eligible government customers. Along with the marketing efforts indicated in previous responses, we have developed a presentation that outlines the benefits of utilizing the TCPN contract including:

- a. Reduction of agency administrative burden of time/resources

- b. Opportunity for greater efficiency and economies of scale in acquiring goods and services
- c. Product cost savings through nationally leveraged pricing
- d. No cost to agencies and no minimum purchase amounts
- e. First-class purchasing procedures ensuring the most competitive contracts

Burke also developed a 4-page color flyer (see attached) that is targeted specifically to agencies that are eligible to purchase via the TCPN contract.

19. **Explain how your company plans to market this agreement to existing government customers.**

In addition to the marketing efforts above in Question 17, we target our existing government customers from our databases and send targeted email blasts and direct mail postcards to these contacts. Our message will include not only the award of the contract, but also our past efforts and successes utilizing this contract and encourage them to take advantage of this opportunity.

Because these contacts are existing customers, our Representative firms and sales staff can also contact some of these clients directly, based on the relationship we have built and sustained in some of these markets to promote the benefits of utilizing TCPN for another project.

20. **Provide a detailed ninety (90) day plan describing how the contract will be implemented within your firm.**

Burke currently holds a TCPN Contract and has been conducting trainings with internal staff since being awarded the contract. If awarded a new TCPN contract, Burke will do the following within 90 days of the award:

- Conduct a webinar with all Burke Regional Sales Managers, and internal Management and Support staff announcing the award and providing detailed training on the TCPN contract. We would request that a TCPN staff member assist in orchestrating this webinar and help with answering any questions. The webinar will be recorded and placed on the bciburke.com website which is accessible to all Burke employees and Representatives when they log onto the website.
- All information regarding the contract's terms and conditions and pricing will be added to Burke's website and will be accessible to all internal Burke staff upon login.
- Information regarding the TCPN contract will be included in the "Burke Alert" which is emailed to all Burke Sales Representatives, Regional Sales Managers and all Burke employees.

21. **Describe how you intend to train your national sales force on the Region 4 ESC agreement.**

Burke currently holds a TCPN Contract and has been conducting trainings and webinars with Authorized Representatives throughout the United States since being awarded the contract in 2010. This has included working with TCPN Regional Managers in promoting the use of the Burke contract in their territories and inviting TCPN staff to participate in Burke's annual National Sales Conference. If awarded a new TCPN contract, Burke will do the following:

- Conduct a webinar with all Authorized Representatives and Regional Sales Managers announcing the award and providing detailed training on the TCPN contract. We would request that a TCPN staff member assist in orchestrating this webinar and help with answering any questions. The webinar will be recorded and placed on the bciburke.com website which is accessible to all Authorized Representatives when they log onto the website.
- All information regarding the contract's terms and conditions and pricing will be added to Burke's website and will be accessible to all Authorized Representatives and Regional Sales Managers upon login.
- Information regarding the TCPN contract will be included in the "Burke Alert" which is emailed to all Burke Authorized Representatives and Regional Sales Managers.
- Explore conducting (in conjunction with TCPN staff) training sessions at targeted national conferences to educate attendees on the TCPN program and Burke's participation in it.

22. **Acknowledge that your organization agrees to provide its company logo(s) to Region 4 ESC and agrees to provide permission for reproduction of such logo in marketing communications and promotions.**

Burke agrees to provide our company logo(s) to Region 4 ESC and will provide permission for reproduction of such logo in marketing communications and promotions.

We estimated revenue of \$500,000 in three years and currently ended 2016 with \$2.3M in sales under the TCPN cooperative contract. We have become familiar and are comfortable executing our current contracts and feel we have been, and continue to be successful implementing in the future.

25. **Describe the capacity of your company to report monthly sales through this agreement.**

Upon request they would be able to provide additional project management information and reports which they would receive from the general contractor.

27. **Please provide any suggested improvements and alternatives for doing business with your company that will make this arrangement more cost effective for your company and Participating Public Agencies.**

To assist our customers with ordering freestanding playground products, benches, grills and site amenities, Burke could build an e-commerce store so Burke product could be ordered with a few clicks. We could set this system up similar to the GSA Advantage website and streamline the process allowing customers to order and receive these items quickly.

We all share one earth, and at Burke we want to preserve our planet for future generations of children. We've implemented a variety of practices to help us help keep our shared world a better, greener place.

Manufacturing: Being ISO 14001:2004 certified means we have strict environmental controls built into our manufacturing process. We get 100% of our energy from wind and other renewable resources. This helped us earn the Green Power Partner designation from the US Environmental Protection Agency – the only playground manufacturer to achieve this!

Design: We design high-quality products with long life expectancies and quality components to extend the useable life of the playspace. Many of our raw materials have recycled content, including our steel tubes and castings. In addition, many other Burke products are made from recycled material. For example, the NaturePlay® ClubHouse™ Board Panels and Roofs are made from 75% post-consumer material and are 100% recyclable after use.

Offices: Our corporate office uses energy efficient lighting to help reduce energy use on a daily basis. We also use recycled paper to print our catalogs and created a digital catalog to decrease the amount of paper being used. We abide by the six R's: Reduce, Reuse, Recycle, Repair, Recover and Respect.

Suppliers: To minimize transportation costs, we prefer to work with suppliers located near our manufacturing facility.

Installation

BCI Burke warrants the installation for a period of ONE (1) year from the date of synthetic turf installation. This installation warranty only applies to installations done by approved installers contracted by BCI Burke Company LLC and does not apply to self-installation or installations done by other contractors. This warranty includes the turf base if installed by BCI Burke. If Sub-Base issues occur such as: sink holes, not properly filled fence post holes or playground poles, sprinkler systems, this is the sole responsibility of the owner.

Product

BCI Burke warrants that for TEN (10) years from the date of synthetic turf installation, the turf, when installed and maintained as recommended by the yarn & turf manufacturer, will retain at least 50% of its pile fiber. If any area or portion of the turf substantially changes, as distinguished from a change in texture, or if pile heights decrease 50% or more within ten years after its initial installation, BCI Burke will have all such areas or portions replaced with new turf of equivalent quality, excluding installation costs. General provisions of this limited warranty apply only to the wear of the turf with regard to ultraviolet degradation, and do not apply to damage incurred during installation, improper underlay, pile crushing, willful or negligent abuses, or damage by machinery or equipment, nor does it apply when the turf is not professionally installed by an approved installer. This limited warranty does not apply to installations on stairways or other uneven surfaces, nor does it apply to turf which has not been properly maintained.

The expressed limited warranty excludes all implied warranties, and said manufacturer shall in no event be liable for a breach of warranty in any amount exceeding the mill invoice price of the turf.

If dissatisfied, the owner must submit notice of all claims under this warranty to BCI Burke Company LLC within ten (10) years from the date of turf installation.

Limitations on Liability

In no event shall BCI Burke Company LLC be liable, whether on contract or in tort or under any other legal theory, for lost profits or revenues, loss of use or similar economic loss, or for indirect special, incidental, consequential, punitive or similar damages arising out of or in connection with the use, condition, possession, performance, maintenance, non-delivery or late delivery of the products, even if BCI Burke Company LLC has been advised of the possibility of such damages.

Please note that oral communications concerning this RFP shall not be binding and shall in no way excuse the responsive Offeror of the obligations set forth in this proposal.

VII. Restricted and Prohibited Communications with Region 4 ESC: During the period between the date Region 4 ESC issues this RFP and the selection of the vendor who is awarded a contract by Region 4 ESC, if any, Offerors shall restrict all contact with Region 4 ESC and direct all questions regarding this RFP, including questions regarding terms and conditions, only to the individual identified above in Section "Inquiries and/or Discrepancies" in the specified manner. **Do not contact members of the Board of Directors, other employees of Region 4 ESC or any of Region 4 ESC's agents or administrators. Contact with any of these prohibited individuals after issuance of this RFP and before selection is made, may result in disqualification of the Offeror.**

The communications prohibition shall terminate when the contract is recommended by the administration, considered by the Board of Directors at a noticed public meeting, and a contract has been awarded. In the event the Board of Directors refers the recommendation back to staff for reconsideration, the communications prohibition shall be re-imposed. Additionally, during the time period between the award by the Board of Directors and the execution of the contract, Offerors shall not engage in any prohibited communications as described in this section.

Prohibited communications includes direct contact, discussion, or promotion of any Offeror's response with any member of Region 4 ESC's Board of Directors or employees except for communications with Region 4 ESC's designated representative as set forth in this RFP and only in the course of inquiries, briefings, interviews, or presentations. This prohibition is intended to create a level playing field for all potential Offerors, assure that decisions are made in public, and to protect the integrity of the RFP process. Except as provided in the above stated exceptions, the following communications regarding a particular invitation for bids, requests for proposal, requests for qualifications, or other solicitation are prohibited:

- Communications between a potential vendor, service provider, bidder, offeror, lobbyist or consultant and any member of Region 4 ESC's Board of Directors;
- Communications between any director and any member of a selection or evaluation committee; and
- Communications between any director and administrator or employee.

The communications prohibition shall not apply to the following:

- Communications with Region 4 ESC's purchasing agent specifically named and authorized to conduct and receive such communications under this RFP or upon the request of Region 4 ESC, with Region 4 ESC's legal counsel; and
- Presentations made to the Board of Directors during any duly noticed public meeting.

Nothing contained herein shall prohibit any person or entity from publicly addressing Region 4 ESC's Board of Directors during any duly noticed public meeting, in accordance with applicable Board policies, on a matter other than this RFP or in connection with a presentation requested by Region 4 ESC's representatives.

CONDITIONS OF SUBMITTING PROPOSALS

IX. Amendment of Proposal: A proposal may be amended up to the time of opening by submitting a sealed letter to the location indicated on the front page of this solicitation.

X. Withdrawal of Proposals: Withdrawal of proposals prior to the opening date will be permitted. Withdrawal of response will not be allowed for a period of 120 days following the opening. Pricing will remain firm for 120 days from submittal. However, consideration may be given in cases where Offeror advises that it made a clerical error that is substantially lower than it intended. In such case, Offeror must provide written notice of their desire to withdraw, along with supporting documents, within 3 business days of receiving the acceptance letter or of being requested by Region 4 ESC for clarification of the proposal, whichever is later. Any contracts entered into prior to Region 4 ESC receiving notice must be honored.

No Offeror should assume that their withdrawal request has been accepted unless, and until, they receive written acknowledgment and acceptance of their proposal withdrawal.

XI. Clarifications: Offeror may receive a written request to clarify, in writing, its proposal in order to determine whether a proposal should be considered for award. The process of clarification is not an opportunity for an Offeror to revise or modify its proposal, and any response by an Offeror to a written request for clarification that attempts to revise or modify its proposal shall be given no effect. The purpose of the request for clarification will be solely made for the purpose of eliminating minor irregularities, informalities, or apparent clerical mistakes in the proposal, which may be corrected or waived in the leading agency's sole discretion.

XII. Non-Responsive Proposals: All proposals will be reviewed for responsiveness to the material requirements of the solicitation. A proposal that is not materially responsive shall not be eligible for further consideration for award of the contract, and the Offeror shall receive notice of the rejection of its proposal.

XIII. Negotiations: Region 4 ESC shall determine which responsive proposals are in the competitive range and/or are reasonably susceptible of being selected for award. Proposals not in the competitive range may not be further evaluated. Proposals in the competitive range shall be evaluated on the basis of price and the other evaluation criteria set forth in the solicitation. In the event that Region 4 ESC decides to conduct negotiations, notice shall be provided to each Offeror whose proposal is being considered for award, which notice may identify, in general terms, the elements or factors upon which Region 4 ESC intends to base its negotiations. Offerors will not be assisted, in any way, to bring their proposal up to the level of other proposals through discussions. During the course of negotiations, no Offeror's technical proposal or pricing shall be revealed to any other Offeror or to any other person who is not involved with the evaluation process. Region 4 ESC will also not indicate to Offeror a cost or price that it must meet to either obtain further consideration nor will it provide any information about other Offerors' proposals or prices.

XIV. Best and Final Offer: Region 4 ESC, in its sole discretion, may request all Offerors in the competitive range to submit a Best and Final Offer. Offerors must submit their Best and Final Offers in writing. If an Offeror does not respond to the request for a Best and Final Offer, that Offeror's most recent prior offer will be considered to be its Best and Final Offer.

XV. Specifications: When a solicitation contains a specification that states no substitutions, no deviation from this requirement will be permitted. Offeror must comply with the true intent of the specifications and drawings and not take advantage of any unintentional error or omission. In cases where no type and kind of product is specified, specifications have been developed to indicate minimal standards as to the usage, materials, and contents based on the needs of the members.

References to manufacturer's specifications (Design Guides), when used by Region 4 ESC, are to be considered informative to give the Offeror information as to the general style, type and kind requested. Responses proposing goods, materials or equipment regularly produced by a reputable manufacturer shall be evaluated by Region 4 ESC which will, in its sole discretion, determine whether such proposed goods, materials or equipment are substantially equivalent to the Design Guides, considering quality, workmanship, economy of operation, and suitability for the purpose intended. Offerors should include all documentation required to evaluate whether or not their proposed goods, materials or equipment are substantially equivalent to the Design Guides.

XVI. Quality of Materials or Services: Offeror shall state the brand name and number of the materials being provided. If none is indicated then it is understood that the offeror is quoting on the exact brand name and number specified or mentioned in the solicitation.

However, unless specifically stated otherwise, comparable substitutions will be permitted in cases where the material is equal to that specified, considering quality, workmanship, economy of operation and suitability for the purpose intended.

XVII. Samples: Upon request, samples shall be furnished, free of cost, within seven (7) days after receiving notice of such request. By submitting the proposal Offeror certifies that all materials conform to all applicable requirements of this solicitation and of those required by law. Offeror agrees to bear the costs for laboratory testing, if results show that the sample does not comply with solicitation requirements.

Submissions may be rejected for failing to submit samples as requested.

XVIII. Deviations and Exceptions: Deviations or exceptions stipulated in response may result in disqualification. It is the intent of Region 4 ESC to award a manufacturer's complete line of products, when possible.

XIX. Formation of Contract: A response to this solicitation is an offer to contract with Region 4 ESC based upon the terms, conditions, scope of work, and specifications contained in this request. A solicitation does not become a contract until it is awarded by Region 4 ESC. A contract is formed when Region 4 ESC's board signs the Vendor Contract Signature Form. The prospective vendor must submit a signed Vendor Signature Form with the response thus, eliminating the need for a formal signing process.

XX. Estimated Quantities: Region 4 ESC anticipates that a substantial number of participating members will enter into contracts resulting from this solicitation based on multiple surveys and usage of other contracts that may have included similar services, however, Region 4 ESC makes no guarantee or commitment of any kind concerning quantities or usage of contracts resulting from this solicitation. The volume for this contract is estimated to be up to and in excess of \$8 million a year. This information is provided solely as an aid to contract vendors in preparing proposals only. The successful Vendor(s) discount and pricing schedule shall apply regardless of the volume of business under the contract.

XXI. Multiple Awards: membership includes a large number of potential entities which may utilize this contract throughout the nation. In order to assure that any ensuing contract(s) will allow Region 4 ESC

to fulfill current and future needs, Region 4 ESC reserves the right to award contract(s) to multiple vendors. The decision to award multiple contracts, award only one contract, or to make no awards rests solely with Region 4 ESC.

- XXII. Non-Exclusive:** Any contract resulting from this solicitation shall be awarded with the understanding and agreement that it is for the sole convenience and benefit of participating members. Region 4 ESC and participating entities reserve the right to obtain like goods and services from other sources.

AWARD PROCESS

- XXIII. Award or Rejection of Proposals:** In accordance with applicable laws, rules, and regulations for public purchasing, award(s) will be made to the prospective vendor whose response is determined to be the most advantageous to participating agencies, price and other factors considered. Region 4 ESC reserves the right to use a "Market Basket Survey" method, based on randomly selected criteria to determine the most advantageous response. To qualify for evaluation, a proposal must have been submitted on time, and satisfy all mandatory requirements identified in this solicitation. Proposals that are materially non-responsive will be rejected and the Offeror will be provided notice of such rejection.

Region 4 ESC must provide the OAG sufficient information to render an opinion and therefore, vague and general claims to confidentiality by the Offeror are not acceptable. Region 4 ESC must comply with the opinions of the OAG. Region 4 ESC assumes no responsibility for asserting legal arguments on behalf of any Offeror. Rotationally Molded Plastics: Color consistency, color intensity, opacity and UV resistance are very important for the durability of rotationally molded plastics thus, it is preferred that all rotationally molded playground equipment and components be made of compounded and not dry blended or turbo blended plastics. UV Stability is a must thus it is preferred that all rotationally molded plastics are manufactured with UV 15 inhibitors. Please clearly indicate with specifications if your product meets these requirements or not.

Additionally, TCPN wants to enter into a relationship with the best available company or organization and recognizes that the "best value" is not always provided by the "low cost proposal". - Be simple to administer as specific scopes of work are developed.

- There may be times where products or services required are needed from a supplier outside of awarded supplier's capabilities. Indicate how these situations will be handled.
-

It cannot be over emphasized how important this criterion is to the potential success of any prospective vendor(s) and your particular attention to providing a unique and workable implementation is strongly recommended.

Implementation of House Bill 1295

Certificate of Interested Parties (Form 1295):

In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least \$1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016.

The Texas Ethics Commission was required to adopt rules necessary to implement that law, prescribe the disclosure of interested parties form, and post a copy of the form on the commission's website. The commission adopted the Certificate of Interested Parties form (Form 1295) on October 5, 2015. The commission also adopted new rules (Chapter 46) on November 30, 2015, to implement the law. The commission does not have any additional authority to enforce or interpret House Bill 1295.

Filing Process:

Starting on January 1, 2016, the commission will make available on its website a new filing application that must be used to file Form 1295. A business entity must use the application to enter the required information on Form 1295 and print a copy of the completed form, which will include a certification of filing that will contain a unique certification number. An authorized agent of the business entity must sign the printed copy of the form and have the form notarized. The completed Form 1295 with the certification of filing must be filed with the governmental body or state agency with which the business entity is entering into the contract.

The governmental entity or state agency must notify the commission, using the commission's filing application, of the receipt of the filed Form 1295 with the certification of filing not later than the 30th day after the date the contract binds all parties to the contract. The commission will post the completed Form 1295 to its website within seven business days after receiving notice from the governmental entity or state agency.

Information regarding how to use the filing application will be available on this site starting on January 1, 2016.

The contractor will take affirmative action to ensure that such applicants are recruited and employed, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Public Agency Compliance Officer setting forth provisions of this non-discrimination clause.

The contractor or subcontractor, where applicable will, in all solicitations or advertisement for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation.

The contractor or subcontractor, where applicable, will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the agency contracting officer advising the labor union or workers' representative of the contractor's commitments under this act and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

The contractor or subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer pursuant to P.L. 1975, c. 127, as amended and supplemented from time to time and the Americans with Disabilities Act.

The contractor or subcontractor agrees to attempt in good faith to employ minority and female workers trade consistent with the applicable county employment goal prescribed by N.J.A.C. 17:27-5.2 promulgated by the Treasurer pursuant to P.L. 1975, C.127, as amended and supplemented from time to time or in accordance with a binding determination of the applicable county employment goals determined by the Affirmative Action Office pursuant to N.J.A.C. 17:27-5.2 promulgated by the Treasurer pursuant to P.L. 1975, C.127, as amended and supplemented from time to time.

The contractor or subcontractor agrees to inform in writing appropriate recruitment agencies in the area, including employment agencies, placement bureaus, colleges, universities, labor unions, that it does not discriminate on the basis of age, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation, and that it will discontinue the use of any recruitment agency which engages in direct or indirect discriminatory practices.

The contractor or subcontractor agrees to revise any of its testing procedures, if necessary, to assure that all personnel testing conforms with the principles of job-related testing, as established by the

statutes and court decisions of the state of New Jersey and as established by applicable Federal law and applicable Federal court decisions.

The contractor or subcontractor agrees to review all procedures relating to transfer, upgrading, downgrading and lay-off to ensure that all such actions are taken without regard to age, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation, and conform with the applicable employment goals, consistent with the statutes and court decisions of the State of New Jersey, and applicable Federal law and applicable Federal court decisions.

The contractor and its subcontractors shall furnish such reports or other documents to the Affirmative Action Office as may be requested by the office from time to time in order to carry out the purposes of these regulations, and public agencies shall furnish such information as may be requested by the Affirmative Action Office for conducting a compliance investigation pursuant to Subchapter 10 of the Administrative Code (NJAC 17:27).

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Public Agency Instructions

This page provides guidance to public agencies entering into contracts with business entities that are required to file Political Contribution Disclosure forms with the agency. **It is not intended to be provided to contractors.** What follows are instructions on the use of form local units can provide to contractors that are required to disclose political contributions pursuant to N.J.S.A. 19:44A-20.26 (P.L. 2005, c. 271, s.2). Additional information on the process is available in Local Finance Notice 2006-1 (www.nj.gov/dca/lgs/lfns/lfmenu.shtml).

1. The disclosure is required for all contracts in excess of \$17,500 that are **not awarded** pursuant to a “fair and open” process (N.J.S.A. 19:44A-20.7).
2. Due to the potential length of some contractor submissions, the public agency should consider allowing data to be submitted in electronic form (i.e., spreadsheet, pdf file, etc.). Submissions must be kept with the contract documents or in an appropriate computer file and be available for public access. **The form is worded to accept this alternate submission.** The text should be amended if electronic submission will not be allowed.
3. The submission must be **received from the contractor and** on file at least 10 days prior to award of the contract. Resolutions of award should reflect that the disclosure has been received and is on file.
4. The contractor must disclose contributions made to candidate and party committees covering a wide range of public agencies, including all public agencies that have elected officials in the county of the public agency, state legislative positions, and various state entities. The Division of Local Government Services recommends that contractors be provided a list of the affected agencies. This will assist contractors in determining the campaign and political committees of the officials and candidates affected by the disclosure.
 - a. The Division has prepared model disclosure forms for each county. They can be downloaded from the “County PCD Forms” link on the Pay-to-Play web site at www.nj.gov/dca/lgs/p2p. They will be updated from time-to-time as necessary.
 - b. A public agency using these forms **should edit them to properly reflect the correct legislative district(s)**. As the forms are county-based, **they list all legislative districts** in each county. **Districts that do not represent the public agency should be removed from the lists.**
 - c. Some contractors may find it easier to provide a single list that covers all contributions, regardless of the county. These submissions are appropriate and should be accepted.
 - d. The form may be used “as-is”, subject to edits as described herein.
 - e. The “Contractor Instructions” sheet is intended to be provided with the form. It is recommended that the Instructions and the form be printed on the same piece of paper. The form notes that the Instructions are printed on the back of the form; where that is not the case, the text should be edited accordingly.
 - f. The form is a Word document and can be edited to meet local needs, and posted for download on web sites, used as an e-mail attachment, or provided as a printed document.
5. It is recommended that the contractor also complete a “Stockholder Disclosure Certification.” This will assist the local unit in its obligation to ensure that contractor did not make any prohibited contributions to the committees listed on the Business Entity Disclosure Certification in the 12 months prior to the contract. (See Local Finance Notice 2006-7 for additional information on this obligation) A sample Certification form is part of this package and the instruction to complete it is included in the Contractor Instructions. **NOTE: This section is not applicable to Boards of Education.**

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Contractor Instructions

Business entities (contractors) receiving contracts from a public agency that are NOT awarded pursuant to a "fair and open" process (defined at N.J.S.A. 19:44A-20.7) are subject to the provisions of P.L. 2005, c. 271, s.2 (N.J.S.A. 19:44A-20.26). This law provides that 10 days prior to the award of such a contract, the contractor shall disclose contributions to:

- any State, county, or municipal committee of a political party
- any legislative leadership committee*
- any continuing political committee (a.k.a., political action committee)
- any candidate committee of a candidate for, or holder of, an elective office:
 - of the public entity awarding the contract
 - of that county in which that public entity is located
 - of another public entity within that county
 - or of a legislative district in which that public entity is located or, when the public entity is a county, of any legislative district which includes all or part of the county. The disclosure must list reportable contributions to any of the committees that exceed \$300 per election cycle that were made during the 12 months prior to award of the contract. See N.J.S.A. 19:44A-8 and 19:44A-16 for more details on reportable contributions.

N.J.S.A. 19:44A-20.26 itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

- individuals with an "interest" ownership or control of more than 10% of the profits or assets of a business entity or 10% of the stock in the case of a business entity that is a corporation for profit
- all principals, partners, officers, or directors of the business entity or their spouses
- any subsidiaries directly or indirectly controlled by the business entity
- IRS Code Section 527 New Jersey based organizations, directly or indirectly controlled by the business entity and filing as continuing political committees, (PACs). When the business entity is a natural person, "a contribution by that person's spouse or child, residing therewith, shall be deemed to be a contribution by the business entity." [N.J.S.A. 19:44A-20.26(b)] The contributor must be listed on the disclosure. Any business entity that fails to comply with the disclosure provisions shall be subject to a fine imposed by ELEC in an amount to be determined by the Commission which may be based upon the amount that the business entity failed to report. The enclosed list of agencies is provided to assist the contractor in identifying those public agencies whose elected official and/or candidate campaign committees are affected by the disclosure requirement. It is the contractor's responsibility to identify the specific committees to which contributions may have been made and need to be disclosed. The disclosed information may exceed the minimum requirement. The enclosed form, a content-consistent facsimile, or an electronic data file containing the required details (along with a signed cover sheet) may be used as the contractor's submission and is disclosable to the public under the Open Public Records Act. The contractor must also complete the attached Stockholder Disclosure Certification. This will assist the agency in meeting its obligations under the law.

NOTE: This section does not apply to Board of Education contracts.

* N.J.S.A. 19:44A-3(s): "The term "legislative leadership committee" means a committee established, authorized to be established, or designated by the President of the Senate, the Minority Leader of the Senate, the Speaker of the General Assembly or the Minority Leader of the General Assembly pursuant to section 16 of P.L.1993, c.65 (C.19:44A-10.1) for the purpose of receiving contributions and making expenditures."
