Qualifying Statement

COA – Fire Station No. 7

The new 10,400 sf City of Aurora Fire Station No. 7 will replace the existing Station No. 7 on the same site, located at 824 Kenilworth Avenue. The new facility will house up to six firefighters and increases the number of bays to three over the two existing to include ambulance services out of this facility. The east side of the facility is the living side of the station and will have a kitchen, dayroom, and bunk rooms. The west side of the facility will have an office, conference room and fitness room.

Requested Variance

- In order to have the facility fit on the same site as the existing Fire Station No. 7 we are requesting a variance to encroach the front yard setback of 30'-0"; 15'-6. This distance sets the front of the building further back than the adjacent properties to the west of the site and allows for a building plan that will allow the new facility to be built while the fire department stays operational out of the existing facility until the new facility is finished.
