Scientel Solutions
President
Nelson Santos

Dear Mr. Santos,

This letter is to inform you that Motorola Solutions has conducted a preliminary engineering study of the tower site location at 5S045 N. Eola Road, Naperville, IL 60563.

Our preliminary analysis shows this as a viable site for future public safety communications. In particular the site would enhance in building communications capability for the Aurora, Naperville area for the IL Statewide P25 Communication System (Starcom21).

Motorola would have to invest further engineering resources in order to fully document a comprehensive and optimal plan for integrating this location into the Starcom21 standards based system.

Sincerely,

Ravi Suthar
Senior Account Manager
