Hello Janis,

The prior negotiated Hach terms and conditions are acceptable for this year's reagent purchases from the City of Aurora.

Thank you very much for sending this in for review.

Cheers,

Troy

Megan,

Per our discussion, can you please have HACH send an email approving the use of the modified HACH Terms and Conditions (attached), which were worked out between the city's and HACH's attorneys 12 months ago, for use with both the SIRR and Instrumentation Service Agreements for next year. Thanks...
