TO: Byron Jackson Type H Motor Users

RE: Well Pump Maintenance

At the request of our Illinois Byron Jackson dealer Layne Christensen, please be advised that Layne is our sole source representative for vertical turbine submersible well pumps in the state of Illinois.

Also please note that Layne Christensen field service crews have received both factory and field training in the proper handling of Byron Jackson well pumps and The Byron Jackson Type H mercury-sealed motors. Untrained non-Layne crews may not be capable of safely and properly handling the Byron Jackson Type H submersible motors and could void the warranty.

It is imperative that the factory certified personnel should service these Byron Jackson EPA and NSF approved Type H mercury-sealed motors, as well as Byron Jackson replacement double-mechanical seal motors. This would prevent any potential environmental concerns due to improper handling.

If you have any questions, please feel free to call me at 402-984-2189.

Sincerely,

**Flowserve Corporation**
