

Vaccination Status Software  
Final Briefing Packet  
Aurora, IL

# Project Overview

## **BUSINESS CHALLENGE**

As the City of Aurora looks to protect the health of City employees and residents and navigate a changing regulation landscape, the City has begun to track and report on City employee vaccination status, test results and contact tracing. Presently, the Human Resources team is manually tracking the vaccination status and required testing results of employees and reporting this information to department and/or City leadership.

## **PROJECT BACKGROUND**

The City of Aurora, Illinois (City) is seeking to implement a mobile solution to track COVID vaccination and testing status for City of Aurora employees.

# Process Overview

## **Process Overview:**

- Created Market Landscape with 15+ Companies
- [Created Opportunity and Scope Document](#) based on needs described by Aurora HR and IT
- Posted Opportunity on Marketplace and Aurora Website 11/1 with responses due 11/12. Used two week time window due to urgency
- Publicly posted and distributed the Opportunity for vendors to complete in order to be included in the reporting and selection process
  - 27 companies responded by Deadline - [Raw Data File Here](#)
- Initial discussion held 11/19 to confirm filtering criteria and next steps based on urgency

# Initial Filter Criteria

With the large volume of data, urgency of the project and lack of internal comparable systems (i.e. no legacy system/process expertise), Marketplace.city created a first pass of a best fit based on the following data.

Aurora will still have access to complete data from all respondents and based on discuss additional filters can be applied.

## **Initial Screening Criteria :**

- Vendor demonstrated clear capabilities of core services needed (Vaccination status, testing results, contract tracing, reporting etc.)
- Vendor had cloud solution and mobile application or mobile optimized site
- Vendor offered Solution as Service or Used Based Pricing
- Vendor had clear straightforward pricing that was less than 100K in yearly fees

This results in **13 vendors**. 9 with claimed state and local government experience; 4 without local government experience.

Summary results on the following slides are for the 13.

# Vendor Response Summary (1/2)

Question	Solution Narrative	Functionality	Product Visuals	Government Accounts	In Illinois?	Case Studies	Model	Pricing Document	Pricing	Implementation Timeline?

# Process Overview Continued

**Process Overview:**

- 12/6 discussion determined 7 providers (6 solutions) for deeper review.
- After discussion, Aurora team decided to meet with 5 vendors
- Vendor demonstrations completed by 1/20/22
- Scoring of vendors based on responses and demonstrations

# Scoring Process

Scoring Criteria	Weight	Vendor Evaluation				
		Advanced Metrics	Allwyn Corp	CrisisGo	InfoBeyond Technologies	UKG
Capabilities / Solution	25%	5.00	7.00	5.80	7.00	5.80
Experience and Qualifications	20%	6.33	7.00	5.80	6.00	9.00
Approach, Services, Implementation Methodology	10%	6.33	8.00	5.00	8.00	7.40
Pricing and Contract Model	20%	6.33	5.00	8.20	5.00	5.00
Additional Services / Innovation	25%	3.67	6.00	4.20	5.00	7.40
Number of Scorers		3	4	5	4	5
Weighted Scoring		5.33	6.45	5.80	6.00	6.84

- UKG scored first with 6.84, Allwyn in second with 6.45
- UKG scoring was based on the vendor demo, where they confirmed an SMS capability
- An SMS capability is critical because seasonal workers are not distributed Aurora email addresses
- Upon follow up to determine pricing and integrations, UKG did not have an SMS integrations, which changed the stakeholders' opinion of capabilities as that was a critical component

# Summary & Final Selection

## SUMMARY

After using the Marketplace.city process, the City of Aurora Project Stakeholders have selected Allwyn Corporation as their vendor for this project. Its strong performance in every scoring category and the inclusion of the critical SMS capability made it rise above the 26 other vendors that originally submitted.

## DECISION FACTORS

- **SMS Capability:** Aurora’s seasonal employees are typically not given email addresses, which means communication must occur over phone and SMS. Allwyn offers the ability to reach these employees and significantly reduces the workload for Human Resources.
- **Implementation Timeline:** Allwyn indicates they can operationalize their solution within 3-7 business days. Most In the ever-evolving COVID-19 pandemic, every day counts. Most other finalists require several weeks to implement their solutions.
- **Dashboarding:** The solution offers dashboard reporting and the ability to export reports to excel for further use cases.
- **Integrations:** Will integrate with Active Directory and Okta SSO.

## CONTRACT DETAILS

CONTRACT DURATION	3 Years
PRICING SUMMARY	\$135,809.28
CONTRACT DOCUMENTS	<a href="#">Allwyn Final Quote Documents</a>

# Detailed Vendor Response Analysis:

---

# Functional Information

Company Name	Solution Narrative	Requested Functionality	Other Functionality	Differentiation	Mobile Setup	App Store Integration (where applicable)	Admin User Control?	Reporting Capabilities	Product Views
Advanced Metrics	<a href="#">Solution Narrative</a>	COVID Vaccination Tracking, COVID Testing Results Tracking, Contact Tracing, Leadership Reporting	N/A	A system informed by experts in occupational medicine, human resources, and software development for easy data entry, reporting and dashboarding for leadership decision making and compliance efforts.	Mobile Optimized Site	N/A	Yes	Employee reported information is presented to leadership in dashboards. Dashboards include information on the entire cohort of individuals. Exports allow leadership to extract information for compliance and reporting efforts. These reports are in CSV file format allowing for further data analysis.	<a href="#">Product Views</a>
Allwyn Corporation	<a href="#">Solution Narrative</a>	COVID Vaccination Tracking, COVID Testing Results Tracking, Contact Tracing, Leadership Reporting, Other Vaccination Tracking	N/A	<ul style="list-style-type: none"> <li>Implemented within 3- 5 business days.</li> <li>SaaS solution.</li> <li>It can be customized with your branding.</li> <li>It is widely used by large enterprises and backed by Appian</li> </ul>	Mobile Application, Mobile Optimized Site	Apple App Store and Google Play store.	Yes	With dashboard for users based on authentication, users can view reports from the Dashboard, which provides organizational level reporting into employees vaccination, and contact tracing data. Quickly access and view incidents, pass requests, surveys, and people data.	<a href="#">Product Views</a>
CrisisGo	<a href="#">Solution Narratives</a>	COVID Vaccination Tracking, COVID Testing Results Tracking, Contact Tracing, Leadership Reporting, Other Vaccination Tracking, Other	Entry and area screening. Area Occupancy control	Simple: Safety iPass is very simple for and does not require app to be installed. Affordable and Easy to deploy with connectors for Users Mgt. Excellence: Proven solution with more than 500K users.	Mobile Application, Mobile Optimized Site	CrisisGo app is available at Apple and Google Android stores. Windows, MacOS, ChromeOS also supported.	Yes	There is the reporting of results into our system: via Lab API, using our test personnel interface, using our admin interface or through self-reporting. Staff can upload their proof of vaccination, then a City of Aurora administrator can approve or reject. PLEASE VIEW FINAL PDF ATTACHED.	<a href="#">Product Views</a>
InfoBeyond Technology LLC	<a href="#">Solution Narrative</a>	COVID Vaccination Tracking, COVID Testing Results Tracking, Other	Employee daily screening; Visitor vaccination & test report	PreworSCREEN is the first Employee COVID Report-to-work app in the market (since 05/29/2020). It is a user-friendly, reliable (99.996% SLA), powerful, but non-intrusive app for privacy preservation.	Mobile Application, Mobile Optimized Site	Apple store, Google play	Yes	Dashboard reports the vaccine and test result by statistics, graphics, lists, and details. City's admin review, edit, write note, approve (check of the image), update, upload in batch, sort, search, and generate & download reports by date, types, departments/locations, week, or other criteria.	<a href="#">Product Views</a>
Insight Public Sector, Inc. (CrisisGo)	<a href="#">Solution Narrative</a>	COVID Vaccination Tracking, COVID Testing Results Tracking, Contact Tracing, Leadership Reporting, Other Vaccination Tracking, Other	Certification Configuration Management, Badge Setting, iPass User List	Simple, Affordable, Functional, Excellence (focused on people)	Mobile Application, Mobile Optimized Site	iOS, Android, Mac, PC, Chromebook	Yes	There is the reporting of results into our system: via Lab API, using our test personnel interface, using our admin interface or through self-reporting. Staff can upload their proof of vaccination, then a City of Aurora administrator can approve or reject.	<a href="#">Product Views</a>
Total Testing Solutions	<a href="#">Solution Narrative</a>	COVID Vaccination Tracking, COVID Testing Results Tracking, Leadership Reporting, Contact Tracing	n/a	LINK is an easy to use, HIPAA compliant, vaccine and test results verification platform that was created by TTS, a team of medical professionals and medical testing operators.
