QUALIFYING STATEMENT FOR NUTRIVO LLC BUILDING EXPANSION

Per the request of Nutrivo, LLC, Manhard Consulting Ltd has prepared a Qualifying Statement related to the proposed ±91,721 square foot building expansion to their existing Aurora facility. The existing Nutrivo Facility is located at the southeast corner of Edgelawn Drive and Sequoia Drive in Kane County. The current zoning for the parcel is ORI – Office, Research and Light Industrial District. The expansion is an industrial use, meant to create additional space for storage inside the existing facility. There no proposed variances at this time.

- a. The public health, safety, morals, comfort and general welfare of the community will not be affected by the proposed expansion. The building will be up to all safety codes and will be of the same industrial use as the surrounding properties.
- b. The use and enjoyment of other properties already established or permitted in the general area will not be affected because the surrounding buildings in the area are of industrial use. Surrounding properties include:
 - a. North: Hyundai MOBIS Parts America
 - b. East: Industrial use under construction
 - c. South: Retention Basin
 - d. West: Kraft industrial use
- c. Property values will not go down due to the proposed expansion because the surrounding buildings are of the same industrial use.
- d. The normal and orderly development and improvement of surrounding property for uses established or permitted within their respective existing zoning districts will not be affected because the expansion is an industrial use, similar to all the surrounding properties in the ORI zone.
- e. Utilities, access roads, drainage and/or other necessary facilities have been provided. Utilities in the area meet the expansions needs, no additional access roads have been added due to the expansion, and drainage patterns will remain the same, with the site draining to the existing detention basin
- f. Ingress and egress as it relates to traffic congestion in the public streets will not be affected. No additional drive accesses or parking is proposed; traffic patterns are to remain the same.
- g. The applicable regulations of the zoning district in which the subject property is proposed to be or is located are being met
- h. No variances are proposed at this time

If you should have any questions, please do not hesitate to contact us.
