

The USNV PVS-14A GEN III White Phosphor system is US Night Vision's most advanced monocular. The versatile USNV PVS-14A features new Elbit Systems white phosphor thin film image tube technology as well as a manual gain control which allows the user to increase or decrease image tube brightness for greater image contrast in varying light conditions. The USNV PVS-14A uses an auto-gated Generation 3 image tube in a compact, high performance, mil-spec housing designed for multiple applications. The USNV PVS-14A can be hand-held, head-mounted, helmet-mounted and weapons mounted.

Includes: Unit, Military Soft Case, Eye Cup, Headmount, Brow Pads, Transfer Arm, Shoulder Strap, Sacrificial Window, Demist Shield, Lens Tissue, Lanyard, Objective Lens Cover, Ops Manual.

Optional Accessories: Wilcox G24 Mount, Wilcox J Arm with On/Off Switch.
