The selection criteria and weightings for project selection are indicated below.

- Consultant Experience (30%). The consultant's general experience, stability, and experience on projects similar to the ones under consideration. Experience with federally funded projects is required.
- Staff Capabilities (30%). The education, experience, and expertise of the consultant's key employees.
- Technical Approach (30%). Project understanding and the consultant's approach to perform engineering services and related items that are required for successful completion of projects.
- Adherence to RFQ (10%). Quality of the entity's submittal including, but not limited to, spelling, providing all the information requested, and providing correct/accurate information.
