Over the last 19 seasons Pipe View America has been successfully completing sewer inspections and documentation for municipalities and utility owners across the country. We have offices in Chicago, IL, Azle, TX, Greeley, CO, and Columbia, MO. Our teams utilize the most current equipment for our lateral launch, push camera, hydro-excavation, sewer repair, sewer cleaning, and live gas main inspection operations. We have developed techniques that allow us to access complicated or blocked sewers in order to clear our clients of cross-bore liability.

We provide our clients with GIS output that is customizable to directly upload into their system. This has also provided daily progress updates to inspectors and managers. Inspectors also have direct access to completed videos and reports online, typically within 48 hours.

We look forward to the opportunity work with the City of Aurora again and continue our relationship.
