City of Aurora WATER MAIN AND SERVICE LINES

In the City of Aurora, the Water and Sewer Maintenance Division is responsible for maintenance, repair and replacement of water mains. The water mains are pipes that bring water to multiple houses or businesses. They are typically located under or along the edge of a street. Water services are the pipes that connect an individual house or business to the water main. The Aurora City Code states the property owner is responsible for maintenance, repair and replacement of the water service, but allows the Water and Sewer Maintenance Division to repair a water service if all the following conditions are met:

- The water service is a domestic water service (not a fire protection service or a combined fire and domestic service);
- The repair is within the public right-of-way or a City easement; and
- The City has not previously repaired the water service more than twice.

Any maintenance or repair that does not meet these conditions is the responsibility of the property owner. Replacement of a water service is always the property owner's responsibility.

Sec. 48-16 of the Aurora City Code is attached for your reference. It describes more completely the responsibilities for water service maintenance, repair and replacement. If you have any questions about your responsibilities, please call the Water and Sewer Maintenance Division at 630-256-3510.
