Proposed Redevelopment of 975 Corporate Blvd. and 985 Corporate Blvd. located in Aurora, Illinois for Henkels & McCoy, Inc.

Henkels & McCoy, Inc. is a 94 year old, privately held Utility Infrastructure Contractor. Our business focuses on utility companies, municipalities, power and energy developers and telecommunications organizations. The primary purpose for the redevelopment of this facility will be as office space and a warehouse. Henkels & McCoy, Inc. has maintained its Central Region office in Batavia, IL for over ten years, and there are approximately 50 employees currently working at this location. Our business has grown and we have a need to expand our Regional office to house approximately 100 employees.

Henkels & McCoy, Inc. major markets include industrial electric power, natural gas distribution, telecommunications and renewable energy. Service categories include: Power Transmission, Power Distribution, Power Substation, Pipeline, Natural Gas Distribution, Natural Gas Compression Station, Wireless Communication, Buried Communication, Aerial Communication and Network Infrastructure Markets. 100% of sales are devoted to these activities.

Henkels & McCoy performs their services off site at customer locations or properties. Few customers, especially the general public come to our Regional Office site.

The primary use of this space will be to provide offices for Executives, Operations, Sales & Marketing, Engineering staff, Project Management, Human Resources, Accounting, and parking for these employees. In addition to offices, the site will include storage of construction equipment and materials and staging of company owned or leased equipment. Of the approximate 216,046 S.F. of site area, 20,000 S.F. of office building with an additional 8,000 S.F. for inside storage warehouse. There is also outside storage of 20,000 S.F. for cable reels, piping and equipment. To secure materials and equipment, we are proposing a fencing system that will provide security and concealment for the surrounding areas.

The building and site arrangements are indicated on the submitted plans. The primary use will have DOT certified utility truck and trailer combinations, high reach boom trucks, combination tractor/trailers for off road equipment. We are anticipating 10 to 20 in and out trips per week of this equipment. We proposed an additional entrance off of Corporate Boulevard to anticipate these activities.

Henkels & McCoy's primary use is a 24 hour operation; 365 days per year. Peak use times will be between 6:00 AM and 6:00 PM, Monday through Friday.

As Henkels & McCoy, Inc.'s primary customers are utility companies, municipalities and/or authorities there is little need to advertise to the general public; however we will be including identification signage on the buildings and at the site entrance points within the limits of the city's zoning requirements.

All on site activities revolve around the primary use. There are no proposed independent activities.

MEMORANDUM

HENKELS & MCCOY, INC. | 985 JOLLY ROAD | BLUE BELL, PA 19422 | (215) 283-7600
