RE: Customer Copy
Project Funds Reserved
Project ID# 16-38159
Project Location: 44 E Downer Pl, Aurora, IL 60507

Dear Scott Miller,

We are pleased to inform you that the ComEd® Energy Efficiency Program has reviewed your pre-approval application and reserved \$450,000.00 for this project based on the following description:

Public Sector Measures	Quantity
Street Lights	351427

Funds will be reserved until 12/15/2017. Reserved funds may not be transferred to other projects, facilities or customers.

Please note that a reservation does not guarantee an incentive. The actual incentive amount paid will be based on our review at the end of each phase of this project for the actual number of street lights installed during that phase. We will review the final application and supporting documentation of equipment installed, and it will be subject to current program year specifications, terms and conditions and incentive caps.

Estimated Incentive per Phase

Phase	Incentive	Date
1	\$ 224,949.69	11/10/2017
2	\$ 225,050.31	12/15/2017
Total	\$ 450,000	

It is essential that you comply with all terms and conditions and ensure that the equipment

you install meets the required specifications. Both customers and contractors must understand and comply with all specifications, terms and conditions. Equipment specifications and program terms and conditions can be found in the application and incentive worksheets, which are available at ComEd.com/BizIncentives; public sector applications are available at ComEd.com/PSEE.

As each phase is completed, the "Public Street Lighting Tracking Sheet" must be completed and submitted along with the final application for each phase. Additionally, the account number of each street light must be provided. To expedite final application processing, please submit all requested supporting documentation specified in the application and incentive worksheet(s). The incentive will not be paid unless all the above documentation is received.

All replaced equipment must be recycled/disposed of according to state, federal, and local regulations. Information about State of Illinois requirements can be found at the Illinois Environmental Protection Agency website: <http://www.epa.state.il.us/land/citizen-involvement/recycling/>.

We appreciate your program participation and the energy efficiency efforts your organization is undertaking to save energy. If you have questions, please call us at (855) 433-2700 or email us at BusinessEE@ComEd.com.

Sincerely,

Ashley Harrington
Senior Energy Efficiency Program Manager
ComEd Energy Efficiency Program

* Please be advised that, at the end of the year, a 1099 Form may be issued to the IRS for cumulative incentives paid during year 2017 to your business. You should discuss the tax treatment of these incentives with your tax adviser.
