

FIRE STATION ALERTING SYSTEM

PURVIS SYSTEMS

PURVIS SYSTEMS

Resolution: 23-0962

Matt Anslow: Assistant Chief, Aurora Fire Department

Thomas Collier: IT Project Manager

Rick Foster: PURVIS Systems, VP Public Safety Business Unit

Video Place holder

Current System

Outdated and Deficient

- In service since 1990s
- Faulty software and hardware
- Increased system downtime
- Inconsistent alerting of fire personnel, stations, and vehicles.

PURVIS Fire Station Alerting System

PERFORMANCE YOU CAN COUNT ON

The PURVIS FSAS solution consists of:

- **The PURVIS FSAS product that provides:**
 - High system reliability & availability
 - Tailored implementation
 - NFPA compliance
 - Scalability through COTS device options
- Well-established project management methodology with a repeatedly proven, clearly defined, phased project approach.
- A comprehensive warranty and maintenance program.
- An ongoing relationship and dependable support with a stable company that will be here for the long term.
- **Public Safety cannot afford shortcuts!**

The PURVIS FSAS in Glynn County, GA has reduced call processing times by more than 60%

PURVIS Fire Station Alerting System

FSAS Features to Improve Operations

DISPATCH CENTER

- ▶ CAD & Radio Integration
- ▶ Automated Voice
- ▶ Targeted Alerts
- ▶ Redundancy

FIRE STATION

- ▶ IP & Radio Alerting
- ▶ Ramped Audio & Lighting
- ▶ Message Board Displays
- ▶ Doorbell / Camera with Dispatch Integration

ON THE GO

- ▶ Radio
- ▶ Email
- ▶ Mobile

“In terms of our dispatchers, you might have someone with a strong accent, you might not hear an address, you might not hear unit as clearly as you do with the automated system. The **automated system clearly elaborates on every unit, the address**, so **you know where you are going**, and **you have no issues about understanding**.” - Training Officer, Pasco County
