Aurora, IL 60505

To Whom it May Concern:

My company, Pro-Tech Security Sales, is grateful for the opportunity to be a potential source of law enforcement products, more specifically, the opportunity to provide the "riot gear" attached herein.

Pro-Tech Sales was formed in 1988 with the simple mission of providing the newest, highest-quality equipment to law enforcement agencies throughout the United States. Over the years, Pro-Tech Sales has added more than 40 manufacturers to the list of companies we represent. Both our experience and the breadth of our product lines enable us to offer you and your agency complete, affordable, and easy-to-use equipment systems.

Among the 40+ manufacturers we represent, we naturally have products specifically for riot control teams and corrections officers. These manufacturers are H.W.I., Sirchie/Premier Crown, and Safariland Group; all well-known and well respected vendors in the industry. These vendors manufacture the line items in the Proposal your city Police Department has requested. These items all come with a standard one-year limited warranty from manufacturer defects.

As we've been in business over 30 years, we have an extensive list of customers who have purchased, and re-purchased, products from us. Below is a short list of recent customers in your geographical area who have bought similar or exact gear from Pro-Tech.

Kane County, IL
Elgin, IL
Chicago, IL
Chicago Police Academy, IL
Champaign, IL

I would like to thank you again for this opportunity and hope you will reach out with any questions. I will enclose specification sheets for the items on the Proposal.

Be safe.

Eric Drellishak
VP, Operations
Pro-Tech Security Sales

906 Series TacElite EPR Polycarbonate Alloy Riot Helmet

SKU: 906Series

+ Add to Wishlist

Description

Sold to Law Enforcement Only!

All riot helmets are shipped with a Double D-Ring fastener installed. A Quick Release Buckle is also included, but requires installation by the user. [Click here for instructions.](#)

Our most popular tactical helmet provides outstanding protection and superior comfort. The model 906 features an optically clear, UV resistant, polycarbonate face shield with an integrally molded liquid seal. The model 906 is trusted by thousands of law enforcement agencies around the world to protect their valuable men and women in any riot situation.

Available in three sizes:

Size	English	Metric
Universal	6 1/2" - 7 5/8"	16.5cm - 19.4cm
XL	7 3/4" - 8 1/8"	19.7cm - 20.6cm
Jumbo	8 1/4" - 8 1/2"	20.9cm - 21.6cm

Specifications:

- TacElite EPR™ polycarbonate alloy helmet shell.
- Expanded polystyrene liner with padded, sweat-wicking inner liner
- Permanently mounted neck protector with Kydex® penetration shield and shock absorbent foam pad
- Detachable .150" (3.8mm) thick face shield with liquid seal prevents liquids from seeping into officer's eyes
- Molded lip on top edge of face shield prevents shield from closing over integral visor and striking the face
- Double D-ring fastener provides maximum strength and slip resistance. *NIJ compliant quick release buckle also included (user installation required).*
- Snap-on nape pad with Kydex® penetration shield, shock-absorbent foam pads and chemical-resistant black Cordura® cover
- Plastic chin cup for added comfort when harness is tightened. *Optional chin pad available.*
- Face guard: Steel wire with black nylon coating and welded joints for maximum strength and safety. Wire guard is form fitted to match radius of face shield and is attached by four heavy-duty nylon clips. Viewing area: 2 3/4" x 8 1/2" (7.0cm x 21.6cm) (Model 906C only)
- Weight Model 906: 3.2 lbs. (1.5 Kg)
- Weight Model 906FS6: 3.2 lbs. (1.5 Kg)
- Weight Model 906C: 4 lbs. (1.8 Kg)
- Meets or exceeds NIJ Standard for Riot Helmets, NIJ 0104.02* (Model 906 only)

ED100- ELITE DEFENDER RIOT SUIT

PERFORMANCE GEAR

The Elite Defender Riot Suit’s contour-molded outer shell with impact ridges combined with the natural shock absorption characteristics of polyethylene plastic effectively disperses the brunt or impact of blows, jabs, and projectiles. The inner portion consists of 1/2” EVA foam sections cut into small rectangles and then sewn into a full torso/back protective shell with layers of polyester mesh and brushed polyester for ventilation and comfort. An added layer of polyethylene plastic on top of each small rectangle provides additional blunt force protection. The less-vital areas of the shins, arms, shoulders and thighs are protected with polyethylene plastic and dense foam for blunt force protection. The suit is primarily designed to withstand blows and absorb the shock of thrown projectiles.
