RE: Byron Jackson New Motor/pump Sales and Well Pump Maintenance

At the request of our Illinois Flowserve/Byron Jackson distributor Layne Christensen, please be advised that Layne is our sole source representative for vertical submersible turbine well pumps in the state of Illinois. This includes new equipment sales, both pumps and motors, as well as Byron Jackson motor repair and replacement. This specifically includes municipal and industrial applications that are pumping water. (Potable or non-Potable). Furthermore, any contractor claiming to offer a Byron Jackson Submersible motor in Illinois, besides Layne – Aurora, is not offering a Flowserve factory supported motor.

Also please note that Layne Christensen field service crews have received both factory and field training in the proper handling of Byron Jackson well pumps and The Byron Jackson Type H mercury-sealed motors. Untrained non-Layne crews may not be capable of safely and properly handling the Byron Jackson Type H submersible motors and could void the warranty.

It is imperative that the factory certified personnel should service these Byron Jackson EPA and NSF approved Type H mercury-sealed motors, as well as Byron Jackson replacement double-mechanical seal motors. This would prevent any potential environmental concerns due to improper handling.

If you have any questions, please feel free to call me at 402-984-2189.

Sincerely,

Flowserve Corporation
