Subject: Lindens Entrance (Prairie and Meadowsedge)

Importance: High

Ken,

I live in the Lindens off Prairie and have a safety concern with the entrance. The neighborhood does not have any rules against parking on the street, but with people parking along the road adjacent to the entrance, it has become a safety concern. When pulling into the subdivision off Prairie you may encounter parked vehicles on Meadowsedge causing a pinch point, especially if vehicles are exiting the subdivision. This same issue occurs at the intersection of Sumac and Meadowsedge, where the residents at 540 Meadowsedge park multiple vehicles on the street. They park perpendicular to Sumac drive, making the intersection one lane. I have attached a PDF overview of the concerns.

I am not 100% sure on the rules for parking around intersections and entrances, but I have attached a PDF with proposed no parking areas that I believe will help mitigate the risks.

Thanks,

Chris Kirby
