These Terms, including the SOW, constitutes the entire agreement between NuHarbor and Client concerning the subject matter of these Terms and supersedes all prior simultaneous proposals, agreements, understandings, or other communications between the parties, oral or written, regarding such subject matter. Section headings are for convenience only and shall not affect interpretation of the relevant section. No supplement, modification, or amendment of these Terms shall be binding, unless executed in writing and signed by authorized representative of each party. No provision of any purchase order or other form provided by Client will supersede these Terms and any such document shall be for administrative purposes only and shall have no legal effect. If any provision of these Terms is held invalid or unenforceable, the remainder of these Terms will continue in full force and effect. No waiver will be implied from conduct or failure to enforce or exercise rights under these Terms, nor will any waiver be effective unless in writing and signed by an authorized representative on behalf of the party claimed to have waived.

Governing Law. These Terms shall be governed by the laws of the State of Illinois excluding any rule or principle that would apply the substantive law of any other jurisdiction. For all disputes relating to this Agreement, each party irrevocably submits to the exclusive jurisdiction and venue for the adjudication of such disputes shall be the Circuit Court of the Sixteenth Judicial Circuit, Kane County, Illinois, and each party waives any jurisdictional, venue, or inconvenient forum objections to such courts.

Microsoft Relationship. Client acknowledges that NuHarbor may receive monetary fees, commission or compensation from Microsoft in connection with the Services provided to Client.

Security Threat Disclaimer. Information provided by Client, including, if applicable, the proper logging of all data, is necessary to evaluate global risks, and certain security threats may not be identified in any event due to data omission, low frequency and/or latency. NuHarbor's Services are reliant on third-party products that may not always be available, or which may not provide timely information to NuHarbor regarding a security threat. Client acknowledges and agrees that NuHarbor's Services could not reasonably capture every possible security threat to Client and as such, Client shall not be entitled to any refund, rebate, discount, or any other financial remuneration for any security threat not identified and/or evaluated by NuHarbor, and NuHarbor will not have any liability or obligation of any kind in connection with any such threat.

Acceptance. Any Services or Deliverables provided to Client will be deemed accepted unless Client provides written notice of rejection to NuHarbor within ten (10) business days following delivery. Any such notice must identify a failure of the Services or Deliverables to materially conform to this SOW. NuHarbor shall promptly remedy any such material failure and redeliver conforming Services or Deliverables. In the event that Client repeatedly rejects the Services or Deliverables, NuHarbor or Client may terminate this SOW upon written notice.

Effect of Termination. Upon expiration or termination of this SOW, (a) each Party shall return to the other Party or destroy all of the other Party’s Confidential Information relating to this SOW, (b) all rights and licenses granted by NuHarbor to Client hereunder shall immediately terminate, and (c) NuHarbor shall have no obligation to provide any further Services under this SOW to Client.

IN WITNESS WHEREOF, the parties hereto have executed this SOW to be effective as of the date last written below.

Client will be responsible for all sanitization costs incurred by Splunk if users introduce classified data into the Hosted Services in the AWS GovCloud (US) region.
