November 15, 2021

Ms. Tracey Vacek

Please accept this as our formal request for a one-year extension of our special use permit for the property located at 1415 Corporate Blvd. Aurora, IL until 12/31/22. As you know, construction is substantially complete at that location, and NuEra remains committed to start operations as soon as permitted by the state. The reason for this request is to allow for delays in licensing and inspection by the State of Illinois, without which we are not able to legally operate a cannabis dispensary.

Please rest assured that our team is committed to the city of Aurora and to operating in this location, and we look forward to opening our doors to the public as soon as all State approvals are complete.

Thank you,

James P. Hughes Jr.
