Dear Deputy Chief David McCabe,

As of the date of this letter, as a result of some reorganization of our distribution structure, currently Municipal Emergency Services (MES) is the only distributor of 3M Scott Fire and Safety products serving Cook, DuPage, Kane and Will counties in Illinois that is trained and authorized to provide products and services to municipal fire service customers. If you have any further questions please contact me.

Thank you for your business.

Regards,

Ray Redell
