To Whom It May Concern:

This letter is our formal request for a house placement variance for lot 28 in Tanglewood Oaks, a subdivision in the city of Aurora.

Based on document 2005K089556 Plat of Survey Permit dated 5 September 2016, the northwest corner of the back of the house is to be situated 10 feet from the retaining wall separating the Tanglewood home property from the common area/forest preserve.

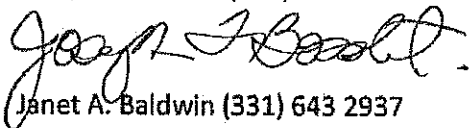

We are requesting no less than 10 feet be added to the existing 10 feet starting at the northwest corner and shifting the placement of the home.

This request for a variance will create a usable backyard area that will be consistent with the other homes that back up to the retaining wall.

We look forward to living in Aurora and that you will allow the variance we are requesting. If you require any additional information, please do not hesitate to contact us directly.

Sincerely,

Joseph T. Bosslet (847) 951 6535

Janet A. Baldwin (331) 643 2937
