

MASIMO CORPORATION  
Forty Parker  
Irvine, CA 92618

May 13, 2013

To Whom It May Concern:

Masimo is a global medical technology company that develops and manufactures innovative noninvasive patient monitoring technologies that includes medical devices and a wide array of sensors. A key medical technology innovator, Masimo is responsible for the invention of award-winning noninvasive technologies that are revolutionizing patient monitoring including Masimo SET® pulse oximetry, Masimo Rainbow SET® noninvasive carboxyhemoglobin (SpCO™), methemoglobin (SpMet™), and continuous hemoglobin (SpHb™) monitoring.

Masimo is the **sole manufacturer and supplier** of the Rad-57™ Pulse CO-oximeter with Rainbow technology that can be configured to non-invasively measure SpO<sub>2</sub>, and pulse rate, SpCO, SpMet, and/or SpHb. Additionally, **maintenance and customer support** can only be provided by Masimo.

Masimo's Rainbow Technology is the only technology that has been cleared by the Food and Drug Administration (FDA) to non-invasively measure SpCO, SpMet and SpHb in the bloodstream utilizing a finger sensor. The Rad-57 configured with one or more Rainbow technologies is sold directly by Masimo and is not available through any other distribution channels to the fire, EMS and federal government market segments. Masimo's specialized technology is the gold standard by which SpO<sub>2</sub> is measured and utilizes this technology to provide unparalleled performance through patient motion and low perfusion conditions.

Sincerely,  
Masimo Corporation
