Total Cost to City:		\$141,800	

DRONE DISPLAY

NARRATIVE PROJECTION MAPPING

“Radiance” is a story on the birth of light, the interplay of color, and how coming apart can bring us all together.

Flow with energy from point to point along the weave of color that makes up our world as we travel from portal to portal on our journey back to the source.

Connecting to Aurora’s history as the City of Lights, this story plays with the very concept of light itself.

Creative Proposal: Storyboard

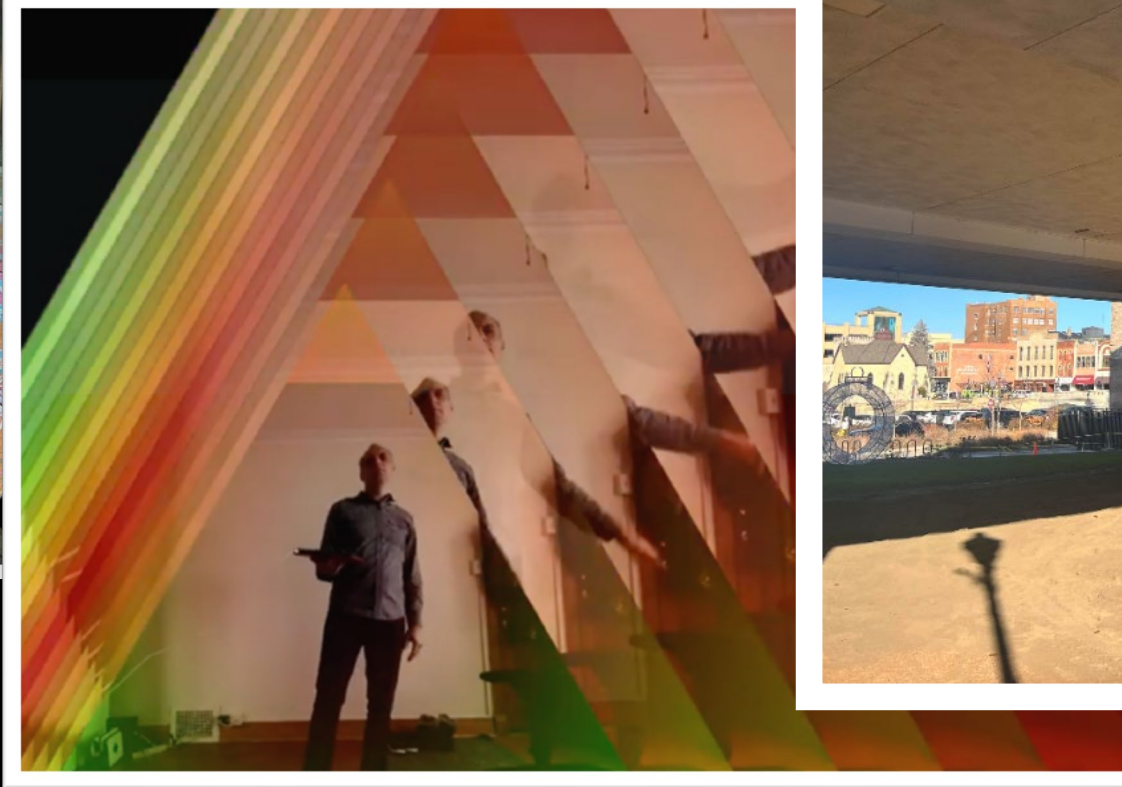

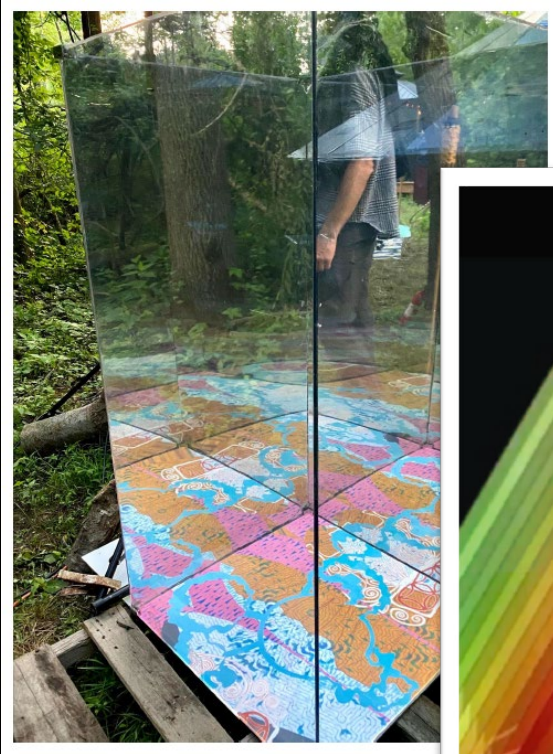

RESPONSIVE PROJECTION MAPPING
