

Leveraging technology to build a safer community and improve APD effectiveness.

1. We have a stronger connection with the community.

- Axon My90 Survey Program
- Aurora Police Department Transparency Hub
- Axon Community Request Evidence Submission

2. We improved our real-time situational awareness.

- Situational awareness cameras
- Axon Respond / Real-Time Operational Software
- Drones
- Sound Thinking Detection System

3. We enhanced our investigative techniques.

- Review various types of camera footage for investigative leads.
- National Integrated Ballistic Information Network (NIBIN)
- Crime Analysis Software to complement intelligence-led policing strategy

Technology on the horizon for APD

1. LexisNexis Desk Officer Reporting System - Online Reporting Software
2. Internal and external dashboards for Axon My90 survey results
3. Upgrade to AB4 Body Worn Cameras
4. FUSUS platform - a unified real-time intelligence ecosystem
5. 911 PSAP Center modernization
