

CentralSquare Payments

CentralSquare has leveraged the power of Paya by directly integrating the Paya Connect payments suite into the CentralSquare payment offering.

INTEGRATION

In partnership with Paya, CentralSquare Payments enables payments to be fully managed within the CentralSquare platform. CentralSquare customers can take advantage of:

- One-stop shop for a full function payment solution
- Direct integration with Paya, a leading provider of complete electronic bill presentment and payment solutions
- Powerful cloud-based platform, designed for flexibility and scalability
- Expertise in payments, billing and technology
- A single point of contact for all merchant services
- Scalable, secure solution with up to 99.99% availability
- Ability to manage payments in real-time across multiple transactional systems

FEATURES

CentralSquare Payments' integration with Paya provides customers with multiple payment methods and channels to help alleviate common critical points of friction leading to an increase e-payment adoption among your community.
