Re: Stolp Avenue Parking Structure  
2018 Maintenance Repairs  
Contract No. 18-38  
Walker Project No. 31-8314.10

Dear Mr. Hopp:

We have reviewed the five bids submitted on the above referenced project, and we have determined that National Restoration Systems, Inc. has submitted the lowest total bid for the scope of work for 2018. Walker has successfully worked with National Restoration Systems, Inc. on other municipal projects without any difficulties.

Based upon the five submitted bids and documentation, Walker Consultants hereby recommends that the City of Aurora select National Restoration Systems, Inc. for the 2018 work.

If you have any questions or comments, please give me a call.

Very truly yours,  
Walker Restoration Consultants

  
Laurence C. Susmarski  
Project Manager
